

The Herald and News

Entered at the Postoffice at Newberry, S. C., as 2nd class matter.
E. H. AULL, EDITOR.

Tuesday, July 17, 1917.

The Greenwood Journal is pleading for just one good road in Greenwood county and believes if one can be built others will follow. We thought that same thing for a long time and pleaded for one such road as an example. We did get one mile of good road built some years ago by or under the direction of a government expert and it was a beauty and remained good for a long time. It was about the time when automobiles first came along and it was a very popular driveway and the autoist loved to drive his car over this mile. But we didn't get any more like it and now even that one mile is full of holes and does not look like a government road at all.

When you build good roads you should do like the rule is when they issue bonds, provide a sinking fund, not exactly a sinking fund, but some means for the maintenance of the road. A good road will not remain a good road without constant attention, we do not care how good it may be when it is built.

We have a road only seven miles long between Newberry and Prosperity and it has such a road bed that with a little attention for maintenance it could be made a good road all the year round. Just a little use of the old split log drag at the proper time would keep it a good road. We have tried hard to get the people who use the road between the two towns to raise a fund for the regular dragging of the road and it would be real economy for them to put up the money, but no one seems interested. A small sum from those who ride for pleasure would be a good investment in the saving on the machines not to speak of the comfort it would give in driving over it, but they all with one

accord seem to say that they are not going to spend money for some one else to get the benefit. In other words human nature in this day is so constituted that it will not do good for itself if it thinks that some one else is going to be benefited.

But the Journal speaks a parable when it says:

"We do not believe that a progressive people such as we have are going to wait a great deal longer about building good roads. War or no war, taxes high or low, big crops or small crops, high price or low priced cotton, we should have good roads. Just one good road to start with. Others will follow."

Let us hope that the people will sooner or later see the necessity of good roads.

By a little misunderstanding with our mailing clerk we did not get to take off the names of those whose time was out on the first of July and the fifteen thand so you will get one more paper. There is no harm done the subscriber but in as much as the names are left on we take this method of once more making a short talk, to say if you do not renew at once or make arrangement the paper will be stopped. Any one who is not interested may skip this item.

If you want to remain with the family and get a good newspaper for the small price of \$1.50 a year you better do, about at once or you will miss some copies, if your time is out, and we can not furnish back copies.

The total amount collected by the State highway commis on from licenses on automobiles up to the present is \$92,014.36. Of this amount Newberry has paid \$1,967.60. All cars that are not registered and those who have transferred cars are subject to a fine.

The Piedmont highway between Newberry and Columbia certainly needs the attention of some one. Between Little Mountain and Spring Hill the road is about as rough as we have

ever seen it. The Lexington supervisor seems never to work this road and the people seem satisfied. We reckon that is the reason he never gets over that way. No use to make people dissatisfied by giving them a good road. And then Supervisor Sample might have some work done from Little Mountain to Prosperity. And the road between Prosperity and Newberry is not a bed of roses by any means.

Union county is the only one in the State that has already furnished more than her quota of men to the army. Good for the Union boys.

Newberry will be called on for 214 men for the first draft for the national army.

NEWBERRY COLLEGE REUNION AT LITTLE MOUNTAIN

The Newberry College reunion at Little Mountain will be on the 3rd of August.

The Little Mountain school has secured the grounds for that day for the benefit of the school. The privilege to sell refreshments during the day will be let and those desiring to secure a privilege may send their application to Mr. W. B. Shealy, Little Mountain. The barbecue will be furnished by the school and all the proceeds from the cue and from the refreshment privileges will go to the school.

Mrs. A. J. Bowers will spend Tuesday, Wednesday and Thursday of this week with Mrs. John Simpson in Prosperity, taking the course of Home Economics under Miss Wise.

Some groceries were stolen from the store of J. B. Jones, for which Mr Jones had a case against Heyward Gray, colored, for petit larceny in the recorder's court last Friday. Fifteen dollars or thirty days. Fine paid. Same day Timothy Halter, colored, paid \$5.75 for case of assault and battery.

Mr. H. H. Stalnaker, formerly of Newberry, stopped over here for the week-end on his way home in Carolina, N. C. He is a member of the First Machine Gun company, U. S. A now stationed at Fort Barancas, Fla. After spending his leave of absence at home he will return to Fort Barancas. The troops will leave Florida August 22, under sealed orders.

"WAR TIME PROHIBITION" "PATRIOTIC DRY RALLY."

There will be a meeting held at Chappells on this subject next Monday, July 23. Dr. A. H. Claffin of Pittsburg, Pa. will make an address. The meeting will be held in the auditorium of the school building at Chappells at 8:30 p. m., on Monday. Dr. Claffin will urge constitutional prohibition and will illustrate his lecture with stereopticon pictures and all who will attend may expect a fine address. It is a live subject and there should be a full house.

Congressman Fred H. Dominick was called from Washington on account of the critical illness of his brother, Mr. J. Claude Dominick, arriving here yesterday afternoon. Mr. Claude Dominick tripped on a rug in his room Saturday afternoon, striking the side of his face on the edge of a table, the blow and fall rendering him unconscious for fifteen hours. His family and friends feared the worst, but faithful physicians and the trained nurse worked faithfully all through the night and into the next day, when their patient rallied. He is doing very well and his friends now hope for the best.

Mayor Z. F. Wright was elected president of the South Carolina Mayors' association at the annual meeting in Charleston last week. The election was held while the mayors were aboard the yacht, Nakomis, sailing in the harbor. Nakomis is a pretty good Indian name, and we hope President Wright will have a pretty good time sailing at the head of the mayors over the stormy waters these war times. The association put the Right man in the Wright place, and it is just as we have said about Newberry being picked for the head place in the State organizations. Newberry is like Virginia as the mother of presidents. We want to say something, so about the best we can do is to appropriate the remarks of the Columbia Record: "We congratulate the mayors' association of South Carolina upon the new president, Mayor Z. F. Wright of Newberry. Mr. Wright is one of the brightest and broadest men in the State."

By subscribing for \$5,000,000 worth of the Liberty Bonds Henry Ford has done his bit toward getting the boys in the trenches before Christmas.—Springfield Union.

He Won.
An Irishman passing a shop where a notice was displayed saying that everything was sold by the yard, thought he would play a joke on the shopman, so he entered the shop and asked for a yard of milk. The shopman, not in the least taken back, up, I'll take it."—St. Louis Post-Dispatch.

THE COMMERCIAL BANK OF NEWBERRY, S. C.
