

Warm Lost, Strayed or Stolen.
The Bangkok Times announces that a large floating island on the Mekong or Cambodia river, in Siam, recently slipped its moorings, and has not been seen or heard of since. There were a number of trees three feet in diameter on the island, and the land was under cultivation. The owner has been hunting diligently for his property, but has not been able to hear any tidings of it. It undoubtedly went down the river with a freshet and has either stranded or gone to pieces.

Women's Unequal Rights.
In thirty-seven of these United States a married mother has no legal right to her children. In sixteen states a wife has no legal right to her own earnings outside of the home. In eight states a woman has no right to her own property after marriage. In seven states there is no law compelling a man to support his own family.

GOOD ROADS NOTES.

An Economic Necessity.
SPEAKING of one of the most important matters now occupying the attention of wheelmen, Vice-President Kingsbury, of the L. A. W., says: "The suggestion that the Highway Improvement Committee of the League of American Wheelmen take immediate steps toward the insertion of good roads planks in National platforms has met with such instant approval and so much encouragement that it seems safe to predict for it a complete success. Under the splendid aid which the League has given to it, the movement for better roads has grown to great proportions, and now, under the united efforts of the wheelmen, farmers and automobilists, is so rapidly becoming recognized as a plain business proposition, the beneficial results of which are out of all proportion to its cost, that far-seeing statesmen will no longer have any desire to ignore the question of highway improvement under national legislation and appropriation."

"It seems perfectly proper that the demand for a declaration of belief on this subject from the leading political parties should come from the organization which was the pioneer in the movement; it has been a long, twenty years' campaign of education, commencing with local work and the distribution of such literature as could be obtained, and working gradually, by the expenditure of thousands and thousands of dollars and the distribution of millions of pamphlets, up to successful legislation in many States and the adoption of the State aid system, which has proven unqualified success wherever tried. The time has now arrived for a still broader movement, and from the League of American Wheelmen should come the primary efforts which shall result in a thoroughly practical system of national, State and city road building, which would apportion the expense and soon put the highways of this country on a basis equal to that of perfection which national and State financial aid have made it possible for our through rail and waterways to attain."

"The effect of the insertion of a strong plank declaring in favor of national highways, which, with the united effort of farmers, automobilists and wheelmen, should not be difficult to obtain, could only have beneficial results, even if placed there only with the idea of vote getting by the party management; the good roads movement to-day is strong enough to follow up such a party promise with demands for its fulfillment; it would prove the entering wedge which could be driven deep enough into the heart of Congress to produce immediate results, and I am confident it will be accomplished and that we shall mark the beginning of the new century by starting national highways."

A Result of Private Enterprise.
One of the most successful movements for good roads, the result of private enterprise, is that of the citizens of Madison, Wis. The idea of securing drives along the lakes and parks in and near the city took definite shape eight years ago. For the first two years the work was carried on by a citizens' committee, but finally passed into the control of an association organized for the purpose. In the by-laws of the association it is provided that, in acquiring, opening, extending parks and drives in and about the city of Madison and Dane County, the business shall be without profit to any member. The corporation is without capital, and there is no such thing as a dividend. Any person may become a voting member of the association on annual payment of \$25. Persons contributing annually \$5 or over, or less than \$25, become associate members, but have no vote, save in altering constitution and by-laws. Any person contributing \$500 is made a life member. Other sources of revenue are gifts and grants. In all, during the eight years, nearly \$40,000 has been subscribed and expended, the results being the building and maintenance of twenty-five miles of carriage drives and bicycle paths, the laying out of several small parks, and the planting of hundreds of shade trees.

Reform Marching On.
The cause of road reform in this State goes marching on. The latest county to come under its wholesome influence is Albany. The supervisors of Albany have just determined to improve one of the leading roads of the county, through State aid. Commenting upon this decision, the Albany Journal remarks that "the roads in the county of Albany for many years have been remarkably bad." This is not a confession which does credit to Albany's public spirit and enterprise, but then she can console herself with the reflection that there is scarcely a county in the State which, if called to the witness stand, would not be compelled to make a similar confession.—New York Mail and Express.

The Mark of Success.
"Dear me!" said the short-sighted old gentleman who has a great weakness for the fair sex in general, "I had no idea Miss Stretton was left-handed." "She isn't," replied the charming widow who hopes to lure him from general admiration to particular attention. "Then why does she handle her clubs so oddly?" "Oh, she wishes everyone to see her new engagement ring."

Where Women Vote.
In Iceland men and women are in every respect political equals. The nation, which numbers about 70,000 people, is governed by representatives elected by men and women together.

You Look Cross

What makes you look that way? There certainly must be some good reason for it. If your tongue is coated, if you are bilious, if your head aches, if your food rests heavy on your stomach, and if you are constipated, then the whole trouble is with your liver.

What you need is a good liver pill, an easy liver pill, a purely vegetable liver pill. You need a box of Ayer's Pills, that's what you need. These pills cure constipation, biliousness, dyspepsia, and sick headache.

25 cents a box. All druggists.

"I always keep a box of Ayer's Pills on hand. There is no pill their equal for a liver regulator. Long ago they cured me of liver complaint and chronic constipation."—S. L. SPELLMAN, Columbus, Ohio, May 31, 1900.

A DEAD LIVER

He thinks he lives, but he's a dead one. No person is really alive whose liver is dead. During the winter most people spend nearly all their time in warm, stuffy houses or offices or workshops. Many don't get as much exercise as they ought, and everybody knows that people gain weight in winter. As a rule it is not sound weight, but means a lot of flabby fat and useless, rotting matter staying in the body when it ought to have been driven out. But the liver was overburdened, deadened—stopped work. There you are, with a dead liver, and spring is the time for resurrection. Wake up the dead! Get all the filth out of your system, and get ready for the summer's trials with clean, clear blood, body, brain free from bile. Force is dangerous and destructive unless used in a gentle persuasive way, and the right plan is to give new strength to the muscular walls of the bowels, and stir up the liver to new life and work with **CASCARETS**, the great spring cleaner, disinfectant and bowel tonic. Get a box to-day and see how quickly you will be
