Patterson Quits Tobacco Co-op

TEMPORARY MANAGERS, NORWOOD, WILLIAMSON AND BAGLEY, GIVEN CLEAN-UP POWERS.

Raleigh, N. C., April 3.—The Tri-State Tobacco Marketing association today accepted the resignation of its general manager, Richard E. Patterson, who was the object of bitter attacks in the five day legal battle over the life of the association, which came to a close here yesterday. The resignation becomes effective immediately.

In Mr. Patterson's place the board appointed temporarily three directors: George A. Norwood of North Carolina, president of the association; Bright Williamson of South Carolina, its vice-president; E. G. Bagley, a Virginia director.

Patterson and T. C. Watkins, Jr., another former official of the association, who resigned some time ago, are charged with having made more than \$800,000 personal profits out of redrying association tobacco. This charge was one of the bases on which the receivership suit, denied yesterday by Federal Judge I. M. Meekins, was brought. In the course of the trial Aaron Sapiro and W. T. Joyner, counsel for the association, disclosed that they had instituted legal proceedings to seek recovery of this money on behalf of the organization.

There had been some suggestion of retaining Mr. Patterson as manager of the association's sales and leaf departments but today's action by the board of directors entirely severs his connection with the tobacco association, it was announced at the close of the meeting of the board.

The board today also unanimously passed a resolution empowering the temporary management to "make any other changes it may deem advisable among other employees of this association" and "generally to carry on the work of this association, subject to the instructions of the board."

"The Tobacco Growers' Cooperative association can now go ahead and make progress," declared Messrs. Sapiro and Joyner, the organization's general and associate counsel, at the board meeting. They said they would not desire a word of Judge Meekins' order, which denied the receivership petitioned but held the matter open, changed.

"We have paralyzed this series of receivership actions against the association," they told the board, "by having it retained in the jurisdiction of the federal court. We are satisfied to have it suggested that we be confined to our usual business. As the decree now stands it has everything in it that we need to protect ourselves; there are no harmful strings tied to the decision. The association is absolutely at liberty to handle its own affairs, in its own way, under its own leadership." Judge J. Lloyd Horton of counsel for the plaintiffs is likewise satisfied with the ruling, which he characterized as thoroughly satisfactory.

Acceptance of the resignation of Mr. Patterson today is considered significant in view of Judge Meekins' questions to Sapiro in court with reference to today's meeting of the board of directors and its authority to discharge employees if it should see fit.

COOPER COMMENTS ON FARM OUTLOOK

Chairman of Federal Loan Board Reports Improvement Don'ts To Tillers.

Washington, April 2.—"Material improvement" in farm conditions over a year ago was reported today by Chairman Cooper of the federal farm loan board on the basis of advices from the presidents of the 12 federal reserve banks.

Higher prices for hogs and cattle, Mr. Cooper said, have offset effects of the corn surplus and the live-stock industry generally was declared very much improved.

Chairman Cooper warned, however, against overproduction this year in cotton and potatoes. Despite previous warnings, he said, land bank presi-

dents from the South unanimously indicated that farmers are planning to increase their acreage.

"Each farmer or community is perfectly well aware," he emphasized, "that a 17,000,000 bale crop this year spells calamity for the South and they believe in the need of reducing acreage, but they want the other fellow or other section to do it so they will reap the benefit."

Early reports on intentions of farmers to plant potatoes indicated overproduction and lower prices, Mr. Cooper said.

Winter wheat acreage in the Northwest was described as about normal with conditions good.

Money for mortgage loans was held plentiful at low interest rates in almost every district.

HELP MAKE SPRINGTIME TRAVEL SAFE

When the lure of springtime comes and the invitation of the open road is irresistible, countless thousands of people seek the outlet from the cooped up conditions usually existing during the winter period.

This means that every vehicle of every kind and character possible will be rolling over the roads in the next few days and weeks.

In addition thereto, it means that these vehicles will be crowded to the limit in most instances; that everybody who can will be riding out.

This increase in motor vehicle and the multiplicity of passengers means that there will be greatly increased danger from traffic. While, of course, congestion in the city is to be considered, it must not be forgotten that the country invites disaster just as much as any other locality, especially when speed is counted, in addition to the greatly increased number of vehicles. The average driver, unacquainted with country roads, especially in sections where the formation of the road bed is unknown, invites danger and disaster every time the law of the road is transgressed, or safe and sane speed is exceeded.

Make the springtime season one of the safest periods of the year regardless of the fact that there is certain to be a record breaking movement of motor vehicles this season. Be sure to study up on the law of the road to acquaint yourself with the rights and privileges of others, and all take no chances; be sure to drive at a safe speed even though it might appear to be too conservative.

We are bound to have innumerable reports of wrecks and traffic disasters, but by a little thought and care and the exercise of discretion many of the disasters that come to the communities can be averted.

However, in order to achieve this you must drive carefully under all conditions and certainly more particularly under conditions where you know danger lurks at almost every turn of the road. You cannot absolve yourself from blame or shirk indivisible responsibility in these matters, but on the other hand, it is largely up to you to contribute your part to making driving a safe proposition this season.—Augusta Chronicle.

TIME TO PASS LAWS

Charlotte (N. C.) Observer is in favor of a state law "which would make the pulling of flowers along the highways a misdemeanor", and punishable as such. If an appeal to the better natures of people will not make them flower protectors, then law, strictly enforced, appears to be the only alternative.—Jacksonville Times Union.
