Anderson.—John E. White, D. D., pastor of the First Baptist Church and president of Anderson College, was reported for speeding by two of Anderson's vigilant cops. So the mayor notified him of the charge against him, and Dr. White replied at once, a check for \$25 accompanying the reply.

A drive is being made for \$1,000 to aid in ridding Richland county of the dread disease and citizens are asked to contribute \$1 or any higher amount they may wish to give.

Alken.—Congressman Byrnes, who has been making a fight against the bill fixing a price of \$250 on potash, says that the Republicans will be unable to secure action upon the bill until the house reconvenes in September. He says that while there is no certainty of the final defeat of the measure that this postponement is a victory for the opponents of the bill.

Greenville.—Approximately 60 Southern railway shopmen, employed at the round house here, struck as the result of instruction from the headquarters of the organizations. The shops here are virtually idle. The strikers include carmen, machinists, helpers, etc.

Gaffney.—The town council of Gaffney at its regular meeting decided to lay down at once 15 additional blocks of paving, and to park Buford street, which means that this street will be paved on each side, and trees and grass planted in the center. The width of this street will permit this being done, and it will be one of the prettiest thoroughfares in the town, or in any other town.

Sumter.—A mass meeting for the purpose of organizing the Sumter County Cotton Association was held at the court house. The meeting had been called by and was presided over by Mayor L. D. Jennings who told of the importance of organizing. He said they should organize to put the speculator out of business; they must organize for self preservation, self defense and self protection.

Cholera in Richland. Columbia.—Richland county farmers have lost thousands of dollars worth of hogs since last spring from cholera according to J. Rhett Clark, farm demonstrator, who has been kept busy much of his time inoculating swine in all sections of the county. Pure breeds have suffered, as well as scrub, but the latter to a larger extent.

In the last three weeks Mr. Clark has inoculated over 1,000 hogs which means a saving of several thousand dollars to the farmers.

Red Spider Active. Blackville.—The red spider is taking quite a toll from the cotton crop around Blackville. Up to the recent heavy rains there was a prospect of a good crop. The rains have damaged the crop quite considerably, but the red spider has caused a much greater damage. Some farms have been practically ruined. One reason it has spread so is the farmers were not familiar with it and let it get too much hold before doing anything. In many instances it was thought lightning had struck the cotton.

Dear Amy: I've been reading in the Sunday papers how you can "make over" old chairs and things and have them look good as new. I bought some furniture polish and tapestry and tried to make new, an old chair. I spoiled a dress worth more than a new chair and smashed my thumb with the hammer, and the old chair looked worse than before. No more fixing over old worn-out furniture for me I'll buy new.

As ever,

Lou.
