

THE BOOSTER TRIP

TWO DAY RUN SUCCESSFULLY COMPLETED.

The Booster Trip of the Orangeburg Chamber of Commerce began its journey Tuesday. Although the start was scheduled at 7 a. m., it was not until 8:07 before they left.

There were twelve cars in all to make the trip. These cars were well filled with representative business men and the impression they made on the various towns will last for some time.

Members of the band on trip—O. K. Wilson, Theo., Lenore and Russell Wolfe; O. W. Saphr, Willie Marchant, Jerome McMichael, Archie Jordan, Crville Wilson and William Bryant.

In addition to carrying the different business men, the cars carried considerable advertising matter to be distributed along the route. Various firms carried their own advertising matter, then there was an envelope containing announcements of most of the business houses of the city. In addition to this there was nearly a thousand copies of the Booster Edition of The Times and Democrat given out.

Leaving Orangeburg the booster brigade proceeded to Norway without stop. The cars kept pretty well together and at Norway were met by a gaily crowd. Advertising matter being distributed, the Band played several selections and the Boosters were again on their way. During their short stay Mr. B. B. Williams very generously handed around cigars. At 9:50 the cars started for Springfield.

About five miles from Springfield the Boosters were very pleasantly surprised by Messrs. Frank White, Summers W. Dibble, C. S. Gleaton, A. R. Mobly, C. B. Hair, J. McB. Bean and Drs. Matthews and H. A. Odom. Proceeding on together the boosters arrived at Springfield at 10:30. Here cigars were passed around by Hon. Jas. H. Fanning and Dr. H. A. Odom. Cool drinks were very graciously served to the thirsty travelers by the Springfield Drug Company. Just before leaving Mr. A. H. Marchant was called upon for a speech, and as secretary of the Chamber of Commerce, he made a few brief, but well directed remarks. Mr. Fanning was called upon for a speech, but declined. The band here played several selections, as they did at all other stops during the day.

Leaving Springfield at 11 o'clock, a 22 minute run was made to Salley, just across the line in Aiken county, but whose inhabitants have a kindly feeling for this county. Here the Salley Drug Company, through its manager, Dr. R. L. Gardner, cooled the boys off with refreshing drinks.

Leaving Salley at 11:40 o'clock the Booster contingent embarked for Neeces, where they arrived, safely fortunately, but with what might have been an accident. Mr. M. O. Dantzer's car, driven by Marion Zeigler struck a sand bed, and turned partially over into the ditch when about half way to Neeces. Luckily no one was hurt and the car proceeded on the way after a slight delay.

From Neeces, the party went to Livingston. As the party here were behind schedule, their stay was a little hurried, although the band rendered several selections, and the party was soon under way again.

After a 20-minute run they arrived at North. Here they stopped for dinner, the members being apportioned at different places. After washing up and eating heartily everybody felt considerably improved and equal to the remainder of the day's trip. After a stay of nearly two hours here the party started for Woodford. Just as the Boosters

HELPING FARMERS

TO STAY RAVAGES OF THE COTTON BOLL WEEVIL.

The Southern Railway Has Several Experts Who Are Helping to Kill Out the Pests.

President Finley, of the Southern Railway Company, realizing the possibility of the further spread of the Mexican cotton boll weevil to the eastward is taking steps to advise farmers in the territory along the lines of the Southern Railway Company, Alabama Great Southern Railroad Company, the Mobile & Ohio Railroad Company, and the Georgia Southern and Florida Railway Company, in localities to which there is even a remote possibility that the weevil may spread, as to the methods that must be adopted for maintaining cotton production under boll weevil conditions.

Mr. Plinkett and all of the agents of this Department have had practical experience in the growing of cotton under boll weevil conditions. All of the expenses of the Cotton Culture Department are borne by the participating railways and the services of its agents are absolutely free to all farmers along the lines of these railways.

The work of this Department has been so successful and the services of its agents have been so highly appreciated by the farmers that President Finley has determined to extend the work further eastward. Mr. R. E. Grabel has been appointed agent of the Cotton Department at Macon, Ga., to work along the Southern Railway between Macon and Brunswick, and along the Georgia Southern and Florida Railway in Georgia and North Florida.

Four additional agents are to be employed for work along the lines of the Southern Railway, the Alabama Great Southern Railroad, and the Mobile and Ohio Railroad, in central and eastern Alabama. Unless circumstances should make some other arrangement advisable these agents will have their headquarters at Attala, Anniston, Tuscaloosa, and Moplessville, Ala.

Mr. Grabel has had practical experience in growing cotton in boll weevil territory and four other men with like experience are to be selected for Alabama agencies. The weevil has not spread to any of the localities to which these agents have been assigned and there is no reason to expect its early appearance in them. The purpose of establishing the work is to enable farmers to be thoroughly prepared for the weevil if it shall at any time enter their fields.

Fortunately, the cultural methods advised by the Cotton Culture Department are identical to those which the late Dr. S. A. Knapp, of the United States Agricultural Department, recommended for increasing the production of cotton whether the weevil be present or not.

Farmers throughout the cotton belt will, therefore, find it profitable to adopt these methods, even though the weevil may never spread to their farms.

As a further step in aid of the work of the Cotton Culture Department, President Finley has prepared a circular letter incorporating Dr. Knapp's advice which is being distributed to farmers in all cotton growing territory along the lines of the railways above mentioned. Farmers along the lines of these companies may obtain copies of this circular letter by addressing W. C. Finley, President of the Southern Railway Company, Washington, D. C.

Summer Has Passed Climax. "The backbone of summer has been broken," said Forecaster Cole, Sunday afternoon when asked if there was much more hot weather in store for Charlestonians, says The News and Courier. "Judging from reports made up from the mean daily temperature for thirty-two years," said Mr. Cole, "it will be safe to state that the worst of the hot weather is over. According to the Charleston record of 32 years beginning with August 1, the mean daily temperature is 81 degrees, which continues until the 13th, when it falls to 80 degrees, and by the end of the month it is 70, which is nice comfortable weather."

Practice What You Preach. An amusing incident happened in the office of Judge Brunson a few days ago. He had a case up before him that liquor figured in considerably. There happened to be present a negro preacher, who embraced the opportunity to impress on those present the sinfulness of using strong drink. While speaking vehemently he flirited a half-pint of blind tiger liquor out of one of his pockets on the floor to his own consternation and the amusement of all present, except himself. He, like many others do, claimed that he had the booze for medical purposes.

WELCOMED AT SPRINGFIELD.

"The Orangeburg Boosters" Arrived With Banners Flying.

Springfield, August 8th—Special: "The Orangeburg Boosters Club" arrived with magnificent streaming banners on schedule time this morning. The two dozen or more automobiles comfortable filled with the flower of Orangeburg city's best business men were met some miles out of town by several machines and piloted into the center of our town, where they were met by several hundred of Springfield's men and women.

That excellent brass band brought from the "City on the Edisto" was a drawing card, and kept the children quiet while the visitors exchanged compliments with the locals in this outlying district. The comments of the visitors was a verification of the oft repeated statement of this correspondent who has so often said that the average citizen and business man of Orangeburg city knew no more about Springfield and her wonderful growth, than they know about "tariff revision" or the politics of a "politician." Anyhow, they came, they saw, they conquered.

The machines were tastefully decorated, and bore legends of good will and kind feelings from the Queen City of Carolina. Col. Atticus H. Marchant, the general secretary of the Chamber of Commerce, very kindly consented to "make a few remarks" and told the people of the coming county fair, extending a hearty invitation to Springfield to help make this the greatest county fair in the State. The cars left for Sally on schedule time.
