WEATHER FAVORS WEEVIL

Clemson College, June 16.—The boll weevil continues active throughout the State, according to reports for the past week from workers of the Boll Weevil Control division of the South Carolina Experiment Station at Florence. Rapid growth of cotton in central and eastern parts of the State makes weevils more difficult to find, but careful examination by inspectors shows that they are there and are now infesting the squares.

In the lower Piedmont and Upper Coastal Plains areas where cotton is just beginning to square, weevils seem more abundant. Individual farms in Aiken, Chester, and Greenwood counties show 425, 300 and 250 weevils per acre respectively. Weevils are continuing to come out of the hibernation cages at Florence.

Careful search for infested squares should be made in all fields and where evidence of weevil activity is found the poisoning program should be continued. Even where early weevils have been effectively poisoned, says Prof. H. W. Barre, director of the Experiment Station, careful watch should be kept and the fields protected against these late arrivals.

HAS THE LAXATIVE IN YOUR HOME A DOCTOR'S APPROVAL?

Some things people do to help the bowels whenever any bad breath, feverishness, biliousness, or a lack of appetite warn of constipation, really weaken these organs. Only a doctor knows what will cleanse the system without harm. That is why the laxative in your home should have the approval of a family doctor.

The wonderful product, known to millions as Dr. Caldwell's Syrup Pepsin is a family doctor's prescription for sluggish bowels. It never varies from the original prescription which Dr. Caldwell wrote thousands of times in many years of practice, and proved safe and reliable for men, women and children. It is made from herbs and other pure ingredients, so it is pleasant-tasting and can form no habit. You can buy this popular laxative

It May Be Urgent

When your Children Cry for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant; you have the doctor's word for that! It is a vegetable product and you could use it every day. But it's in an emergency that Castoria means most. Some night when constipation must be relieved—or colic pains—on other suffering. Never be without it; some mothers keep an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

Who said good tires

COST A LOT OF MONEY?

- 30x3 1-2 \$5.30
- 29x4.40 \$6.30
- 30x4.50 \$7.00

Just get the Prices on CAVALIERS—and see!

DON'T let anyone tell you that good tires must be high priced! For right here on our racks, we've got tires in your size that will surprise you on price and tickle you to death by their performance!

They're Goodrich Cavaliers... and real bargains if you ever saw one.

They have to be good to carry that name, Goodrich! They have to come up to the most rigid standards in the business... and that means that out on the road you can forget them.

But the thing you'll like best of all is the

price. Oversized, thicker through the tread, stouter in carcass and sidewall... you'd guess this tire was priced with the highest. Actually it's lower than just ordinary quality.

So come in... right away! See what we've got! But bring the car... because you're going to want two, at least, maybe four, when you see what values they are.
