

AROUND ABOUT TOWN
LOCAL PARAGRAPHS PICKED UP
HERE, THERE AND EVERYWHERE.

Mrs. J. V. Malcolm attended the Festival in Florence.

Mrs. J. H. Hamer Jr. has returned from Charleston.

Dr. Johnson McKenzie of Rowland spent Sunday in town.

Mrs. W. C. Bracey and Master Cecil spent Tuesday in Florence.

Col. Knox Livingston was in the city on legal business Saturday.

Quite a number of Dillonites attended the races at Florence Tuesday.

Miss M. Carmichael has returned from Red Springs Seminary.

Misses Isla and Nettie McKenzie spent Saturday with relatives at Rowland.

Mrs. T. J. Weatherly of Bennettsville is visiting at the home of Mr. N. H. Sprunt.

Miss Ruth Allen entertained a large number of friends at her home on Monday evening.

Miss Lula Peterkin will leave for Asheville, N. C., Saturday to spend the month of June.

J. P. McLaurin has sold his automobile to a party in Easley and contemplates the purchase of a touring car.

Mrs. W. B. Guill and son Mr. Frank Guill and daughter Miss Essie of Smithfield N. C., are the guests of Mrs. J. L. Bridges.

Dr. Taber has been called to the bedside of his uncle who is ill at McClellanville and will be absent from the city several days.

Mayor Hargrove is attending the K. of P. grand lodge meeting at Charleston this week as a delegate from the local lodge.

Miss Flora Watson, Messrs Vernon Lane and Thomas Gaddy went to Lumberton, N. C., Monday to attend the marriage of Miss Rancke of that city to Mr. Fred Lane of Dillon.

Miss Lena Hampton who has been attending Red Springs Seminary is spending a short while with her sister, Mrs. T. L. Manning, before returning to her home at Leaksville, N. C.

Mr. C. T. O'Ferral has opened an automobile livery in one of the vacant stores in the Price Hotel block. Mr. O'Ferral has in the livery several run-arounds and a large Rambler touring car.

Tobacco and cotton were badly damaged by a hail storm which passed over the upper section of the county Friday afternoon. Most of the crops damaged however were covered by hail insurance.

The little Wayne automobile which has been a familiar figure on the streets of Dillon for several years has been sold by Mr. C. T. O'Ferral to a gentleman in Chester and was shipped to that city by express Tuesday afternoon.

Farmers from different sections of the county tell us that cotton is suffering from the cool nights of the past few weeks. Notwithstanding this setback, however, the prospects for a good crop are excellent and everybody is looking forward to an abundant harvest.

Dr. J. H. David has returned from Memphis where he attended a meeting of the Seed Crusher's Assn as the guest of the Southern Cotton Oil Co. The Company gives its managers a trip every season and the South Carolina managers met at Columbia where special Pullman's had been provided to carry them to Memphis.

During the thunder and rain storm which swept over Dillon Friday at noon the residence of Mr. E. R. Hamer was struck by lightning, but no serious damage was done. The bolt descended on the kitchen chimney and tore away several bricks. Mrs. Hamer was standing in the front door and received a very slight shock.

Henry McRae, colored, was arraigned in the Mayor's court Monday charged with having stolen three gallons of whiskey from a negro on Mr. T. L. Manning's plantation. Henry plead not guilty to the charge but this was not the first time he has been tangled up with somebody else's whiskey and the evidence being against him he was sentenced to pay a fine of \$100 or to serve 30 days on the public works.

Dorothy, Mr. and Mrs. E. L. Moore's youngest daughter, entertained her little friends with a party Friday. Games were played and refreshments of ice cream, cakes and candy were enjoyed by the following girls and boys: Emmie Lou Moore, Mary E. Stackhouse, Mary Sprunt Bethea, Louise Blizard, A. B. Jordan, Jr., Jord H. Jordan, Carrigan Wilson, Joe Taber, and Dolph Braddy.

Attention is called to the advertisement of the Jackson Springs Hotel in another column. This well-known resort will be under new management this season and as will be seen by their advertisement they have made great preparations for the entertainment of their guests. Jackson Springs has always been a popular resort for Dillonites and with the completion of the new railroad which makes the resort more accessible there is every reason to believe it will be more popular than ever.

Mrs. Yetta Blum has announced the engagement of her daughter, Miss Minnie, to Mr. Max Wager, of Thomasville, N. C. The engagement was announced at a reception at the home of the bride-elect at Latta Sunday afternoon. In addition to the immediate members of the family and other relations there were present quite a number of intimate friends of Miss Blum and Mr. Wager. At the conclusion of a sumptuous repast Mr. Louis Wolf, of Baltimore, rose and made a happy talk in which the prospective bride and groom were showered with many good wishes for their future prosperity and happiness. Miss Blum is a sister of Mr. Isadore Blum of Dillon.

The advance force of laborers on the new railroad is making splendid headway. An opening has been made as far as Gallavon and if the present pace is maintained the right-of-way should be cleared as far as Dillon within the next ten days. The opening of Donoho bay was a tough proposition. This bay is a dense net work of vines, briars and other tough undergrowth and it required several days to cut a passageway through it. The bay had never been penetrated before this being the first time the foot of man had ever reached its innermost recesses. Another force of hands is grading the road bed out from Clio. There is every indication that the new road will be operating trains in and out of Dillon by September 1st.

While so many good things are coming its way Dillon might reach out for that new railroad which has been projected from Rockingham to Georgetown or Charleston by way of Bennettsville. The road would have to make a wide detour to go by Bennettsville whereas it would be an air line from Rockingham to Georgetown by way of Dillon. The Herald believes in railroads and would like to see a hundred making for Dillon. Railroads made Atlanta the metropolis of the south, not in point of population, but in point of spirit and progress. Railroads will build up any town, provided, of course, they find the material there to build on and Dillon ought to make an effort to turn everyone this way that touches anywhere in this section.

Attention is called to the advertisement of the Maple Dairy in another column. This new enterprise was established by Dr. J. H. David several months ago and is meeting with wonderful success. On his plantation two miles south of Dillon Dr. David has established a model farm and it would pay anyone who contemplates embarking in the dairying business to visit this farm and see what a model of perfection it is. In addition to his dairy farm Dr. David has on the same plantation what might be called a typical New England farm. He plants alfalfa, vetch and Bermuda grass and gives particular attention to intensified farming. He uses a gasoline engine for pumping, grinding cutting forage and all other power purposes and finds that it is a great time and labor saver. Someone has said that one piece of land is as good as another if it is properly drained and cultivated. If anyone is disposed to question the veracity of this statement a visit to Dr. David's farm will convince them to the contrary. Several years ago part of this plantation was what is commonly called "craw-fish" land, meaning, we suppose that crawfish lived there because it was so low and held water all the time. Anyway it was cleared up and drained and cultivated until now it will produce as much cotton, corn or oats as any land in this section.

Don't forget that Salmon Novelty Works is prepared to do all kinds of sign work.

The Dillon Herald \$1.50 a year.

Ladies and Misses millinery offered below cost at Wm. Brick's.

All the leading magazines on sale at the Herald Book Store.

EARL SHAMBURG, Codell, Kas.

PRICE 50c AND \$1.00

SOLD AND GUARANTEED BY Evans Pharmacy.

"1892" Pure Aluminum Ware

Will Not Rust, Crack, Break, Scorch or Burn

Cheapest Because Best Will Last a Lifetime

HERE, at last, is the ideal kitchen and cooking utensil—"THE WARE THAT WEARS"—made from Pure Spun Aluminum, and

guaranteed by the makers to last 25 years with average usage. "Spun" Aluminum, mind you, not cast Aluminum, which will sometimes crack and scale. Spun Aluminum Ware will never crack, peel, scale or break.

Costs a trifle more than ordinary enamel ware, but is many times cheaper in the long run, because of its wonderful durability and fuel saving. Enamel ware is iron coated with colored glass. Iron expands with heat. Colored glass does not, but chips off into the food with dangerous results to those who eat it.

That the use of enamel kitchen ware causes cancer is a view held by some eminent medical authorities. Dr. William H. Diefenbach of New York, in a paper entitled "Observations on the Etiology of Cancer," read before the Bureau of Sanitary Science and Public Health during the session of the International Homeopathic Congress at Atlantic City, discussed this subject.

According to a special dispatch to the Philadelphia North American, Dr. Diefenbach advanced the argument that chipping

of the hard-coated dishes used in preparation of meals allowed minute but dangerous particles of foreign matter to become mixed with the food, these being taken into the stomach, where the cancerous growth is caused by abrasions which they make in the walls of the organ.

"1892" Pure Aluminum Ware saves doctors' bills. It enables you to bake bread, pies, pan cakes, etc., without grease, which is the great cause of dyspepsia and indigestion. Aluminum griddles require no grease; hence are smokeless and odorless.

"1892" Pure Aluminum Ware will not scorch or burn, is easily cleaned, will not rust, or corrode. Handsome in appearance. Looks like silver, but weighs only about one-fourth as much, and is light and convenient to handle.

The original and only genuine Spun Aluminum Ware is made by the Illinois Pure Aluminum Co. at Lemont, Ill. Every piece bearing their trade-mark, the Maltese Cross, and marked "1892" Pure Aluminum Ware is absolutely pure, wholesome and hygienic, and guaranteed for 25 years.

See that you get the right goods and accept no substitute.

Only a few of the "1892" Pure Aluminum Cooking Utensils are shown here. Complete line will be found at The Illinois Hardware Company.
