## SEVERE KIDNEY AND BLADDER TROUBLE.

HALF OUR ILLS ARE CATARRH.

Thousands of People Have Kidney Trouble and Don't Know It is Catarrh.

Mr. David L. Jaycox, Chaplain Carinda, I. O. G. T., and Chaplain G. A. R., 865 Broadway, Oakland, Cal., writes: "I am an old war veteran. I contracted severe bladder and kidney trouble. I spent hundreds of dollars and consulted a host of doctors, but either did me a bad good, or either 'Peruna' has proven the best medicine I ever used. My pains are gone and I believe myself to be cured. I feel well and would not be without a bottle in time of need for ten times its cost."

Hundreds of war veterans have kidney and bladder trouble. In using *Peruna* water, sleeping on the ground, and all manner of exposures to wet and cold weather produced catarrh of the kidneys and bladder.

**Colored Folk Fear "Voodoo."**  
Colored folk in the Ninth ward of the city of Wilmington, Delaware, are in mortal terror over the finding by Michael Palesa, a bridge tender, of a jet black cat with a "voodoo" bag tied around its neck with yellow ribbon. The bag contained spices, matches, needles and other magic charms. The note read:  
"Bell Smith, this day do I conjure that you must and shall leave these premises without delay on the ninth day from this day. And God have mercy on you. Amen."  
The negroes in the neighborhood think the Bell Smith referred to is Mrs. Isabella Smith, a white woman living on East Twelfth street. She does not seem concerned by the "conjuring."  
Thomas Hamilton, who has the bag, has been given different methods of getting rid of the conjure, the favorite being to burn it with three red peppers, and throw the dust into the river when the tide is flowing out. Meanwhile the black cat has escaped.

**Oddities of Zoology.**  
"Zoology has its oddities," said John Lover, the Zoo keeper, "and that is why I study it at night, after my regular work is done."  
"There are certain animals whose circulation reverses its direction at short intervals. The blood flows one way in them for a while, then it turns and flows the other way."  
"There are insects that have their ears on their legs. Others have their ears on their tails. As for the eyes, well, they may be found on the back, in the shell, on the limbs, practically everywhere."  
"There are animals that lay two and three different kind of eggs, and there are eggs that each produce from two to eight young."  
"There are Siamese twin animals, with two bodies perfectly united. There are males that live in the gulfs of females. There are animals that commit suicide rather than be slain."  
"Altogether zoology is odd and interesting. I would rather study it at night than go to the play."—Philadelphia Ledger.

**CREAMED DRIED BEEF.**  
One pound of thinly-shaved beef, one-fourth teaspoonful of soda, one cupful of cream or milk, two tablespoonfuls of butter, two slight tablespoonfuls of flour, and salt and pepper to taste. Rinse the beef well in warm water; put in a steppan, put over just enough water to cover, and add the soda to it (this counteracts the sour in the dried beef). Set the pan for half an hour on the back part of the stove where it will keep only just warm, then turn off this water; put in the cream of milk, season and let come to boiling point. Cream the butter and flour together, and add and let it boil up. Send it to the table in a covered dish.

**FACE LIKE RAW BEEF**  
Burning Up With a Terrible Itching Eczema—Speedily Cured by Cuticura.  
"Cuticura cured me of a terrible eczema from which I had suffered agony and pain for eight years, being unable to obtain any help from the best doctors. My scalp was covered with scabs and my face was like a piece of raw beef, my eyebrows and lashes were falling out, and I felt as if burning up from the terrible itching and pain. Cuticura gave me relief the very first day, and made a complete cure in a short time. My head and face are now clear and well." (Signed) Miss Mary M. Fay, 75 West Main St., Westboro, Mass.

**Effects of Prosperity.**  
In the six years of the country's greatest prosperity, from 1897 to 1903, average prices of breadstuffs advanced 65 per cent.; meats, 23.1 per cent.; dairy and garden products, 50.1 per cent., and clothing 24.1. All these were products of the farmer and stockman, who profited more than any other class of the community by these advances. The miner benefited 42.1 per cent. by that advance in the average price of metals. The only decrease in the average prices of commodities in that period was in railway freight rates, which decreased from .798 per ton-mile in 1897 to .743 in 1903, a loss of 4.4 per cent. The report of the Interstate Commerce Commission shows that the average increase in the pay of railroad employes in that period was a trifle above 5.5 per cent.

**Literal Obedience.**  
A Fitchburg insurance man tells the following: A printed clause on all policies says all changes in residence should be made known at once to the agent. A man called at an office the other day and said: "I have painted my house yellow and fixed up the chimney."

**\$100 Reward, \$100.**  
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have much faith in its curative powers, and they offer One Hundred Dollars for any case that it fails to cure. Send for details. Address, F. J. CROWE & CO., Toledo, O. Sold by Druggists, 75c.

### COMMISSIONER GARFIELD'S REPORT

**It is Found to Be Favorable to the Great Packers.**  
The report of Commissioner of Corporations Garfield on the beef industry, after about eight months' investigation in Chicago and elsewhere, shows that there has been an enormous amount of exaggeration in the statements that have appeared for some time past in regard to the beef business. This investigation was set on foot by a resolution of the House of Representatives adopted March 7, 1904, and the ascertained facts after a most rigid examination of the methods and general conduct of the business are contained in a report covering 308 pages. Its figures and tables concisely show that the popular belief in enormous profits made by the large packers, such as Armour & Co., Swift & Co. and Nelson Morris & Co., and in the exclusive control of the business which many think they enjoy, is really without foundation.

The report made to President Roosevelt by Commissioner Garfield is really the first official statement of the actual conditions of the beef business that has been made, and as all the conclusions arrived at are based, as shown by him, upon data officially obtained, there seems to be no reason why they should not be regarded as reliable and in all respects trustworthy.

This report shows why the price of both cattle and beef advanced to the highest level ever known after the short corn crop of 1901, and states that because of the decrease in number of cattle and also in decreased weight, "the high prices of beef which caused so much complaint among consumers at this time were attributable wholly to these abnormal cattle prices."

All the figures of the live weight and live cost of all dressed beef cattle were obtained from actual killing records, and all information of every kind obtained by the Commissioner was voluntarily and freely offered by the packers, all books of record and papers connected with the business having been placed at his disposal.

To make certain that the results of the investigation should be absolutely accurate, the Commissioner states that a double method of ascertaining profits was adopted, and, without going into detail here, it is found that the conclusion arrived at shows an average profit of 99 cents per head. The Commissioner says "the close parallelism in the results of the two methods of ascertaining the profits confirms completely the correctness of the general conclusions." It is clearly established that "Western packers do not control more than half of the beef supply of the United States," the conclusion of the Commissioner being that the business done by them amounts to "about 45 per cent." of the total slaughter of the country.

The whole report is extremely interesting and well worthy of careful perusal. As an official report it may be regarded as worthy of confidence, and it certainly leads the reader to the conclusion arrived at by the Commissioner when he states that "the capitalization of none of these concerns is excessive as compared with its actual investment," and that from thorough and rigid examination of original entries in books and papers to which he had access there was also "indirect evidence that the profits of the packers in their beef business are less than is frequently supposed," as shown by comparison between the total profits and the total amount of sales.

# WOMEN NOT TRUTHFUL

This Statement Has Been Unjustly Made, Because Modest Women Evade Questions Asked By Male Physicians.

An eminent physician says that "Women are not truthful; they will lie to their physician." This statement is qualified; women do tell the truth, but not the whole truth, to a male physician, but this is only in regard to those painful and troublesome disorders peculiar to their sex.

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions when those questions are asked, even by her family physician. This is especially the case with unmarried women.

Is it any wonder, then, that women continue to suffer, and that doctors fail to cure female diseases, when they cannot get the proper information to work on?

This is the reason why thousands and thousands of women are now corresponding with Mrs. Pinkham, to her they can and do give every symptom, so that she really knows more about the true condition of her patients, through her correspondence with them than the physician who personally questions them.

If you suffer from any form of trouble peculiar to women, write at once to Mrs. Pinkham, Lynn, Mass., and she will advise you free of charge.

The fact that this great boon, which is extended freely to women by Mrs. Pinkham, is appreciated, the thousands of letters received by her prove. Many such grateful letters as the following are constantly pouring in.

**The Secret of Good Coffee**

Even the best housekeepers cannot make a good cup of coffee without good material. Dirty, adulterated and queerly blended coffee such as unscrupulous dealers shovel over their counters won't do. But take the pure, clean, natural flavored **LION COFFEE**, the leader of all package coffees—the coffee that for over a quarter of a century has been daily welcomed in millions of homes—and you will make a drink fit for a king in this way:

**HOW TO MAKE GOOD COFFEE.**  
Use LION COFFEE, because it gets best results you must use the best coffee. Grind your LION COFFEE rather fine. Use "a tablespoonful to each cup, and one extra for the pot." First mix it with a little cold water, enough to make a thick paste, and add white of an egg (if egg is to be used as a settler), then follow one of the following rules:  
1st. **WITH BOILING WATER.** Add boiling water, and let it boil THREE MINUTES ONLY. Add a little cold water and set aside five minutes to settle. Serve promptly.  
2d. **WITH COLD WATER.** Add your cold water to the paste and bring it to a boil. Then set aside five minutes to settle. Then serve.  
3. (Don't boil it too long. Let it settle more than ten minutes before serving. Don't use water that has been boiled before.)  
**TWO WAYS TO SETTLE COFFEE.**  
1st. With Eggs. Use part of the white of an egg, mixing it with the ground LION COFFEE before boiling.  
2d. With Cold Water. Instead of using the white of an egg, after boiling add a dash of cold water, and set aside for eight or ten minutes, then serve through a strainer.

**Insist on getting a package of genuine LION COFFEE, prepared it according to this recipe and you will only use LION COFFEE in the future.** (Lion-head on every package.) (Lion-heads for valuable premiums.)
