

**A TENEMENT HOUSE HORROR.**

Twenty-Five Persons Perish in a Fire in New York Believed to Have Been of Incendiary Origin.

New York, November 1.—Twenty-one men, three women and a ten months old babe were burned to death or suffocated in the fire that started early this morning in the House of All Nations, a five-story tenement house at 426 11th avenue. The police and coroner believe the fire to have been of incendiary origin.

Some of the peculiar features of the disaster, in addition to the startling loss of life, are that the fire was practically extinguished in twenty minutes, that the police had learned of but one person being injured, other than those who lost their lives, and that the property loss was only \$7,000. The dead are mostly Italians.

**THE NATIONAL THANKSGIVING.**

President Roosevelt Issues a Proclamation Setting Apart Thursday the 26th Day of the Present Month.

The President issued his annual Thanksgiving proclamation in the following terms:

By the President of the United States of America—A proclamation.

The season is at hand when, according to the custom of our people, it falls upon the President to appoint a day of praise and thanksgiving to God.

During the last year the Lord has dealt bountifully with us, giving us peace at home and abroad, and the chance for our citizens to work for their welfare unhindered by the war, famine or plague. It behooves us not only to rejoice greatly because of what has been given us, but to accept it with a solemn sense of responsibility, realizing that under Heaven it rests with us ourselves to show that we are worthy to use aright what has thus been entrusted to our care.

In no other place and at no other time has the experiment of government of the people, by the people, for the people, been tried on so vast a scale as here in our own country in the opening years of the twentieth century. Failure would not only be a dreadful thing for us, but a dreadful thing for all mankind, because it would mean loss of hope for all who believe in the power and the righteousness of liberty. Therefore, in thanking God for the mercies extended to us in the past, we beseech Him that He may not withhold them in the future, and that our hearts may be roused to war steadfastly for good and against all the forces of evil, public and private. We pray for strength and light, so that in the coming years we may with cleanliness, fearlessness and wisdom do our allotted work on the earth in such manner as to show that we are not altogether unworthy of the blessings we have received.

Now, therefore, I, Theodore Roosevelt, President of the United States, do hereby designate as a day of general thanksgiving Thursday, the 26th of the coming November, and do recommend that throughout the land the people cease from their wonted occupations, and in their several homes and places of worship render thanks unto Almighty God for His manifold mercies.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington this 31st day of October, in the year of our Lord one thousand, nine hundred and three, and of the independence of the United States the one hundred and twenty-eighth.

Theodore Roosevelt.

By the President: John Hay, Secretary of State.

**COST OF TILLMAN'S TRIAL.**

The Actual Expenses of the Trial Were \$2,244.43—Richland County Will Pay When She Gets the Money.

Supervisor S. H. Owens, of Richland County, received notice from Clerk of Court Samuel George, of Lexington, stating that the actual expenses of the Tillman trial were \$2,244.43. The County of Richland is, of course, liable for all of these expenses and will have to pay them. Up to this time none of the claims have been paid, as the county has no money in hand and will not borrow funds to pay these claims. When the county taxes begin to come in then the holders of witness and jury tickets will be able to get their money.

**KEEPING NEW YORK CLEAN.**

Pavements on Leading Streets Are Scrubbed Every Morning.

Every morning, from March to October or November, the pavement of Fifth avenue, New York, is scrubbed until it shines as clean as a kitchen floor. Broadway, too, in the up-town district, is washed as thoroughly, says Leslie's Weekly. Every morning this task is done by the metropolitan department of street cleaning, no matter what the weather conditions are, notwithstanding, for instance, a heavy all night rain. This is because New York wishes to appear fresh and clean to the largest number of its best people, and to the hundreds of thousands of visitors who are daily on these two great thoroughfares. It is this scrubbing every morning that brings forth from the stranger who comes from another city a favorable comment upon the cleanliness of the streets.

But these two famous highways are not the only ones that are scrubbed persistently by the street cleaners of New York, under Mayor Low's administration. All over the city, on the cross streets, on the pavements of the vast tenement districts, oceans of clean water are poured every morning, forced at high pressure through the big rubber tubes, loosening and dissolving the dust and dirt accumulation of a busy day. There are certain streets that are scrubbed three times a week; others that are washed twice during the seven days. The process is very simple. Two or three men, called a "gang," attach a line of hose to a water "plug," and direct the strong stream that shoots through the nozzle to different parts of the pavement. The force of the water sweeps the dust of the street before it, and the men drag the hose along, guiding the stream until they reach the next water plug. Then the sweeper comes along, brushing into little heaps the dirt that has clung in the gutter, and a little later a cart hauls the debris away. All this is done before most of us are out of our beds in the morning, and when we come out on the streets, finding them dry and clean, there is no other evidence of the street cleaner's visit.

New York has the money to keep herself clean and always presentable. The entire appropriation of the department of street cleaning of New York city for 1903 amounted to \$5,361,112.20. Of this, in the boroughs known as Manhattan and the Bronx, \$2,666,492 was set aside for street sweeping, which includes the scrubbing; and for the same purpose in Brooklyn \$1,240,845 was apportioned. And in New York's street department during the summer season are employed 5,000 men, one-eighth of the whole number of the city's employees.

**Caution!**

This is not a gentle word—but when you think how liable you are not to purchase the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1868 for the cure and treatment of Consumption and Throat and Lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Boschee's German Syrup. There are so many ordinary cough remedies made by druggists and others that are cheap and good for light colds perhaps, but for severe Coughs, Bronchitis, Croup—and especially for Consumption, where there is difficult expectoration and coughing during the nights and mornings, there is nothing like German Syrup. The 25 cent size has just been introduced this year. Regular size 75 cents. For sale by W. E. Pelham & Son.
