

THE PRESIDENT IN CHICAGO

One Round of Enrapturing Scenes—He Enters Heartily Into The Felicities All The Day And Retires Late To His Car.

Chicago, Special.—President Taft, during a stay of twelve eventful hours in Chicago, plunged with a will into the long program of entertaining that awaits him on his long Western and Southern itinerary. With perfect weather and crowds that fairly vied to catch a glimpse of the Executive, this, the first city he has visited, set a high mark of enthusiastic welcome to the President.

At the moment he stepped off the platform of his private car which will take him to Milwaukee in the morning the President's journeyings of thirty miles or more over the city's streets and parkways led him through lanes of massed humanity that were kept open with the greatest difficulty.

Beginning with an automobile trip in review of 150,000 school children, four deep on either side of the park boulevards, the President's day was replete with incident. He attended and spoke briefly at a luncheon of the Commercial Club, viewed an exhibit of ambitious plans for the improvement and beautification of Chicago, attended the regular National League baseball game between the Chicago champion "Cubs" and the famous New York "Giants," dined quietly with the Hamilton Club at the Congress hotel; made a notable address to a mass meeting in Orchestra hall in the evening, and as a finale attended for a few minutes the ball of the American Bankers' Association.

Mr. Taft was deeply impressed by the greeting of the school children, each one of whom waved an American flag and sang and cheered as he passed.

At the National League grounds the President saw his biggest baseball crowd. More than 30,000 people were present. The President sat in one of the open sections of the double decked stand and thoroughly enjoyed a brilliant game in which the two greatest pitchers of the league, Mathewson, of New York, and Brown of Chicago, faced each other. New York won, but the crowd had some compensation in cheering the President, who remained to the end and waved a farewell to the throngs.

Taft Denounces the Law's Delay.

Chicago, Special.—Speaking with great earnestness to a mass meeting in Orchestra hall Thursday night, President Taft declared that no question before the American people today is more important than the improvement of the administration of justice, and announced his intention of recommending to congress the appointment of a commission to take up the question of the law's delay in the federal courts. The president said he hoped that the report of this commission, when rendered, would serve also as a guide to the States of the Union in effecting remedial legislation.

Recalling that it was in this same hall during the campaign of a year ago that he faced an audience of more than 1,800 workmen and made one of the crucial addresses of his candidacy, the president assured his hearers that he had not forgotten his campaign promises and the platform declarations of his party.

Mr. Taft devoted the entire first part of his speech to the subject of labor.

The President on the Tariff Bill.

At Winona, Minnesota, Friday the President in a speech made the most important utterance he has made since his occupancy of the White House. He was in the hotbed of the "insurgent" movement within the Republican party, but defended the Payne tariff bill as the best measure ever passed by a Republican Congress and hence the best tariff bill the people have ever known.

The President boldly asserted that the insurgents, who voted against the bill, had abandoned the Republican party.

"Was it the duty of the member of Congress who believed that the bill did not accomplish everything that it ought to accomplish, to vote against it?" asked the President.

"I am here to justify those who answer this question in the negative. I am not here to defend those who voted for the Payne bill, but to support them."

"There is nothing quite so difficult," said the President, "as the discussion of a tariff bill for the reason that it covers so many different items. The meaning of the terms and the percentage are most difficult to understand. The passage of a new bill, especially where a change in the method of assessing the duties has been followed, presents an opportunity for various modes and calculations of the percentages of increases and decreases that is really most misleading, or really throws no light at all upon the changes made."

"One way of stating what was done is to say what the facts show—that under the Dingley law there were 2,024 items. This included dutiable items only. The Payne law leaves 1,150 of these items unchanged. There are decreases in 654 of the items and increases in 220 of the items. Now, of course, that does not give a full picture, but it does show the proportion of decreases to have been three times those of the increases."

Taft Favors Postal Banks.

President Taft devoted his principal address in Milwaukee at the State fair Friday to the subject of postal savings banks, which he strongly endorsed before a large and enthusiastic gathering that overflowed the grandstand. The President said that the postal savings bank plank in the Republican platform bound everybody who calls himself a Republican.

"The great usefulness of the postal savings bank is the great encouragement to thrift on the part of those who are just wavering in the balance whether they shall save the money or use it, because they do not know where they can put it safely."

THE SECOND STRIKE ENDED--SINGULAR TURN TAKEN

Pittsburg, Special.—The second strike of workmen employed at the plant of the Pressed Steel Car Company, which was declared Monday, was brought to an abrupt end Friday. The climax was remarkable in the history of industrial disputes. Having notified the foreigners that they intended to march into the mill carrying the Stars and Stripes, 2,000 American workmen who were not favorable to the strike, assembled early at the McKees Rocks end of the O'Donovan bridge and cheering enthusiastically started toward the big plant. When the foreigners saw the great body of men determined to return to work these, too, fell into line and entered the plant. Anticipated disorder failed to materialize and the strike was over. It is believed now that the trouble has been settled.

PLOT TO KILL SAN SALVADOR'S PRESIDENT DETECTED

Mexico City, Special.—Charged with being implicated in a plot to kill President Figueroa, of the republic of Salvador, Gen. Jose Dolores Preza and Gen. Damas Copin are behind prison bars in the capital of that republic, according to letters received here Friday. The writer stated that on the 6th of last month a big religious and civic fête was held in the capital. It was planned by a number of men, it is said, that the President should die on that day. While the fiestas were in progress government detectives arrested and imprisoned a number, among them General Preza, who was commander-in-chief of the Salvadoran and Honduran forces when they fought Nicaragua in the war of 1897.

WESTERN UNION STOCK BOUGHT BY RIVAL COMPANY

Boston, Special.—It became known Thursday that the American Telephone and Telegraph company has acquired nearly \$16,000,000 worth of New York Telephone company stock, owned by the Western Union Telephone company. Papers covering the purchase were signed Wednesday.

The New York Telephone company is the largest and in some respects the most important of the subsidiaries of the American Bell Telephone company. Of its \$50,000,000, 64 per cent, or \$32,000,000 is owned by the American Telephone and Telegraph company.

Contrary to the general impression, the transaction just concluded does not involve any settlement of the long pending suit between the American Telephone and Western Union, judgment in which was recently returned in favor of the Western Union for approximately \$5,000,000.

Practically speaking, therefore, it will be fully two and one-half years before the American Telephone company enters into actual possession of the entire \$16,000,000 of New York Telephone stock.

TWENTY-THREE LIVES LOST OFF THE ISLE OF PINES

Mobile, Ala., Special.—A graphic story of a marine disaster which cost the lives of 29 persons when the steamer Nicholas Castania, en route from Havana to Cienfuegos, foundered off the coast of the Isle of Pines on the night of August 23 last, reached Mobile Friday night. Meagre news of the disaster was given by the Associated Press August 31. The crew numbered 27 officers and sailors, and there were two passengers.

Fourteen human bodies have been recovered. The missing 11 are believed to have become the victims of sharks. All the bodies recovered were in a terribly decomposed state and identification was impossible. A government commission, after an examination, reported that the immediate cause of the wreck was the simultaneous explosion of the steamer's battery of boilers, combined with a concussion of the steamer on the rock.

One who suffers with backache or any form of kidney trouble wants a cure, not merely temporary benefit. Rev. Maxwell S. Rowland, of Tom's River, N. J., makes a statement in this connection that is worth attention. Says he: "I was suddenly taken with an attack of kidney trouble, had severe pains in my back and loins and was generally run down. Doctors were not helping me, so I began using Doan's Kidney Pills. They brought me prompt relief, and as I continued taking them the pains in my back disappeared and the kidneys were restored to normal condition."

COVERED WITH HIVES.

Child a Mass of Dreadful Sores, Itching, Irritating Humor for 2 Months—In Terrible Plight—Disease Cured by Cuticura.

"My six year old daughter had the dreadful disease called hives for two months. She became afflicted by playing with children who had it. By scratching she caused large sores which were irritating. Her body was a complete sore but it was worse on her arms and back. We employed a physician who left medicine but it did not help her and I tried several remedies but without avail. Seeing the Cuticura Remedies advertised, I thought I would try them. I gave her a hot bath daily with Cuticura Soap and anointed her body with Cuticura Ointment. The first treatment relieved the itching and in a short time the disease disappeared. Mrs. G. L. Fridhoff, Warren, Mich., June 29 and July 13, '08." Potter Drug & Chem. FALL PAINTING.

The majority of property owners are under the impression that spring time is the only painting time. But the fall of the year offers several advantages to the painter. One of the most important is that surfaces are almost sure to be dry, and there is no frost or inner moisture to work out after the paint is applied.
