

Start Drive For Monument to Sen. B. R. Tillman

Columbia, S. C., June 14.—Decision to speed up in every possible way the campaign to raise, by public subscription, ten thousand dollars to match a like amount appropriated by the 1930 Legislature to erect on the State House Grounds a monument to the late Senator Benjamin Ryan Tillman was reached at a meeting of the Tillman Memorial Commission held in the Governor's office Friday, June 8.

The meeting was the first held by the commission since passage of an act by the recent general assembly authorizing such a commission and making by act of the Legislature Governor Richards the Chairman of the Commission with power vested in him to appoint five other members. There had been, however, previous to the enactment of this legislation gatherings in the Governor's office of those who feel that Senator Tillman should be honored with a suitable monument on the State House Grounds, and at these meetings plans for the raising of the funds were discussed and a tentative organization was set up with a chairman in each county but the session last week was the first held under authority of the act.

It was the sense of the commission that efforts should be made to speed up the campaign to raise the required amount to match the appropriation that has been made and the secretary was instructed to write the county chairmen requesting that special efforts be put forth at once to complete the quota of \$200.00 asked of each county as a minimum and that as much as possible be raised beyond this amount to take care of the additional amount required and of any county that might not raise the minimum quota. Several counties have already sent to the state treasurer of the commission their quota and work is continuing in these counties. The commission is leaving to each county chairman the plan of campaign and the selection of co-workers, with the request, however, that he furnish to his local or county newspaper the names of his county committee as well as workers and committees in each community and furnish the papers information that will keep the public informed of the progress of the campaign so that it can be completed as soon as possible and the order placed for the monument. The secretary was instructed to get in touch with sculptors with a view of getting designs and prices in order that the monument be erected and ready for unveiling on the opening day of the next General Assembly.

In addition to Governor Richards, who is chairman, the members of the Tillman Memorial Commission are General Wylie Jones and Fred D. Marshall, Columbia; Senator R. M. Jeffries, Walterboro; Senator T. B. Grenaker, Edgewood; and James M. Baker, Lawndesville. All were present at the first meeting of the commission except Senator Grenaker and Mr. Baker who were unavoidably prevented from attending. At the meeting, General Jones was elected treasurer and J. Austin Latimer, secretary to Governor Richards, was elected secretary of the commission.

The secretary was instructed to write to the Presidents of Winthrop and Clemson College with a view to interesting the student body and alumni of these institutions in the raising of funds by popular subscription. These institutions were dear to the former senator and in their establishment he played an important part.

The Commission re-appointed the county chairmen previously appointed by Governor Richards and gave him authority to fill any vacancies.

Sen. M. G. Anderson is chairman for Horry County.

A few days after a farmer had placed his two children in a school, a book agent called on him and said, "Now that your children go to school you ought to buy them an encyclopedia."

"Buy them an encyclopedia? I'll be hanged if I do," was his reply.

"Let them walk as I did."

THE THERMOMETER TEST!

Another proof of KELVINATOR'S Faster Freezing

BOILING water reduced 100 degrees in 5 minutes! Amazing—but Kelvinator does it. And we invite you to come and watch it done! Actually see the mercury slide quickly down the tube as Kelvinator, world's fastest-freezing refrigerator, does its work.

This week we are demonstrating Kelvinator's new Automatic Super-Fast Freezing—the Kelvinator feature which makes ice in less than half the ordinary time. In 80 minutes, Kelvinator freezes water to solid! Only Kelvinator provides this automatic super-fast freezing—because Kelvinator alone has the famous Iso-Thermic Tubes.

This is one of the features of the new 4-Way Cold Kelvinator, providing four separate and entirely automatic degrees for: (1) extremely fast automatic freezing of ice and desserts; (2) a special Cold Storage Compartment with below-freezing cold for keeping meats, fish, game, ice cream, etc., indefinitely; (3) steady cold for freezing regular ice supply; (4) controlled cold in food compartments always below 50 degrees.

Special Offer During Entire Demonstration

This handsome pewter ice bowl and tongs—\$10 retail—is the thing for attractive service of ice cubes for cooling drinks—given FREE to every purchaser of a Kelvinator Electric Refrigerator during this demonstration. See it on display at our showrooms.
