

WINDING-UP MEASURE UNSIGNED.

Sent by Gov. Blease to Secretary of State—Other Acts Disposed Of.

Columbia, Feb. 26.—The governor today sent to the office of Secretary of State, without his signature, the Crosson joint resolution to wind up the affairs of the late State dispensary.

The resolution to wind up the affairs of the State dispensary commission is the piece of legislation that has largely caused the general assembly to enter upon the eighth week of its session.

Wound Up in 30 Days.

This resolution provides that the affairs of the commission, that known as the "Blease commission," shall be wound up within 30 days after the resolution becomes law.

The act to allow the Columbia Street Railway company to construct a dam across the Congaree river is now law, the signature of the governor having been affixed today.

Lockhart Measure.

An act that has been in the governor's office for some time and one that has attracted considerable interest is that to incorporate the Lockhart Power company, a company proposing to develop hydro-electric power at certain shoals on the Broad river, between Spartanburg and Union counties.

Saluda Act Signed.

The governor today signed the act to declare valid an election in Saluda on the issue of \$10,000 of bonds for the construction of a railroad to the town of Saluda.

The governor today sent to the secretary of State without his signature the act amending the law in relation to the location of voting precincts in certain counties, these being the counties of Horry, Abbeville, Newberry, Pickens, Chesterfield, Colleton, Union, Anderson and Richland.

SENATE HOLDS SHORT SESSION

Resolution Passed Requiring Information Concerning Status of Every Act Sent to Governor During Present Term.

Columbia, Feb. 26.—The senate was only in session a few minutes today, adjourning to meet again tomorrow at 1.15 p. m. In the short session, however, they adopted a concurrent resolution, offered by Senator Hall, requesting the assistant clerk of the senate and the assistant secretary of State to prepare a list of the acts passed by the general assembly and which have

been sent to the secretary of State, those signed and those unsigned by the governor, the list of acts ratified.

"I understand that about three hundred acts have been sent to the secretary of State, and that of this number only about a dozen have been signed by the governor," said the Cherokee senator. The resolution also carries with it the instruction to have a list of the acts delivered to the governor and the date of their delivery.

Telephone Bill Vetoed.

A message was received from the governor vetoing Senator Sullivan's bill requiring telephone companies to furnish connection to their subscribers free of cost in certain circumstances. The message was ordered printed in the journal.

Just what time the general assembly will adjourn sine die is not known, as the subject was not mentioned in the short session of the senate held today, outside of the remarks of Senator Hall on his resolution.

The unusual situation which has arisen, and the fact that the general assembly is now beginning the eighth week of its present session, is causing unusual interest among the people in all sections of the State.

Rise in Prices Effort to Offset Reduction Plan.

Columbia, Feb. 26.—E. J. Watson, commissioner of agriculture of South Carolina, and president of the Southern Cotton congress, today addressed a letter to the governors and commissioners of agriculture of the cotton States of the South, in which he charged that the increase in the price of cotton is merely an effort to make the farmers plant more cotton.

"Substantial actual reduction is and must be the basis of protection to the Southern producer the coming year," said the commissioner.

Bridges Time and Space

IT WAS A QUESTION of life or death and the victim's life hung by a slender thread. A difficult operation was necessary. To be successful the operation must be performed at once. The services of a specialist were required, but he was in a distant city.

The specialist was reached over the Long Distance Bell Telephone, the case described and the operation arranged for.

The sufferer's life was saved through the ability of the Universal Bell Telephone Service to bridge time and space.
