A Sensational Note From H. P. Fulmer

To the People of Norway and Vicinity—
 Owing to the fact that I bought heavily, anticipating a big fall and winter trade, but owing to backward conditions and a tardy season we have more stock on hand than we care to carry—in fact, more than real good business judgment warrants. This fact combined with still other reasons, gives the strongest incentive to make an unusual event. In order to make this sale QUICK and DECISIVE we have employed the most effective weapons known to modern merchandising, that is: Not only the eliminating of every vestige of profit, but the cutting deep down into the very vitals of the original cost of every article; item and garment in our peerless array of the choicest creations of the world's greatest work shops. It is our loss of profit, consequently your gain, and right now in the face of cold weather when winter goods are needed most I appeal to you to attend this sale, for staying away is like throwing dollars away. I personally guarantee every price and statement made in this circular.
 (Signed) H. P. FULMER.
