NEWBERRY'S PENSION ROLL.

Roll Made Up for This Year—Number of Changes Made by the County Board.

The county pension board held its final meeting on Wednesday, the 22nd, to pass upon the pensioners from this county for the year 1911. The entire board was present as follows: W. G. Peterson, chairman; R. T. C. Hunter, David Pitts, D. W. Kinard and Dr. W. G. Houseal.

For this year the board has added five men to the pension roll, as follows: Andrew Nichols, Wade H. Setzler, Jacob Shealy, G. M. Shealy and D. P. Ward; the last name being transferred from Anderson county.

The following women were added to the roll: M. V. Day, Callie H. Cannon, Martha Caroline Hentz, Malissa L. Lovelace, Elizabeth Moore, Susan Quattlebaum and Olivia C. Stewart.

During the year 1910, five men whose names were on the roll have died as follows: T. M. Smith, F. A. Boozer, J. D. Cannon, F. M. Smith, and Jonathan Werts.

The following women, who were on the roll, died during the year 1910: Rebecca C. Boozer M. R. Hunter, Martha Bedenbaugh, Catherine Moon, L. M. Merchant, S. E. Henry, Nancy E. Richardson, Julia Sanders and Mary F. Stillwell.

The following were transferred: Mrs. E. V. Chalmers to Greenville, and F. S. Bedenbaugh to Richland.

The following was dropped: S. E. Cromer, moved to Alabama.

The roll for 1910 carried 77 men, and 107 women, making a total for Newberry county for last year of 184. The roll, as made up by the pension board on Wednesday after making the additions and the transfers and the deductions, contained 77 men and 101 women, or a total on the pension roll from Newberry county for 1911 of 178. It will be seen that the roll for this year contains six less than was carried on the roll of 1910.

To Purchase Lumber.

Alderman Lominack, who is chairman of the city council committee on supplies, said at the meeting of city council on Tuesday night that he had been going very slow this year in purchasing material for the town, but Superintendent Wicker, of streets, told him that the city was in great need of lumber but before purchasing he wanted to submit the matter to city council. Alderman Earhardt moved that the supply committee be instructed to purchase a car of lumber, which motion prevailed.

Mr. Johnson's Fine Hogs.

Mr. N. F. Johnson, a farmer of the Bush River section, of No. 6 township, believes in raising his own hog and hominy. At one killing this week he butchered four porkers from the same litter that were scarcely a year old, weighing, respectively, 374, 340, 324 and 490 pounds, and it should be said that these were not the only ones that have gone into his smoke house during this winter.

The Southern Power Co. Franchise.

Editor The Herald and News: I have been waiting and hoping for someone that is more capable, to say something as to the council's action on the Southern Power company in not allowing them to enter the town of Newberry, but so far no one has raised a voice. I want to say that I do not want to criticize, and what I say is for the good of the town as I see it. It seems to me that the action of the council was a strange one. Some of us have been waiting and longing for this power to come to Newberry, believing that nothing will do Newberry as much good as this power, and when it comes knocking at our door, we say, No, you can not come in. Why? I know that the mills want it, and if the council can give the mills such things that they want, at no cost to the council, it seems to me that it ought to push it along. Do the mills not help Newberry? Ought we not work for the good of one another?

I am told that this company promises to save one-third of the coal bills to the mills. This will be a great saving to the mills. I am told by one of the aldermen that this company promises to save the council \$5,000 per year, by selling them power cheaper than they can make it. Now, is this not worth picking up? Do you believe the Southern Power company can do this? Yes, you know that they can make current by water cheaper than we can by steam, and they can afford to sell this power to the Newberry plant at one price and let the plant sell to its consumers at another, and in this way this plant can be run cheaper. It seems to me that the Southern Power company not wanting to sell less than 100 horsepower is to the advantage to this power, as then the two companies will not come in contact with each other, as the home plant will not sell as much as 100 horse power to any one person, as they cannot furnish this much power.

But if the Southern Power company comes then the home plant can buy as much power as it can use and sell to those that want to use less than 100 horse power. Again if the council allows this company to come in and if there comes a time when the mills think the company is charging too much for their current, there is nothing hindering them from going back to steam; they will still have their steam plants.

Another strange thing is that the council will let one company come in to Newberry with a franchise, (that there is nothing to, and never has been) and when their franchise runs out, extend for another three years more, and not get a cent for this franchise, nor does it receive any benefit from it, and then when another company comes with the juice, and we want it the council says you cannot get it. Where was this company going to get its power? I would like to know.

I hope the council will reconsider this question, and give us this power, and if not I will be glad to have some one to give their reasons why Newberry ought not to have this power. All for Newberry; that is what we should work for. Other towns are going ahead. Let us not lag behind, for no other reason than there is a negro in the wood pile.

Respectfully,
J. H. Wicker.

Church of the Redeemer.

(Rev. Edw. Fulenwider, Pastor). The following is the program of divine services at the Lutheran Church of the Redeemer next Sunday: 11 a. m.—There will be the regular morning service. The pastor will preach on the subject: "Some Popular Misconceptions of Sin." Sin is one of those great subjects that has been before the world since the tragedy in Eden. It is a problem that no human mind can solve, hence, many of the popular ideas of sin are misconceptions. The Bible is our only true source of information as to the punishment, growth, influence, cure, etc., of sin.

7.30 p. m.—There will be a short song service. The subject of the sermon will be: "Gossiping With the Devil." There are two evils that have had, and are still having much to do with the tragedy and sin of the world, "Gossip" and "Drink." Some one has said: "Women 'gossip,' and men 'gossip.'" However that may be, it is true that parleying with the devil was at the foundation of man's fall, and is still a source of much evil.

4 p. m.—The Sunday school meets. There are classes and teachers for all ages. There will be good music at all the services.

A cordial invitation is extended the public.

THE WAGON ORDINANCE.

Alderman Summer Thinks Country People Ought Not to be "Cramped"—Matter Carried Over.

Alderman Summer said at the meeting of city council on Tuesday night, that notice ought to be taken of the report presented at the last meeting by Chief Bishop as to enforcement of certain ordinances. He thought that the chief ought to have some instructions as to the enforcement of the ordinance prohibiting wagons standing on the square in front of the old court house building. Alderman Summer was of the opinion that a majority of the people of the country expected the present city council to repeal this ordinance as we have no wagon yard, he said, and he thought it could be managed so as to benefit the country people as well as the town people, and not that the country people feel cramped. He thought that the city ought to permit a line of wagons to stand in the side streets as long as they did not block the streets entirely.

Alderman Earhardt was of the opinion that city council wanted all of the ordinances enforced and if the present police force could not enforce the ordinances, then city council should get policemen who can.

Alderman Lominack thought it was the business of council to make the country people feel at home when they came to town.

Alderman Summer was requested if he wanted to make a motion to make it, and he said he did not know just how to make it. He wanted to have the ordinance so worded that horses and wood wagons and watermelon wagons and feed wagons should not stand on the square, but that the country people should have the use of this square upon which to stand their teams, and he thought that it was injuring the business of the town and the merchants to prohibit country wagons the use of this square, but he said that if the rest of the people could stand it, he thought he could about as well as any of them and that if he could not, he was not forced to remain in Newberry.

Alderman Rodelsperger thought that what Newberry needed more than anything else was to pay as much for cotton and cotton seed as the other small town in the county, and that so long as these other small towns paid from 1-2 to one cent the pound more for cotton, and from 2 to 5 cents more for cotton seed, that the farmers were going to those town to sell their produce, and that if they did, of course, they would spend some money in them. He thought that something along this line by the business men of the community would be worth more to Newberry than a repeal of this particular ordinance.

Alderman Lominack moved that the ordinance be repealed, but his motion received no second, and by unanimous consent the matter went over to be taken up for consideration at the next meeting of council.
