CONFLICT BETWEEN DICTATORS

Hoover and Garfield Cross on Priority Shipments Over Railroad Lines.

Washington, Nov. 30.—The first clash in President Wilson's new America, war council less than a year old, came tonight. Herbert C. Hoover, food administrator, openly took issue with Dr. H. A. Garfield, fuel administrator, on the question of priority shipping orders for the railroads of the country. Mr. Hoover says nothing should be placed ahead of food.

Dr. Garfield on Wednesday asked

Judge Lovett, priority director, for an order calling on the railroads to handle coal and coke and empty coal and coke cars in preference to all other freight commodities. He based the request on the fact that the country is reported to have only about five or six days' supply of coal ahead of the day-to-day needs. As soon as he had made the request he wired to A. W. Thompson, chairman of the railroad committee handling traffic problems in the East at Pittsburg, asking that the committee immediately give coal and coke precedence, without waiting for the priority order from Judge Lovett.

Tonight Chairman Thompson wired that Dr. Garfield's wishes were being met, all railroads having been directed to give fuel precedence as far as possible. Dr. Garfield expressing confidence that the railroads would soon give the mines enough cars to enable them to operate to capacity, an-

HANDS, ARMS, LIMBS ASLEEP

And Was Run-Down, Weak and Nervous, Says Florida Lady. Five Bottles of Cardui Made Her Well.

Kathleen, Fla.—Mrs. Dallas Prine, of this place, says: "After the birth of my last child...I got very much run-down and weakened, so much that I could hardly do anything at all. I was so awfully nervous that I could scarcely endure the least noise. My condition was getting worse all the time... I knew I must have some relief or I would soon be in the bed and in a serious condition for I felt so badly and was so nervous and weak I could hardly live. My husband asked Dr. Cardui about my taking Cardui. He said, 'It's a good medicine, and good for that trouble', so he got me 5 bottles...After about the second bottle I felt greatly improved...before taking it my limbs and hands and arms would go to sleep. After taking it, however, this poor circulation disappeared. My strength came back to me and I was soon on the road to health. After the use of about 5 bottles, I could do all my house-work and attend to my six children besides."

You can feel safe in giving Cardui a thorough trial for your troubles. It contains no harmful or habit-forming drugs, but is composed of mild, vegetable, medicinal ingredients with no bad after-effects. Thousands of women have voluntarily written, telling of the good Cardui has done them. It should help you, too. Try it.

relief of the terminals and junction points.

Hoover Objects

A few hours after it became known that Dr. Garfield has practically taken over the railroads in his determined effort to void an actual coal famine. Mr. Hoover issued a statement disapproving any priority order that gives coal, coke or any other commodity absolute right of way over foodstuffs on the railroads. Judge Lovett had not issued an order granting Dr. Garfield's request, nor indicated that he would do so. No priority orders are issued until all the facts bearing on the case, with the possible effects of the order, have been investigated. Mr. Hoover's statement follows:

"The United States food administration has protested to the priority board against any priority being given to coal or anything else over the movement of essential foodstuffs. The necessity of moving livestock and perishables, and corn, oats and animal feeding stuffs generally is preeminent, or large amounts of food would be lost."

"The car shortage is a matter of the most extreme anxiety, especially now in respect to the coarse grains. The corn crop is softer than normal and requires rapid movement to the drying establishments of the terminals if it is to be saved. The prices of corn and of feeding stuffs are absolutely dependent on the more rapid movement of the crops. Moreover, it is of no interest to the farmer to see large prices of corn at the terminals if he cannot ship."

"Car shortages work to the benefit of few producers and to the loss of the majority of producers and to all consumers. With a free movement of the corn the prices should recede rapidly. For the crop is large, and in fact

larger than can be consumed by the number of animals there are to eat."

The question of higher prices for anthracite coal tonight is up to President Wilson. Dr. H. A. Garfield submitted to the president complete data covering a request from anthracite operators for higher prices.

Some weeks ago anthracite miners demanded higher wages of the Pennsylvania operators. The operators agreed to an increase of practically 25 per cent. The men were satisfied.

I couldn't do a stroke of work. My kidneys were weak and the kidney secretions were scant and caused a burning sensation in passage. The secretions also contained sediment and I had dizzy spells and headaches. Quaker Oats Which Saves You 75%

Measured by food value, Quaker Oats costs one-fourth as much as the average mixed diet. So each dollar you spend for Quaker Oats saves an average of \$3. Oats stand supreme among grain foods, in nutrition and in flavor. They form a complete food, supplying every need. As an energy food their fame is proverbial.

Make this the chief breakfast dish. Meat and eggs cost five and six times as much. Also use Quaker Oats in bread and muffins, pancakes and cookies. No other food is so economical.

Use Quaker Oats because of the matchless flavor. It is made of queen grains only—just the big, plump, luscious oats. We get but 10 pounds from a bushel. Yet it costs you no extra price.

Pettijohn's The Laxative Luxury

Pettijohn's Breakfast Food is soft rolled wheat, hiding 25 per cent bran flakes. It is a flavory dainty of which no one ever tires. And it supplies the needed bran. Bran is Nature's laxative. Everybody needs it. Most folks would feel better if they ate it every day.

Fine foods clog the system. Bran supplies the needed roughage. Every doctor, as you know, urges its use, to avoid the need of drugs.

Try it one week. Note the good spirits which result. Never again will you return to a branless diet.

Pettijohn's Flour is another bran dainty. That is 75 per cent white patent flour and 25 per cent bran flakes. Use like Graham flour in any recipe. With these two products every meal can include some bran-made dainty.
