Machinery of Draft Set in Motion Again

Washington, Nov. 10.—President Wilson formally put the new machinery for the carrying out of the selective draft bill into operation tonight with the publication of the foreword he has written to the regulations under which the second call will be made. The regulations themselves and the questionnaires which more than 9,000,000 registrants will be required to fill out are being forwarded to local boards but have not yet been made public.

War department officials estimate that the whole process can be completed within 60 days. This means that no second call will be made upon the draft forces before the middle of next February of the period of classification will not begin until December 15.

The president describes the new plan of dividing all registered men not already mobilized into five classes, subject to military services by classes, as being intended to produce "a more perfect organization of our man power."

"The selective principle must be carried to its logical conclusion," the president said. And he added there must be made a complete inventory of qualifications of each registrant in order to determine "the place in the military, industrial or agricultural ranks of the nation in which his experience and training can best be made to serve the common good."

The inquiry projected in the questionnaire will go deep into the qualifications of each of nearly 10,000,000 men. The success of the plan and its completion within the estimated time rests absolutely upon the whole hearted support given by the people, especially by the doctors and lawyers of each community and the president calls upon them for their unstinted aid.

New Draft Regulations; All Exemptions and Discharges Revoked.

A set of entirely new regulations have been worked out for classifying the 9,000,000 registrants who have not been drafted into service. All the exemptions and discharges granted by local and district boards have been revoked. Every man who registered on June 5th must answer a long list of questions and be placed in one of the five classes into which all the available names will be divided. A long list of questions, called a questionnaire, will be mailed to each registrant.

Under its term, the exact physical, mental, social, commercial and industrial status of every registrant will be fixed. It will give the government data on how many ship builders, foresters, brick layers, hod carriers, musicians and every other type of man power is at its disposal. Speedy mobilization and equipment of units for any war task will be possible, efficiency that was practically impossible under the old draft system. The new method will enable the government to exempt men with closer regard to the nation's labor needs in all lines.

A place will be arranged near each local board headquarters where the men may fill out their questions. Under the direction of county judges or other officials, a committee will see that there are always plenty of lawyers to help the registrants to do this.

Questionnaires will be mailed to five per cent of the registrants each day beginning December 15. Each man has seven days to fill out and return the list. December 23 the boards begin placing the men in five classes. They should finish their work about February 13 and soon after the second draft may be expected.

Below are the five classes into which all the names will be divided:

CLASS I.

- A—Single man without dependent relatives.
- B—Married man, with or without children, who has habitually failed to support.
- C—Married man dependent on wife for support.
- D—Married man, with or without children, or father of motherless children; man not usefully engaged, family supported by income independent of his labor.
- E—Unskilled farm labor.
- F—Unskilled industrial laborer.
- G—Registrant by or in respect of whom no deferred classification is claimed or made.
- H—Registrant who fails to submit Questionnaire and in respect of whom no deferred classification is claimed or made.
- I—All registrants not included in any other division in this schedule.

CLASS II.

A—Married man with children or father or motherless children, where such wife or children, such motherless children are not mainly dependent upon his labor for support for the reason that there are other reasonably certain sources of adequate support (exclusive of earnings or possible earnings from the labor of the wife)

available, and that the removal of the registrant of support.

B—Married man, without children, whose wife, although the registrant is engaged in a useful occupation, is not mainly dependent upon his labor for support, for the reason that the wife is skilled in some special class of work which she is physically able to perform and in which she is employed, or in which there is an immediate opening for her under conditions that will enable her to support herself recently and without suffering or hardship.

C—Necessary skilful farm laborer in necessary agricultural enterprise.

D—Necessary skilled industrial laborer in necessary industrial enterprise.

Class III

A—Man with dependent children (not his own) but toward whom he stands in relation of parent.

(The question to be answered by each registrant will be published next week.

County Seat News Notes

Messrs Hanna & Hunley have opened up law offices in the Bank of Cheraw with Mr. R. E. Hanna in personal charge. Mr. Charles L. Hunley will have charge of the Chesterfield office. The friends of Mr. and Mrs. Hanna regret to lose them from the social life of Chesterfield.

First Class Private Henry Douglass, Clerk of Company I, 118th Infantry, was home from Camp Seyier, at Greenville, to take in the Annual County Fair. Not many men would resign a position as Bank Cashier, like Henry Douglass did, and volunteer their services as a private in the Army. This Chesterfield boy is getting on fine in the Army. Henry's friends will follow his Army career with interest.

First Lieut. P. A. Murray, Jr., United States Marine Corps, is home on a week's furlough, after having completed a three months' course in the officers school at Quantico, Va. "Pat" entered the Marine Corps as a Second Lieut, and his friends are glad to note that he has been promoted to a First Lieut. He has been assigned to the 9th Regiment of the Marine, which is understood to be an Overseas Regiment, and it is thought their destination is Italy.

Mr. Joe K. Sowell, a popular Chesterfield boy of the Shiloh section, who volunteered for the Ambulance Corps last summer, and who has been stationed for the last few months at Allentown, Pa., as a member of the Allentown section No. 526 United States Army, has been home for the past week on a furlough. Joe has been very busy shaking hands with his numerous friends. He enjoyed the County Fair, and will leave Friday night to rejoin his section at Allentown. Joe reports Isom Teal and Martus Rivers are both getting along nicely at Allentown, and that they expect to come home Christmas. Joe is loud in his praises of the kind treatment that the Southern boys in the Ambulance section have been receiving from the men and ladies at Allentown. Every Sunday they have a special invitation to take dinner in the homes of the good people there, and they are offered the use of private baths, and every other convenience and luxury possible. No distinction is made by the people of Allentown between officers and men; the only question is whether one behaves as a gentleman or not and his rank has nothing to do with the matter. This is quite different from the tales that come from Columbia, as to treatment received by the men there. Joe has been promoted and is now a first class private.

Truck Went Through Bridge

A 3 ton truck, driven by Mr. Hugh Houston, went through the bridge over little Brown creek on the Polkton road early last Sunday morning. Mr. Houston was not injured except for a few bruises, and the truck was not damaged materially. The Wadesboro Messenger & Intelligencer says that the bridge which went down has been supporting lumber wagons all right, but the big truck was too much for it. The truck was gotten out of the creek Sunday afternoon.

More Wheat Must Be Seeded

The following letter has been sent to all the demonstration agents in the state:

I have been scanning your field reports for the last two weeks with a great deal of interest, especially for the purpose of getting such information from them as you have given concerning the seeding of grains, especially wheat, in your respective counties.

I have been greatly disappointed in the information that I have obtained. Up to this time, little grain, and especially wheat, has been seeded. There is little time left if we expect to obtain a profitable crop at next harvest time. Surely our people have forgotten the call by our government for the seeding of an increased acreage in wheat to the amount of thirty-seven per cent over last year. Last year's acreage in the was 225,000 acres. In order to meet the demands of the Government we should seed 350,000 acres. This is absolutely necessary if we are to do our part in furnishing the bread supply for our armies and the armies of our Allies.

We are asking our young men to defend our honor and our liberty, if need be by giving up their lives. If they are willing to die for us, surely our people should be willing to live for them.

Please have this letter published in all of your county papers and bring every influence to bear, that we may meet the sacred demands of our Government.

Yours very truly,
W. W. LONG, Director.
