FOR THE CITY'S ADVANCEMENT.
There should be a full attendance of the business men of the city as well as members of the board of trade at the meeting of the board to be held in council chambers at 9:30 o'clock this morning to take action for cooperating with the other cities and towns in the State looking towards securing equitable freight rates for South Carolina.
The board of trade desires the assistance of the business men in this matter, and not only in this, but in every other undertaking for the advancement of Newberry. "If all the business men of the town would join the board of trade and work together," says the letter addressed by the board to the bustness men asking them to attend this meeting, $\cdot$ it is possible to do many things which would be of business way. This is an invita ton g or and recur bor or board of trade
If there is one thing that New. berry needs above all else. it is cooperation among her busies men.
We cannot do anything until we get together, and it is not only our duty to get together and work for the upbuilding of Newberry, but it is to the best interests of each individual.
We would urge upon all business men the importance of attending the meeting this morning, because the action which it is desired to take, if it accomplishes anything, and there is no, reason why it should not accomplish something, will benefit the town and will benefit every business man in the town personally and directly. They should show their interest in this matter and not only in this parLocular matter, but all of them should affiliate with the board and work together for the upbuilding of Newberry. That is what Newberry needs. That is what the business men need.

It is only a few days until the legislature convenes and those who are prophesying what it will do
add tho who ne prophesying that and those whore prophesying that
it will not do anything are very busy.
Colombia continues to talk war and the United states continues to make preparations for war with Co-
lombia and the far liastern question is assuming serious proportions and the officers of the United states Army are discussing a war with Germany in the near future. We are getting enough war talk, any way.
