Dear Amy—  
Don't you think it is foolish for people to give useless wedding presents, when "Mr. and Mrs. Young Couple" really need sensible things to help them start in with.

I just got an invitation to Mayme's wedding, and I'm going to give her a nice rocking chair. This will always come in handy. Besides Mayme needs things. Charley hasn't got much you know. I think furniture makes the very best kind of a wedding present.

I thought you'd like to hear Mayme is to be married.

Lou.

P.S.—I'm going to buy the rocker for Mayme from.

## COTTON STEAMERS SOON TO GO OVER

**STRONG HOPES FOR REGULAR  
CHARLESTON-LIVERPOOL  
TRANSPORT LINE SOON.**

### MEANS MUCH TO CHARLESTON

**A General Cargo is Being Booked for  
First Shipment, but Cotton Will  
Fill Greater Part of Cargo.**

Charleston.—General Manager J. M. Whitsett of the Carolina Company announced after a trip to Washington for a conference with the shipping board that the Dutch steamer Leersum had been secured for co-operation by the company between this port and Liverpool, and was expected here about June 15 to take on a cargo. There is good prospect of getting another steamship a month later, and the company counts on having a regular Charleston-Liverpool service in operation eventually, which will mean important trade developments for this port and state. Freight is now being booked for the Leersum, and a general cargo will be sent across, cotton using much of the space available.

#### Police Officer Kills Wife.

Columbia.—E. M. Lancaster, motorcycle officer in the Columbia police department, emptied two revolvers, and Newton S. Lorick, Lexington county farmer, and Mrs. E. M. Lancaster, died in a motor car from the bullet wounds. The shooting occurred on the Congaree river bridge and the automobile containing Lorick and Mrs. Lancaster rolled about 200 feet and stopped beside a 25-foot embankment after knocking a tier off the railing. Lancaster fired 11 shots and Lorick's body showed the scars of seven wounds. Mrs. Lancaster was struck by five bullets. Officer Lancaster used two .38-caliber Smith & Wesson revolvers. Lorick carried a .32-caliber Smith and Wesson pistol in his pocket.

#### To Use Split Log Drags.

Sumter.—The county board of commissioners held a special session to consider road improvements, a matter of paramount interest to the county just now. County Engineer McLellan reported on the progress made in road building and was directed to obtain rights needed to correct all curves that did not conform to the state highway requirements. On his recommendation the board decided to purchase 8 mules to use in operating split log drags. It was decided that roads on the highway system should be 25 feet in width between the ditches.

The loss of the county truck by fire was reported. The state highway commission has promised four 5-ton trucks and two 2-ton trucks for use on state highway road construction and so action on purchasing a new truck was postponed.

#### Children's Sanitarium Opened.

Spartanburg.—The only institution of its kind in the Southern States and one of a very few in the entire United States, the Infants and Children's Sanitarium, located at Saluda, N. C., in the heart of the Blue Ridge mountains, opened this year on May 25. The handsome hospital with its splendid corps of physicians, surgeons and nurses, is devoted exclusively to the treatment of babies and children and it ranks as the foremost institution of its kind in the United States.

#### Hail Storm Does Damage.

Greenwood.—Official estimate of demonstration agent and county officials place damage from a severe hail storm in this county at \$50,000. A strip nine miles long and five miles wide around Hodges was made bare of all growing crops by the storm. All cotton will have to be planted over. Fruit trees had bark beaten off by force of hail. A negro church in which a singing convention was being held was blown down and though several were injured none was killed.

#### Pig Club Organized.

Chester.—At a meeting here the Chester county Pig Club was organized by County Farm Agent H. K. Sanders, with 31 members. The officers will be elected when a few more members are enrolled, and all of the pigs are delivered. Each member of the pig club will receive a thoroughbred pig, which is to be furnished by one of the banks of Chester, or the chamber of commerce, and is to care for the pig, raise it, and reimburse the bank or the chamber of commerce from the sale of young pigs.

#### To Discharge Men at Camp.

Camp Jackson.—Many men in the service wish to be discharged at the camp at which they are in and do not wish to be sent to the demobilization center nearest home. The government has taken notice of this fact and made it possible for the expressed wish of the soldier about to be discharged to be carried out.

In some instances men have married in the vicinity of their present station. They will be discharged without transfer if officer authorized to direct discharge approves.

## CHAIRMAN RIDICULES CHARGES

**County Supervisor Thinks Delegation  
Has No Right to Interfere in the  
Matter of County Engineer.**

Greenville.—J. W. Norwood, millionaire banker, chairman of the Greenville County highway commission, in a communication addressed to the secretary of the Greenville legislative delegation declared if it can prove that any man grafted any of the highway money it will have his hearty cooperation in convicting the dishonest and that he will give to the county every dollar that has been stolen from it.

Mr. Norwood sent the communication in reply to a resolution passed at a delegation meeting when the county supervisor was asked to dispense with the services of P. F. Patton, engineer. The resolution which he referred to was adopted by a majority vote, Senator Bonham and Representatives Bramlett, McDavid and Smoak favoring it while Representatives Gresham and Richardson opposed it.

Mr. Norwood stated that the supervisor has full authority to dispense with the services of Mr. Patton and full authority to retain him in his present capacity as assistant to him, if he sees fit to do so and it is agreeable to Mr. Patton. He reiterated that the engineer is not employed and paid by the county.

W. H. Willimon, county supervisor, stated that Engineer Patton has no official connection with Greenville county, but that he is retained in an advisory capacity without cost to the county of Greenville and that he proposes to consult him on any and all occasions that he might see fit. "So long as I am supervisor of Greenville county I shall be in charge of road building in the county and so long as I conduct the road affairs of the county economically it strikes me that it is not the business of the county legislative delegation to interfere," Mr. Willimon declared.

#### Mill Installs Ice Plant.

Winnboro.—The Winnboro Mills have just completed the installation of a modern ice plant which began operations the first of the week. The plant is capable of producing ten tons a day. Being modern in every particular, it is turning out some of the clearest and best ice seen in Winnboro for years.

The plan of the Winnboro Mills is to produce ice in sufficient quantities to supply the mill and village and also furnish a surplus to take care of the ice needs of Winnboro and nearby towns. This surplus will be sold to local dealers. The mill store will be the distributing point for the retail trade of the village. The plant was planned by the mill last year and will fill a long felt want in the community.

#### Winthrop Class Reunion.

Union.—The members of the class of 1912 of Winthrop College for the first time since their graduation are planning a reunion at the college during commencement week, June 1-3. The president of the class, Miss Leona Thomason, who has been in China as a missionary since her graduation, is at home on furlough, and her former classmates are especially anxious to meet together this year in order that she may be with them.

Indications are that a large number of the class will attend. Miss Alma Black of Bamberg, who has been working up the reunion, has heard from the majority of the class, most of whom expressed great enthusiasm and promised to be present.

All those who are unable to attend are requested to send to Miss Ludie Jordan, Union, S. C., a short autobiography, covering the period since 1912. It is hoped that from these sketches an interesting booklet may be made. Those who have not yet communicated with Miss Alma Black are requested to do so at once.

#### Four Dead in Explosion.

Washington (Special).—War department dispatches gave the names of the following four soldiers killed in France in powder explosion May 12 and May 16: Corp. Clifton Gordon, Greenville, S. C., and Corp. Carl E. Gustafson, Medford, Mass., and Private Tom Addison, Trenton, S. C., and Private John Smith, Bethune, S. C.

#### Posse in Search of Slayer.

Lancaster.—Luther Horton, aged about 45 years, a prominent farmer residing within two miles of Kershaw, in Lancaster county, was shot to death near his home about midday by Moses Witherspoon, a negro tenant on his farm. The negro immediately made his escape, but is being pursued by Sheriff Hunter of Lancaster, who was on the scene within an hour after the tragedy. Sheriff Welch of Camden is also in the chase, as well as numbers of citizens residing in and near Kershaw.

#### Inspectors Here For Conference.

Columbia.—Government inspectors from the civil service commission are in Columbia making a personal examination of the ten applicants for the postmastership of Columbia. This committee will investigate the character and business reputation as well as other features of the candidates, which will, it is said largely determine the successful applicant.

The postmastership has been filled by the former assistant postmaster, T. B. Madden, since the death of Postmaster Coleman last February.
