**CLEMSON COLLEGE NOTES.**

**Graduation Exercises to Be Held on the 18th of June.**

The first ball game of the season was played on the campus, between the University of Georgia and Clemson on March 27th. Despite the fact that the weather was disagreeable, a large crowd saw the game. Both teams did splendid work. Clemson put up a hard fight, but was defeated by the Georgia boys. The score for this first game stood 5 to 2 in favor of Georgia. A second game was played on the evening of March 28th. The game was snappy from start to finish, but the victory was snatched from Clemson again. The score was 3 to 0 in favor of Georgia.

As the college opened one week later last September than it has done heretofore, commencement exercises will be one week later. The baccalaureate sermon will be delivered on the 11th of June and the graduating exercises will be held on the 13th.

The contract for the new Dairy Building has been given to D. M. Jordan, of Greenville. Excavations are now in progress, and the construction will begin in about two weeks. The building is to be situated about 300 yards south of the Agricultural hall, on the site formerly occupied by Capt. Lewis' residence.

The Calhoun Literary Society held its annual celebration on Friday night, March 30. Mr. A. M. Salley of Orangeburg was the presiding officer. The following were the speakers: Mr. D. B. Hill of Bamberg, Mr. F. L. Ross of Gaffney, were the declaimers; Mr. J. T. Crawford, of Barto, Fla., and Mr. C. L. Sikes of Columbia were the orators; Mr. W. W. Foster of Gaffney, and Mr. B. H. Deason of McCormick, S. C. The winners of the medals were F. L. Ross, J. T. Crawford and B. H. Deason.

**ACTED VERY BADLY.**

**This Automobile Could Hardly Have Been From Here.**

The State of last Tuesday says: "Last Sunday afternoon an automobile coming in the direction of Columbia from Orangeburg was about to meet a wagon containing a man and two or three children. The man signalled the driver of the automobile and going to the head of his mule, tried to hold him. The automobile driver disregarded the signal and the car sped on. The mule broke away and ran from the road into a cotton field and broke the shafts. The car was then out of sight. Such accidents are all too common. They arouse resentment against all owners of automobiles. Respectable motorists exert themselves to prevent such behavior on the part of reckless drivers, but unless some method of apprehending and punishing the latter class, harsh legislation and prejudice on the part of juries against motorists will be the inevitable consequence.

This automobile could hardly have been from Orangeburg. But the effect of such reckless riding will make it harder on automobilist who would not think of acting as this one did. The guilty man should be apprehended and punished for his recklessness, not only as a help to honest automobilist, but as protection to people who have to travel the roads in vehicles.

**In Memoriam.**

In loving memory of our beloved son and brother, Edward Thomas Edwins, Jr., who died April 5, 1899. Twelve sad years have passed since he has left us.

Whom we loved and cherished dear. Can we help but feel so lonely. When our dear Tommie is not here?

No more his kind and loving face Shall light the gloom of home; Yet in memory's love we see him, While in sorrow we're alone.

We loved him; yes, we loved him; But Jesus loved him more, And He has sweetly called him To yonder shining shore.

The golden gates were open, A gentle voice said come, And with farewell unspoken He calmly entered home.

Twelve years have passed, and still We miss him; Friends may think the wound is healed; Little do they know the sorrow That lies in our hearts concealed.

Sweetest thoughts shall ever linger 'Round the grave where he is laid O'er from our hearts comes a bitter cry.

Oh, why did our dear Tommie die?—From his Loving Parents, Sisters and Brothers.

**Coast Line Trains Collide.** A dispatch from Sumter says there was another collision in the Atlantic Coast Line yard Monday night between a freight train and a passenger. The passenger from Augusta was coming in; the freight was shifting. The engine of the passenger hit a box car and demolished it; the passengers were very much jarred. The porter of the Pullman was thrown against a table and was injured enough to be removed to the hospital. The railroad yards at Sumter have been very congested of late and the freights are continually shifting over the passenger tracks. It is not a month ago that a passenger train standing in front of the station was run into by a shifting freight.

**A Man With a Past.** A man with a haunting past appeared in London social life. He rejected happiness because he dare not accept it. But he was mistaken and William J. Locke tells why, and all about the man in his engrossing novel, "The Usurper," at Sims' Book Store. Fifty cents.

**BOWMAN LETTER.**

**Happenings in and Around the Town of Bowman.**

Bowman, April 7.—Special.—The residence of Mr. Kimmie Shuler, a few miles above Bowman, was destroyed by fire about 9 o'clock last Wednesday night. Mr. Shuler was at Orangeburg at the time. The cause of the fire is not known but it is thought by some that rats started it, while others say it may possibly have been robbed and then fired. The building was insured, it is said, to the amount of \$800, which will cover in a large measure the loss.

Crops are being planted in the main somewhat later than usual. Some of the "early birds" however, are through planting corn and are on the rush for planting other crops. Some cotton is being planted, but the bulk of this crop will not be planted for several weeks yet. Fields of corn that were planted several weeks ago are beginning to show up but germination is not very rapid, owing to the late cold weather. More moisture and warm sunshine is badly needed just now in order to quicken the germination of seed now being planted.

Small grain is surely in need of a good soaking rain just now. The light showers from time to time have produced insufficient moisture for the growing grain crops and unless it comes quite soon, small grain will be almost a complete failure.

The past winter has indeed been a remarkable one so far as the weather is concerned as to precipitation. October being the last month in which anything like the usual amount of rain fell as per monthly quota. Since then only 6.07 inches has fallen to April 1st, 1911, with a normal deficiency of nearly 14.00 inches, a remarkable record. Of course this is the local record of the weather bureau office at Bowman which is practically correct for this entire section of country. There is "lots of rain" ahead somewhere. But when? That's the question. Who can answer?

Immense quantities of fertilizer is being handled here but the amount is beginning to diminish considerably now of late with only one train on the road the past week.

The Blake Lumber Co. is making fairly good headway in the construction of their road toward Four Hole swamp the present indicated terminal near Mr. George W. Wilson's large farm about seven miles from Bowman. This road has been hauling fertilizer too along the road as it is being completed saving no few miles of hauling the heavy stuff along some of the roads that are badly in need of repairs.

Mr. J. C. Evans went up to Orangeburg in his auto accompanied by Messrs. E. N. Mittle, O. P. Evans and M. J. Smith to see and hear "Polly of the Circus" last Wednesday night.

Several young men took their best girls up also to witness the play.

Miss Ethel Evans spent several days in the city as the guest of her cousin, Jas. A. Berry, Esq.

Mr. and Mrs. J. E. Jones of Creston spent some days this week with the family of Mr. M. A. Arant near Bowman.

Another one of those "fish suppers" is scheduled tonight at Livingston's pond. A good time is anticipated by the invited guests of the occasion.

Mrs. George Shuler, accompanied by her daughter Miss Alma, visited Bowman, her old home, a short while yesterday.

Wallace, son of Mr. W. J. Whetsell of this place, is on a visit here recuperating from a spell of small pox contracted while at Spartanburg.

"Dundee."

**The News From the Stores.** The relation of the merchant to his public is much like that of the newspaper man to his audience. The public, or at least the feminine end of it, picks up the newspaper with as much eagerness to learn the news of bargains and of styles as to see what the army is doing in Texas. The merchant who does not respond to this demand with a good story about his offerings and values, meets the same fate as the newspaper man who does not know a good piece of news when he meets it on the street. When advertising fails to attract, it is usually because the writer failed to make it newsworthy. In this spring season there is a human interest story in every retail business, story of the fleeting caprices of style, of shrewd bargaining by which the merchant has protected his customers, of overstocks that help family income go farther. The public listens, Mr. Merchant! Are you there?

**Bridge Over Edisto Burned.** A dispatch from Branchville says the Fitz bridge across the Edisto River, on the public road between Bamberg and Branchville, was burned on Wednesday. Fire was seen in about two hundred yards of the bridge by the carrier of the mail on Route No. 2 as he was on his rounds. Seeing that it was close to the bridge he informed the first residents beyond of state of affairs, and that they should attend to the matter. No heed was paid, and in a short time the bridge was on fire. Before the flames could be checked all of the swamp part of the bridge and a portion of the bridge over the bed of the stream was destroyed. The loss of this bridge at this time is a heavy blow to the farmers of that section, and also to Branchville.

**Three Were Killed.** A long distance telephone message from Monroeville, Ala., the county seat of Monroe county, north of Mobile, states that a cyclone struck a settlement near there Sunday night and that three persons were killed.
