TO THE PUBLIC

We want all you folks to remember that by turning over the stock to the sales manager, Mr. Kindall, that we will use the very same tactics and the same principles as we have since we opened up business. We have entirely disregarded the profits and marked stock for this sale that will move it out as if it was on rollers. It is going to be our loss, but it will be a gain to us in the future because the prices we are putting on this merchandise during this sale will bring crowds of buyers who have never traded with us before but whom I know will trade with us in the future after they have seen the prices we are offering quality merchandise for. Everything will be as advertised in this circular or your money will be cheerfully refunded.
