A Timely Lesson

The death of Andrew Carnegie last week naturally has centered the attention of the world upon his life. It was a notably successful life. He started as a poor weaver's son and amassed an amazingly large fortune that enabled him to pose as the most liberal philanthropist in the while history of the world. Thrift was the foundation of his success. He himself attributes his success to having accumulated through his habit of saving the initial capital with which he began doing things. He advised others to follow his example. Take his advice. Live within your earnings and regularly bank the surplus so that thereby you can accumulate a little capital with which to do things. There is no substitute for thrift in the fight for success.

BANKERS

"Clinton's Oldest Bank"

Some people dislike to enter the doors of a bank because they

Think

their small business is too trifling for the banker to bother with. We invite such people to come in and use this bank.

We are in business to be bothered

Every man, woman or child should have a bank account of some size.
