The Board of Health ordered all of the schools, churches and picture show closed last Monday on account of the Flu epidemic. This disease is not alarming in Manning yet, but this was done as a precaution, and to keep it from spreading.

The schools which have been closed this week, will probably re-open Monday next. No child will be admitted unless it can show a vaccination certificate.

Mrs. Stewart Harvin entertained on Friday night at a progressive rook party for the benefit of the Civic League. After a series of games a delicious salad course with hot chocolate was served.

Owing to the action of the Board of Health relative to the cessation of all public meetings, the Mother's Club will not hold its regular monthly meeting on Friday, February 13th. All members are requested to send their dues to the treasurer, Mrs. F. O. Richardson.

Mrs. J. E. Arant,  
Secretary of Mother's Club.

Don't forget the "Elephant Sale" that will take place Thursday afternoon and evening the twenty-sixth of February. The Civic League will appear at the home of every person in Manning to collect the contribution on Monday the 16th. Please everybody be ready and generous. Some lovely gifts have already been received and we hope to make this new occasion one of pleasure and fun. And also a profitable one.

Mr. Clarence Iseman, while attempting to crank his automobile Sunday morning, accidentally struck his arm on a revolver which he had on his inside coat pocket, the pistol exploding and the ball entered his right side, and lodging in his collar bone. He was at once taken to the Tounsey hospital, Sumter. And while the wound is serious it is not expected to result fatal.

There is much complaint about the paving company cutting the streets up and leaving them in this condition. Their excuse is, we learn, that they are waiting for the cable which will carry the underground wires to be placed. There is nothing to hinder them from paving from the depot to the school house and down Brooks street to the old hotel corner. These streets are almost beyond driving over. Wake up council and force the construction people to do their work. When these two streets are completed nearly half of the job will be over. It is a shame to let these streets remain

in this condition. They were bad enough before, but are much worse now.

**DEWEY JONES MARRIES**

The romance of pretty 18-year-old Lempi Myllykangas, 114 Hazel street, was culminated at 11 this morning, when she became the bride of George D. Jones, 21 years old, a sergeant-major in the 36th infantry.

There were many impediments in the way of the marriage, but all obstacles were overcome today and the bride's face was radiant when she left city hall on the arm of her soldier-husband after having the ceremony performed by City Clerk Walter A. Davis in the mayor's office. Because of her age Miss Myllykangas had to get the consent of her parents to the wedding, but even then the trouble was not over, for it was necessary for her to get a license from the Probate court.

**If you are not prepared to believe that some paints are better than others**

Then Mr. Property Owner you are in a bad row for stumps. Just so much price per gallon, regardless of how the stuff comes--what it looks like after it's put on how well it wears or how long it will stay put is about as shortsighted a business proposition as a real business man can pull off. Yet this same thing is being done every day by people who ought to know better. Thus moveth the world.

If all the stuff attractively packed in tin cans and labeled "Paint" is of the same quality, then we are among the biggest liars in your County, for remember, we have repeatedly claimed to sell "Better Paint" for "Better Jobs" and, we are sticking to that claim.

If you don't find our Lucas Paints; Stains; Varnishes; Enamels; Brushes; etc. head and ears above the average then, there's nothing in any quality argument.

**Now, Mr. Prospective Buyer; What do you think about it?**
