A protracted meeting was begun in the Presbyterian church last Sunday morning. The meeting will be carried on through Friday night. The hours of service are 3:30 in the afternoon and 8:15 at night. He is a strong, pleasing speaker and is preaching some searching sermons. He is also a good singer.

The dry weather which has lasted about six weeks has damaged crops very much in this section. Late corn and cotton will make very little. Old corn was made before it became so dry. There have been local showers, and in some sections little damage has been done, while on farms only a few miles away there has been no rain. The Five Forks section has probably suffered more than any other section near Pageland. Cotton is beginning to open in many places, and the crop will be light unless rain comes at once.
