## SENATE SHANTUNG AMENDMENTS FAIL

A VOTE IS FINALLY REACHED AND MEASURE IS DEFEATED BY A DECISIVE VOTE.

## FOURTEEN REPUBLICANS BOLT

Of Senators Absent Two Republicans Favored; 1 Republican and 3 Democrats Opposed It

Washington.—The long debated Shantung amendment to the peace treaty, presented by Senator Lodge and approved by the foreign relations committee, finally was rejected in the senate with a majority of an even score against it.

In the vote of 35 to 55, 14 Republicans swung over to the pro-treaty forces while three Democrats lined up with those supporting the proposal. Of the six senators absent, two republicans were put on record as in favor of the amendment and one Republican and three Democrats as opposing it.

The roll call, which came at the end of another six and a half hours of sharp debate, in reality swept away six amendments instead of one, each change in the treaty text having been numbered separately by the committee in its decision to strike out the word "Japan" and substitute the "China" throughout the sections relating to the province of Shantung. By unanimous consent, however, the six changes were debated and voted on as one.

Only three of the committee's 45 amendments now remain to be acted on by the senate, 36 previously having been rejected. Of those remaining, one relates to American representation of the reparations commission, and two to equalization of voting power in the league of nations assembly.

## FAIRLY FAVORABLE BULLETIN AS TO PRESIDENT'S HEALTH.

Washington.—Further indication of the steady improvement in the condition of President Wilson, who entered the fourth week of his illness, was given in a statement by White House officials that the vote on the Shantung amendment to the peace treaty was imported to him within a few minutes after the senate roll call.

The President, earlier in the day, it was learned, was advised that an important vote in the senate peace treaty controversy was near. As the news did not seem to worry him, Rear Admiral Grayson, his personal physician, gave permission for the sending of the vote to the sick room when recorded.

In a bulletin issued at the white house, Dr. Grayson said: "The President had a fairly satisfactory day."

## LEAGUE NOT TO BE HINDERED BY ANY ACTION BY SENATE

Washington.—While no official declaration can be made in advance of the action of the senate on the treaty of Versailles, it was learned unofficially that plans were being laid for bringing the league of nations into existence almost immediately upon the publication in Paris of the ratification of the treaty by Great Britain, France, Italy and Germany, which will put it into force.

## STEEL MILL OFFICIALS SAY STRIKE IS VIRTUALLY ENDED

Chicago.—Steel mill officials at Gary, Ind., expressed the opinion that the strike was virtually ended, and made preparations for building up a new organization. They declared there was a surplus of labor in some departments. Union leaders disputed the accuracy of the claims made by the steel officials. They also began an effort to establish the independence of the union forces from the radicals.

## GREAT PROFITS ARE MADE IN CEREAL AND BREAKFAST FOOD

Washington.—The Armour Grain Company, a factor in cereal and breakfast foods reported surplus undivided profits for the year 1917 of \$6,426,830 after deducting a 78 per cent dividend on capital stock, the report says: "The year's net earnings amounted to \$2,908,912, or 290 per cent on the capital stock and 67 per cent on the net worth of the company, including capital, surplus and undivided profits."

## HEALTH OF SAMUEL GOMPERS IS NOW SOMEWHAT IMPROVED

Washington.—Samuel Gompers, president of the American Federation of Labor, who is suffering from nervous exhaustion, was reported somewhat improved, but his physician ordered him to remain in bed.

Washington.—By an overwhelming majority the house passed the bill extending for one year war-time passport restrictions so as to keep radicals and undesirable aliens out.

## RECESS IS BLOCKED BY RAILROAD BILL

PROSPECT OF ADJOURNMENT OF THE CONGRESS BY DATE OF NOV. 10 ARE SMALL.

## HOUSE TO PASS BUDGET BILL

Important Committee Activities Are Planned in Both House and Senate Reopen Strike Investigation.

Washington.—Pressure from administration sources for enactment of permanent railroad legislation may block tentative plans of congressional leaders for adjournment of the extraordinary session about November 10.

Leaders were of the opinion that unless consideration of the German peace treaty is expedited action by the senate on the railroad bill prior to November 10 would be impossible. The railroad bill as completed by the senate interstate commerce commission is to be in position for consideration immediately after the ratification of the peace treaty.

While the senate treaty fight continues, the house expects to pass the budget bill.

Many important committee activities are planned in both senate and house. The steel strike investigation of the senate labor committee will be reopened.

## VICE-PRESIDENT MARSHALL TO BE KING ALBERT'S HOST.

Washington.—Owing to the illness of President Wilson, King Albert and Queen Elizabeth of Belgium, and their son, the duke of Brabant, will not be entertained at the White House during their stay in Washington from October 27 to 30. They will be the guests instead of Vice President and Mrs. Marshall.

## AMERICAN RED CROSS IS ASKED TO REPLACE DANES

Vienna.—The Danish Red Cross having notified the Austrian government that it can no longer supervise the care of Austrian prisoners of war in Russia and Siberia, the Austrian government is asking the American Red Cross to look after these 200,000 men.

## STRENGTH OF AMERICAN ARMY GROWING STEADILY SMALLER

Washington.—The army is now well below the 300,000 mark, an official statement giving the strength as 290,477. The net reduction since November 11, last, has been 92 per cent. American forces abroad total 35,000 including the 8,000 in Silesia.

## FATE OF LENINE-TROTZKY REGIME IS SURE IF SLOW

Washington.—The final crash of the Trotsky-Lenine regime may be delayed some weeks but it is inevitable. Official information received here thus summarizes the situation in Russia. Only the "inertia" of the anti-bolshevik groups has permitted the present Moscow government to remain alive beyond September 15, an official who has made a special study of the situation said.

## PHYSICIANS ENCOURAGED BY PROGRESS OF THE PRESIDENT

Washington.—Having obtained relief from the prostrating condition which retarded his recovery last week President Wilson was the victim of a slight digestive trouble. His condition otherwise Doctor Grayson announced was unchanged. Dr. Grayson issued the following bulletin from the white house: "The president had a slight digestive disturbance today. Otherwise his condition is unchanged."

## ANTI-STRIKE PROVISIONS IN RAILROAD BILL DRASTIC

Washington.—Containing one of the most drastic anti-strike provisions ever approved by a senate committee, the Cummins railroad bill virtually ready to be offered to the senate. The interstate commerce committee went even further than the original bill and added an amendment which will make it a crime to "aid, abet, counsel, command or induce" railroad employers to strike.

## DEMANDS MUST BE GRANTED OR MINERS WILL WALK OUT

Washington.—There seemed little hope of averting the strike of a half million bituminous coal miners called for November 1. After a series of conferences with labor leaders here, and telephone talks with others in the central coal territory, John L. Lewis, president of the United Mine Workers of America, announced that they would go out unless all demands, including the five day week, were granted.

## A Word to Farmers:

It's harvest time. The snowy cotton is being gathered and the golden corn garnered. The farmers are exchanging the products of their fields for the coin an currency of the republic. Some will pay their bills in cash and carry home their surplus money to be kept in more or less insecure places. The farmer who is a business man deposits his money in the bank, pays his bills with checks and has no worry as to the security of his surplus. The farmer who does this and establishes a business standing at a bank has no difficulty in securing a loan when he needs one. This bank makes a specialty of giving satisfactory service to farmer customers and invites the accounts of farmers who have not been in the habit of handling their funds thru a bank. The farmer who does so never regrets making the change from the unbusinesslike custom of the many farmers who do not have checking accounts. Take our advice, Mr. Farmer. It's good advice.
