If you want to buy property  
If there is anything that you want the quickest and best way to supply that want is by placing an advertisement in this paper

The results will surprise and please you

### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, 7c.

## Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE

## CARDUI

The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

### Chamois Skin for Windows.

Two pieces of chamois skin and a basin or pail of warm water are the best means for cleaning windows that one housekeeper knows of, so she says. One chamois skin she wrings out of the warm water and uses for washing the windows. With the other she dries them. She finds the chamois skin far superior to the ordinary rags and says that, if they are kept clean, they will last a long time. She uses the same method and materials for cleaning mirrors.

## Capes, Comfortable and Full of Style

Capes in great force stand ready to answer the demand for spring wraps, having gradually and surely ingratiated themselves into the likings of fashionable women. Nothing demonstrates better the inexhaustible genius of designers than the constantly varying interpretations of the cape which make it, just now, the most interesting of wraps. It is shown in unending variety.

Capes are long or short, as you will, but mostly long. They are always full and naturally loose. But in many new models the looseness disappears below the knees being restrained by means of cutting or by confining it in a hem that is rather tight about the figure. Among new capes for spring are long and short capes of taffeta with collars—very ample and cozy looking, of sweater-weave silks or wool materials, and linings that lend them warmth. Navy silk with beige-colored linings and collars is the favorite combination. Duvetyn capes, in navy and marine blues, in brown, henna and tomato red, convince one that no other fabric could show these colors to such advantage. One of the simpler capes in marine blue duvetyn is shown in the accompanying

illustration. It is a practical and graceful garment part cape and part cloak since it has sleeves. The body of it hangs from a small yoke and it contrives to hang in at the sides where it slopes toward the hem in the approved way. As a change from coats, and because it is more picturesque and becoming, the cape for spring deserves attention. In duvetyn, cinnamon brown, henna and tomato red they are deliciously soft and rich looking and velours ought to be as good a vehicle for these colors that make wraps of so much distinction.

Capes are lined with crepe-de-chine to match in color or with checked or cross-bar silks; large checks, in quiet tones, being everywhere present in displays of new spring apparel.

The cape, pure and simple, is to be found, but the cape which borrows something of the coat or is posed on a jacket and is in reality a combining of two wraps into one is oftener in evidence. Nearly all of these wraps have cozy and ample collars. They are successful wraps from every point of view, comfortable and full of style.

Above all things one's millinery must be kept fresh looking and immaculately clean. There are many millinery materials that are always in style, as velvet and velvet ribbons, well-made flowers, laces, ribbons, straw hats, crepe, and chiffons. They become soiled and mused, but can be cleaned and freshened up by simple processes available at home. Now that spring is near, a becoming straw hat may only need repolishing, or to have the trimmings freshened up, to serve during the early spring and as a change throughout the season.

For colored straw hats there are dyes which are usually on sale in drug stores, ready to apply, which will restore the color of the straw or change it to another color. There are several reliable dyes that will change colored hats into black ones. Most of these dyes give the hat a fine luster and it looks practically new, after dyeing. Often a faded hat can be successfully restored to color by applying the colors mixed with gasoline, as described in a former article. Some hats can be scoured with soapsuds, as leghorn or Panama straws. In this case the suds is used, but with a view to keeping the straw from getting very wet. To restore a natural straw color, a hat may be cleaned with lemon juice and sulphur. A white straw may be washed with oxalic acid diluted with water. After a leghorn hat has been cleaned it may be bleached by suspending it over a burning sulphur candle. Burn the sulphur in the bottom of a barrel, suspending the hat at the top so that it will not scorch. A felt hat may be successfully scoured with the finest sandpaper. Atmonia will often restore color in colored straw hats. Wring a cloth out of half a pint of hot water to which a teaspoonful of ammonia has been added and cover the hat with this cloth. Allow it to re-

main a while. If the brim needs pressing, cover it with the cloth and iron with a warm iron. If the color is not sufficiently restored by this process mix tube paint and gasoline and dip the hat in it, or brush it on. There are several reliable hat dyes that can be bought with directions for using that will quickly renovate straw hats.

### To Freshen Flowers.

Mix tube paint and gasoline with the color desired and dip faded flowers into this dye. Petals may be shaded and veined with tube paints. Flowers that are crumpled should be held over dry steam and gently shaken. When they have been steamed and tinted take small, sharp scissors and trim away any frayed edges. One can often make flowers look as good as new by these processes.

### Jet Buckles, White Shoes.

White buckskin shoes shown for the South show jet buckles of various sorts. Usually they are very effective. One method of mounting the buckle is to place it on a foundation composed of closely plaited black ribbon, which extends just far enough to give the buckle a little backing. Sometimes, too, white satin evening slippers show jet buckles, or small jet buttons fastened flat against the tongue section or the edge of the shoe as it slopes up to the instep.

### To Wash Chamois Skin.

To wash chamois skin put it through warm soapsuds, rinse in several warm waters, draw it through the hand to squeeze the water out and hang up to dry. Pull while drying, if you would have it smooth.

## JUST RECEIVED A Solid Car-Load of White Mountain Refrigerators

16 SIZES TO SELECT FROM

Snow white linings in Provision Chamber, thick walls, perfect insulation and remarkable ice economy distinguish these fine refrigerators from all others.

### White Mountain Refrigerators

are clean, dry and sanitary throughout and by buying in solid car-load lots we are able to sell these high quality refrigerators for as little money as the "cheaper" kinds usually sell for. You can have yours with or without cooler and in any size you may need. Buy and receive the benefits of the seasons use.
