#### From Force of Habit.

The Newbern Sun says: Newspaper men cannot afford automobiles, and most of us cannot even afford a plug horse, but nine-tenths of the papers of the state are earnest advocates of good roads. No danger of any one charging selfishness on that score." Newspaper men always advocate what is best for the masses, regardless of what effect it has on themselves. So it comes natural from the force of habit to advocate; good roads.

**What Is the Cause.**  
The Bishopville Leader and Vindicator says, "We have never seen the town cleaner and in better condition for health, yet we have any number of chill and fever cases. The cause is attributed to the dryness of the swamps and branches from the long drought which has caused an unusual amount of malaria and the continued high winds have driven it from the low places and scattered it broadcast on the land." There has been several cases of chills and fever in this city, and we would like to know what caused them?
