More brains than metal are used in building this

# MAXWELL TRUCK

Brains are hard to find and come high, but they are the cheapest in the long run. In a great organization like the Maxwell Motor Company which, in four years, has done a business in excess of \$100,000,000, there are many great minds.

These great minds have found a way to make trucks stronger, yet lighter in weight (more thought and less metal went into the truck). These great minds have found ways to build them better, yet at less cost.

That's one reason why you can buy a Maxwell for \$400 less than any other truck of similar capacity in the world.

That's one reason why the Maxwell has a verdict of close to 100% perfect from its service record based on the 6600 Maxwell trucks now in use.

## YOU COOK YOUR FOOD—WHY NOT YOUR TOBACCO?

YOU know what broiling does to steak, baking to a potato—and toasting to bread. In each case flavor is brought out by cooking—by "toasting." So you can imagine how toasting improves the flavor of the Burley tobacco used in the Lucky Strike Cigarette.
