The school here will open Monday, September 28th. The teachers as recently elected are as follows: Prof. G. B. A meeting was held in the street here Saturday afternoon and W. J. Tiller talked to the farmers about sowing oats, vetch and clovers. He told how he had bought ten thousand pounds of vetch for the farmers of the county last spring before the rise in price, and told the farmers that they can now buy vetch seed at a reasonable price. As a result of the meeting orders were taken for about eighteen hundred pounds of vetch seed at about eight cents per pound. Orders were taken also for fifteen or twenty bushels of burr clover seed and for several bushels of crimson clover seed. Mr. Tiller mailed the order yesterday and the seed are expected in a week or ten days. The Department of Agriculture at Washington is furnishing free inoculation for these crops and every man who bought seed is preparing to inoculate the seed.
