**To Identify Genuine Aspirin**

The increasing use of Bayer Aspirin every year is proof that it has no ill effects. It is the accepted antidote for pain. It always helps; never harms; is safe to use freely as often as it is needed. Quick relief whenever you've a headache, or cold, or are suffering from neuralgia or neuritis. The distressing pains of rheumatism yield, too, if you'll only give these tablets a chance. But be sure to get genuine Aspirin. It has the Bayer Cross on every tablet. Look for the same Bayer on the box, and the word "genuine" printed in red. Proven directions inside.

**ANN AND OLE**  
By Helen L. Coffin

**Calories**

Ann Teek says: "I've been putting on flesh lately and I had to do something, so I went to one of those health meetings and came away counting calories. Because if you don't eat more than so many a day you don't get overweight. It's as easy and simple as that. "Everything you eat has got calories in it; even bread and butter and spinach. Some people have figured it to such a fine point that they have made up menus just right to keep you where you belong on the scales. One of these schedules has orange juice, lamb chops, spinach and pineapple. The next meal you begin with the pineapple and end up with the lamb chops. Once in a while you can have a carrot instead of spinach. "All these things are good and I used to like them, but my! how tired you get of good things when you have to eat them! I just hanker after the fleshpots of Egypt! My mouth waters for porterhouse steak and fried onions and pie and cake and ice cream and candy! I tried to keep my courage up by thinking of the feed I would have next Thanksgiving day with turkey and all the fixings, including mince pie. But Thanksgiving is an awful long way from here."

**Diet Is Ruining Farmers**

Ole Fashion says: "The very same day Ann Teek broke into print about calories I saw where the Federal Agricultural Department has decided that what ails the farm is because so many folks are dieting. It stands to reason. When

everybody is eating spinach and lamb chops, just a bite or two at a time, and counting every calory they swallow, something terrible happens to consumption and the produce market is overstocked. Of course then there is a panic. "Where did these women ever get this foolish reducing fad anyhow? Good, honest solid food was plenty good enough for their mothers and it is good enough for them. When Ann Teek was a girl she had a good, healthy appetite and it didn't make her too stout, either. Tell you what the trouble is; women and men too, don't exercise enough these days. That's what the matter.

**New Ford Car Wins Favor**

**Ford Phaeton**

THE Ford Phaeton, shown above, is equally popular as a family car and as a sport car for young people. The seating arrangement provides for the driver and one passenger in front and three passengers in the rear. Seats are upholstered in two-tone cross cobra grain artificial leather. The top is of the quick collapsing type, easily handled by one person, and folds flat. The windshield, of Triplex shatter-proof glass, is of the folding type and can be laid flat forward. The windshield wings fold over it, emphasizing the sport effect of the car.

"Look at the woman's work around the house. Taint what it used to be. Washing was exercise in the good old days, but now it is a form of leisure. Sweeping was hard work, exercising all the muscles. Now you just push around a vacuum cleaner. I'm going to get up an Anti-Dieting League and help the farmer. I'm warning every man, woman and child in the United States will join it. They are all half-starved on their calories."
