### NEW WAY TO MAKE UP LABOR SHORTAGE

Williamsport, Pa., Nov. 10.—Lyem- ing county, Pennsylvania, has devised a method of making good the farm labor shortage that is really making good. The plan is to enlist the services of business men and other city workers for Sunday jobs at harvesting. — L. J. Fisk, superintendent of state employment bureaus in zone No. 5 is promoting the plan which has been in operation the past two Sundays and has scored a big success.

The first Sunday thirty-eight men from Williamsport selected "way down yonder in the cornfield" as their destination, cut forty acres and husked 125 bushels of corn for which they were paid \$2.50 each and their transportation by a well-pleased farmer. They were captained by a jeweler who gave them the slogan, "Save the crops and win the war."

Last Sunday 80 men lined up for a bout with the crops. Result: 12 acres of corn cut, 1800 bushels of corn husked, 500 bushels of corn and nine loads of buckwheat hauled in. One farmer estimated that the corn-husking and hauling cost only about 11 cents per bushel.

Superintendent Fisk says he can put 300 men out next Sunday if the farmers will make timely application for workers.

### Southern Railway System

#### An Ambition and a Record

THE needs of the South are identical with the needs of the Southern Railway; the growth and success of one means the upbuilding of the other.

The Southern Railway asks no favors—no special privilege not accorded to others.

The ambition of the Southern Railway Company is to see that unity of interest that is born of co-operation between the public and the railroads; to see perfected that fair and frank policy in the management of railroads which invites the confidence of governmental agencies; to realize that liberality of treatment which will enable it to obtain the additional capital needed for the acquisition of better and enlarged facilities incident to the demand for increased and better service; and, finally—

To take its niche in the body politic of the South alongside of other great industries, with no more, but with equal liberties, equal rights and equal opportunities.

"The Southern Serves the South."

County, South Carolina, measuring sixty (60) feet front and one hundred (100) feet in depth, bounded North, East and South by lands of D. L. Green and H. S. Green, and West by Main Street. The building thereon being now used by J. C. Jones as a store.
