Do You Call This a Square Deal?

When the South-Atlantic Life Insurance Company of Richmond, Va., began to solicit business in Marion County, it announced the policy of investing, on satisfactory real estate security, all its net premiums received from that community.

We understand they have loaned their policy-holders in Marion County nearly \$3 for every \$1 received in premiums, to say nothing of the death claims, taxes and operating expenses paid. This looks to us like keeping the money at home. Other Life Insurance Companies are beginning to follow their example; why? Because they found they had to do it to get some of the business.
