A BIG STURGEON .- Mr. Harley caught a sturgeon, which was displayed on our streets on Saturday, measuring between five and six feet, and weighing, we are informed, about seventy pounds. It was carried by two men with a pole passed through the gills, its tail touching the

To SCHOOL TRUSTEES,—The Clerks of the Boards of School Trustees in our County are requested to read the School oners notice in another column. The reports required are very important, and, if Record Books are not at hand, written reports will answer. Send them in before September 15th.

FINE COTTON .- Mr. Cephas Mc-Michael sent to our office on Wednesday of last week one of the finest stalks of cotton we have seen this season. It was six feet high, and we counted upon it over fifty bolls besides a profusion of forms. An acre of such cotton would be worth four or five acres of the average weed. Why then not adopt the intensive system of farming?

WASHED DOWN STREAM,-Mr. Luther W. Hydrick had a very narrow escape from drowning in Snake Swamp on last Thursday. He attempted to drive a buggy across the branch in the road, which was so deep that it washed him with his horse and buggy down stream against the foot logs below. Fortunately, Mr. Hydrick escape 1 with-

A RIGHT STEP .- We are glad to hear that our police took steps on last Saturday night towards the dispersing of the crowds of rowdy negroes that obstruct the sidewalks on Russell street, especially on Saturday nights, by arcesting some of the most turbulent characters. This is a step in the right direction. which will receive the commendation of all lovers of peace and order.

AN ACCIDENT .- While Mr. Maner V. Izlar was standing by a large iron wheel belonging to some machinery that was lying at the depot, in some way, he touched the wheel and caused it to fall upon his leg. He was fastened to the platform for some time by the weight of the wheel, and his leg so badly hurt that he was confined to his bed for two weeks. It is thought that the bone was slightly fractured. We are glad, however, to see that he is out again and rapidly recovering from the injury.

THE RURAL EDITOR'S TRIALS. People with a high appreciation of their beloved dead will pay the undertaker well for the coffin and the use of his hearse; they will pay the sexton for digging the grave, and generally the minis-ter for preaching the sermon—and then will come to the country editor with a long piece rehearsing the many virtues of the deceased, which they expect to have republished free. This is what they call the fitness of things. We find it impossible to make people believe it

I bear you no malice, Editor Ashe. The devil shall not cheat me at that point. I sincerely invoke God's bless-ing upon you, and I pray that in mercy He may make your heart as soft as

your head is." Local politics in Charleston are beginning to warm up. Colonel Joseph W. Barnwell, Chairman of the City Democratic Executive Committee in the municipal campaign, has announced himself as a candidate for Mayor against the present Mayor, Courtenay. Courtenay's friends have begun an active canvass of the city, and are securing signers to a paper stating that his administration for the past four years has been eminently satisfactory to the tax payers of that city and requesting him to take the field for re-election. The Democratic primary election will be held on September 25, when the compaign will assume a posi-

tive shape. CITIZEN'S MEETING.-We direct attention to the call in another column for meeting of the voters of cur town at the Engine House, on Friday night, to nominate candidates for Mayor and Aldermen at the coming election. The call is signed by a large number of citizens, and we hope that the meeting will be well attended, and that it may result wise and harmonious action. We want good men in charge of our municipal affairs, and we know of no better way of getting them than for the citizens in their collective capacity to nominate a ticket of their choice, and then stick to it. Let every voter who can, come out.

BASE BALL .- A game of Base Ball was played on the Green on last Thursday afternoon between the "Champions' of Orangeburg and the "Hendersons" of Barnwell. The game was a close and exciting one, and, dark coming on, it was called, before completion, with a score of 34 to 31 in favor of the "Hender-2013." The Barnwell boys were a clever set and made a very favorable impression in our town. Mr. Royall, umpire, was much admired for the fair and gentlemanly manner in which he made his decisions. As the busy season is about setting in, the time of laying the next game is somewhat mdefinite. We hope the Barnwell boys will pay us another visit at no distant They will always be welcome.

A NARROW ESCAPE .- Mr. John H. Fanning, living near town, came up one day last week, and brought with him a crocus bag in which he carried a few packages home. When he got home, he took the packages out, and put the bag down in a corner of his bed-room. The next morning, he took up the bag and went into his watermelon patch and put in a watermelon or two, without leaving the bag on the ground at all. Coming back to the house, he emptied out the watermelons, when out crawled an enormous pilot rattle snake. The snake was willed and a whole rat was found in its stomach. The supposition is, that the snake got into the bag in Mr. Fanning's bed-room during the night, and the rat. also making a nocturnal visit to the bag. was swallowed. It was certainly a nar-

Five handsome young ladies visited our office during the past week. What do our old bachelor friends, Holmes and McSweeny, think of that? Some of the smaller watering places

are so dull and sleepy that mosquitoes come out on the hotel piazzas and yawn while waiting for the city train to come. Physicians say that ginger ale is a poor substitute for water, because the apsicum it contains irritates the lining of the stomach and produces dangerous

nflammation. Mr. A. M. Izlar will have a blacksmith started m a few days in the rear of Dr. A S. Hydrick's lot to open on the lane by the Methodist Church. It will be run by Mr. Howell.

The school vacation is drawing toward close, and the boys and girls who have been having a good time generally, will soon have to brush the dust from their ooks and start on another session. If a Long Branch correspondent is to be believed, they are wearing very cool

The average young lady is a queer piece of calico and fixins! She wants t least four feet of seat in a railroad car to ride a mile or two; but she will ride alf a day Sunday squeezed into a buggy seat beside her young man and not find the least fault. Why are they not more consistent?

The Columbia Feoman says: "The Rev. T. C. M. Golland, who is now in ail at Orangeburg, charged with stealng a horse, has so far recovered from is simulated insanity that he will probably soon be sent back to Colleton to stand his trial." Our cotemporary is

mistaken. Golland is not in our jail. The editor of "The Owl," an anonynous paper which appeared in Atlanta last week, has come to grief. A friend of young lady, on Simpson street, whom "The Owl" called a dudine, went to his office and thrashed out the whole concern. Six other individuals were looking for "The Ow!" editorly last accounts, but he could not be found.

We want our town properly kept up and gradually improved within the scope of our means, but we want no reckless and extravagant taxation. A Council that will look to the interest of the taxpayers, and, at the same, time do all that can be done towards improvement and progress, is the Council to elect. We want economy with improvement.

The Atlanta Journal having published statement about an editor that was drunk with \$3.000 in his pocket, the Griffin Sun replies as follows: "We don't believe that was an editor, because ditors, hardly ever get drunk, and that \$3,000 is proof positive that it was some other than a newspaper man. THE BROOM DRILL,-The Broom Drill on last Friday evening was a grand success. The popularity of the young ladies composing the two com-panies, and the reputation they have atained for superior drilling, drew a crowded house. Mr. M. O. Dantzler acted, as before, as drill master of Company A, and Mr. N. H. Bull, of Company B. About half-past 8 o'clock, the two com-panies with their bright and attractive niforms, charming faces and military trend, entered the hall to the tap of the pergotti's School will be resumed on drum. An open space was left in the centre of the spacious room in which the drilling was executed, and the audience sat around where a good view of all the maneuvers could be obtained. Excellent music was furnished by the Edisto Band. and everything tended to gavety and pleasure. The two companies vied with each other for nearly two hours, every

one present being charmed with the grace and accuracy of their movements. The judges found it a difficult task to decide where both did so well. Finally. Company A was adjudged the winner of the prize. It will be remembered that the last time Company B came off victorious, but it seems that Company A determined not to stay whipped, and now the two are even and ready for another contest. The contest next came for the individual prize. This too was exceedingly exciting. Misses Bertha have it.
Albrieght and Rena Bull were the two See A the 3d of September, where meals will last who were left on the floor to vie who have beeswax, cow hides or wool with each other for victory. After a long and spirited trial, in which both the contestants won the repeated applause of the audience, the decision was rendered in favor of Miss Rena Bull. The company prize was awarded by Mr. B. H. Moss, and the individual prize by Capt. J. A. Hamilton. The pleasures of the evening then closed with the recitation by Miss Fannie Scruggs of "Shamus O'Brian." This was rendered in graceful and elegant style, and gave great enjoyment to the enraptured audience. Thus ended a delightful evening. The

first entertainment of the kind was given for the benefit of the Presbyterian Church. The proceeds of this went to the Methodist Church. We hope the ball will be kept in motion until all the churches have benefits, and we hope also that the public interest will be kept up so that each of the future entertai shall equal the past in success. A SNAKE HORROR .- On last Friday a rumor got afloat that a huge rattle snake was secreted in a car load of watermelons that had just arrived at our depot. The affair caused considerable excitement, and the more it was talked

He had been gradually declining in health for the past year or two, but continued at his post of business with characteristic energy until it was impossible to bear up any longer. He was confined to his bed but a few days when death relieved him of his sufferings. Within the past few years, a father, mother and brother preceded him to the grave. His fuueral services took place at the Methodist Church on Tuesday morning before a large congregation, Rev. W. R. Richardson officiating. The Elliott and Young America Fire Companies, the Edisto Rifles and the Masonic brotherhood turned out to pay the last tribute of respect to his memory. His body was taken to the family burying ground, about fifteen miles from Orangeburg, for interment.
