

Free Round Trip to Charleston The Retail Merchants Pay Your Fare.

Out-of-town shoppers may come to Charleston, stay from one to five days, attend the theatres, visit the island resorts, etc., do buying and have their railroad fare paid for the round trip. The only conditions to be complied with are: First, that your combined purchases amount to \$25 or more. Second, that you come from a point twenty-five miles or more distant. Third, that your fare must not exceed 5 per cent. of your total purchases.

The merchants of Charleston carry large and well assorted stocks. The matter of selection is easy; you have a variety to choose from. Their stocks are kept fresh by being replenished often. Prices are very reasonable, considering quality.

The following merchants are members of this refund plan and will be very glad to serve you.

"Fourth—That you must buy a round trip ticket or get a receipt from your railroad agent at your home station, showing that you purchased a ticket."

If you cannot find what you want in your home town, remember you can always get it in Charleston.

DRY FARM DECALOGUE.

Ten Commandments Worth Reading by Farmers of All Sections.

Professor W. C. Palmer, agricultural editor of the extension department at the State Agricultural college of North Dakota, gives the following "ten commandments of dry farming":

First.—Thou shalt plow deep. Deep plowing permits rain to penetrate the soil easily and without run off; also provides more feeding space for plant roots and makes available more plant food.

Second.—Thou shalt keep the surface soil loose. This prevents soil moisture from evaporating and conserves the rainfall.

Third.—Thou shalt cultivate level. Level soil affords the least exposure to the air and will take in rainfall faster than ridged soil.

Fourth.—Thou shalt summer fallow. This should be practiced in all districts where the annual precipitation is less than fifteen inches, as it conserves two years' rain for one crop and kills weeds and plant diseases. Land should be cultivated. Where the yearly rainfall is more than fifteen inches corn is as good a preparation for a crop as the bare fallow.

Fifth.—Thou shalt add organic matter to the soil. Stable manure is the best form. Plow weeds under while green. Weeds consume moisture and plant food, crowd plants, shade crops, retard plant life and make work.

Sixth.—Thou shalt grow early maturing crops. Conditions for growing are best during the early summer. Winter grains are better than those sown in the spring.

Seventh.—Thou shalt grow corn every three to five years. The cultivation required for corn saves moisture and kills weeds and plant diseases. Corn is the best preparation for a grain crop; it produces more food and fodder per acre than other crops. Do not hill up the corn, as this wastes the moisture.

Eighth.—Thou shalt grow clover or alfalfa every few years. Rotating with these grasses adds fertility and organic matter to the soil, kills weeds and diseases of plants and produces an excellent hay and valuable seed crops.

Ninth.—Thou shalt keep stock. The most profitable way of marketing grain and fodder is through stock, which produce the manure necessary to the soil and bring prosperity and plenty to the dry land farmer.

Tenth.—Thou shalt keep stock. The appearance of the farm often reflects the character of the owner.

"Everything That a Drug Store Should Have"

This is the compliment that one of our patrons paid us. It is so true of the real method behind our business that we are quoting it.

Primarily this business makes the prescription department the main object of its care. Experts check every prescription and our large files show that our care is not in vain. Every new and worthy drug is immediately bought and placed on our shelves so that we need never say "we are just out of it," but we say, "We have it now."

Then these departments are always busy because of one final fact: "Good Goods for Your Money"—first and last.

What a Bank Account Does at The People's Bank

It helps your credit. It stimulates your courage. It guards you against extravagance.

It gives you confidence in your judgment. It helps you hold up while you are out of work.

It furnishes the best receipt for all money you pay out. It creates business habits that will increase your savings.

It protects against loss by robbery and personal injury by robbers.

It enables you to pass over periods of sickness without embarrassment.

It makes you able to run your business, instead of your business running you.

It teaches economy, which is the first round in the ladder to success and prosperity. Your business welcome,

FIGHTING THE CLUB ROOT.

Directions For Combating Destructive Disease of Cabbage.

Club root is one of the most destructive diseases affecting plants of the cabbage tribe. It is due to a slime mold disease which lives over as a subterranean; hence spray measures are of no avail. Crop rotation is the best means of avoiding this pest. Set only healthy plants. Infested land should not be set again in cabbage for several years.

Do not use manure containing cabbage refuse. Infection may be carried

on plows and hoes which have been used in fields of diseased cabbage, therefore clean all implements and dip them in a 2 per cent solution of carbolic acid. If for any reason it is necessary to grow cabbage or allied crops continuously on the same land and the soil becomes infected, it may be largely disinfected by an application of caustic lime at the rate of two to five tons per acre at least six months before the land is set to cabbage. The seed bed should be treated in the same way.—Circular of Virginia Agricultural Experiment Station.

Grass Lands in Grain. Humus making crops are such grasses as timothy, clover, blue grass, broom grass and alfalfa. It has been found grass land plowed is under better conditions of moisture and freer from weeds than land that has grown grain continuously.

Noah's Liniment is the best remedy for Rheumatism, Sciatica, Lame Back, Stiff Joints and Muscles, Sore Throat, Cold Strains, Sprains, Cuts, Bruises, Colic, Cramps, Neuralgia, Toothache, and all Nerve and Pain. The genuine has Noah's Ark on every package and looks like this front of package and "Noah's Liniment" always in RED ink. Beware of imitations. Large bottles 25 cents, and sold by all dealers in medicine. Guaranteed or money refunded by Noah Remedy Co., Inc., Richmond, Va.

Record of the Oldest Policy.

The Oldest Policy now on the books of The Mutual Benefit Life Insurance Co., No 795, was issued on January 21, 1846, to Joseph L. Winslow (at age 15.) of Portland, Maine, on the Ordinary Life Plan, for \$3,500, at an annual premium of \$54.60. All dividends have been used to reduce the yearly cost.

Premiums for 66 years have amounted to . . . \$3,603.60 Mr. Winslow has received dividends amounting to \$2,236.16 Making net outlay for 66 years . . . only \$1,367.44

This is, the average yearly cost per thousand has been only \$5.92. The cost in 1911 is only \$1.37, or \$39 per \$1000.

The Company would now loan on the policy \$3,041.57, although the policy as originally written contained no loan or non-ferreiture features.

By the payment this year of the small sum of \$1.37 the cash and loan values were increased \$45.19.

This is indeed a great record, and one of which no other company can boast. If you are thinking of giving to your wife and children the protection that they need it would be well for you to look into the policy contracts of the Old Mutual Benefit Life Insurance Company.
