

BAPTISTS PLAN VIGOROUS WARFARE UPON TUBERCULOSIS IN THE SOUTH

SANATORIUM AT EL PASO, ESTABLISHED FOR THIS PURPOSE, WILL GET FINANCIAL AID FROM 75 MILLION CAMPAIGN—EDUCATIONAL PROPAGANDA TO INFORM PEOPLE ON HOW TO COMBAT PLAGUE WILL BE CONDUCTED.

Administration building of Southern Baptist Sanatorium for treatment of tuberculosis patients, located 4500 feet above sea level.

Do you know that tuberculosis is more prevalent in the South than in any other part of the country?

That the death rate from tuberculosis here is 14.2 per cent greater than for the nation as a whole, and greater than in any civilized nation on the globe with the exception of China?

That more than 150 people a day, or 57,782 a year, die in the South and the Southwest from this dreaded disease?

That there are within the territory of the Southern Baptist Convention 275,000 persons actively infected with the great white plague and an equal number have inactive infection?

That the money loss to the South each year from tuberculosis is \$175,000,000?

These startling facts were brought to the attention of the Southern Baptist Convention at its session in 1916 and a resolution was at once adopted to try and check the spread of the disease and provide relief as far as possible for those already infected with it.

As a result of this movement there was established in the high, cool, rare atmosphere of El Paso, Texas, the Southern Baptist Sanatorium, which aims to minister to as many patients as possible and to disseminate throughout the South and Southwest the information that will result in checking the further spread of the disease and enable those who have just contracted it to obtain immediate cures by proper methods of living.

With the active assistance of the business interests of El Paso a modern sanatorium, located upon a beautiful tract of 143 acres on the side of Mt. Franklin, at a height of 4,500 feet, was opened for the healing of the people, and through the Baptist

75 Million Campaign this institution will receive \$500,000 for the erection of additional buildings and \$500,000 for an endowment that will enable the sanatorium to minister to those indigent patients who are unable to pay for treatment.

That there is an imperative need for an institution of this character is shown in the fact that all institutions in the South and Southwest for the treatment of tuberculosis have a total capacity of only 8,757 beds, or one bed for only one person out of every sixty in this section who are afflicted.

Everything connected with the Baptist Sanatorium is modern and of the very best, but its present equipment is far too small to cope with the demands that are made upon it. Of the improvement fund that is to be provided, \$100,000 is available already and architects are already designing new buildings worth \$450,000. These will be constructed just as rapidly as possible.

While the sanatorium is being operated by the Baptists, it will be open to the people of all creeds and no creed. Due to the crowded conditions, however, it is necessary that arrangements be made in advance by communicating with Dr. H. F. Vermillion, superintendent, at El Paso.

The sanatorium is under the general supervision of the Home Mission Board of the Southern Baptist Convention, and in addition to treating patients who have already contracted tuberculosis, it will seek, through a campaign of publicity, to so inform the people of the South and Southwest on the nature and prevention of this disease that the alarming death rate from the white plague can be immediately lowered and finally reduced to the minimum.

SPEND \$20,000,000 UPON EDUCATION

SOUTHERN BAPTISTS PLAN MUCH LARGER PROVISION FOR ALL THEIR INSTITUTIONS.

WILL AID RURAL SCHOOLS

Success of 75 Million Campaign Will Mean Strengthening of Educational Forces All Along the Line in Next Five Years.

Of the total sum sought in the Baptist 75 Million Campaign, \$20,000,000 will go to Christian education.

But the educational program of the Baptists will not stop there. It proposes to lend itself to the creation of a public sentiment that will result in more efficient public schools in the territory of the Southern Baptist Convention, especially in the rural districts. In this connection it is pointed out that 37 per cent of the total elementary scholastic population of the nation is found in the South; that the rural scholastic population of the South is 77 per cent of the whole; that only one-sixth as much money per capita is expended on the education of the children of the South as on the children of other sections of the country; that only 37 out of every 1,000 pupils in the South enter high school as against 87 from other sections; and only 10 from the South enter college as against 21 from other sections.

Distributed throughout the territory of the Southern Baptist Convention are 142 educational institutions, including academies, colleges, universities, seminaries, and missionary training schools for women. These have a total enrollment of 18,000 annually, but all of them are crowded, greatly in need of larger facilities in every way, and many of them must have an endowment if they are to meet the demands made upon them. It is in sup-

plying these needs that the \$20,000,000 apportioned to Christian education will be expended.

To these institutions the denomination is looking for its trained leaders to help carry forward the work along every line contemplated, in the \$75,000,000 campaign. In Texas alone there are 700 pastorless Baptist churches and probably the same proportion holds in the other states. It is hoped the campaign will call out 5,000 volunteers for ministerial and missionary work and these institutions will be asked to equip these young men and women for their work.

Last year, reports show, over 6,000 students in these institutions took voluntary courses in Bible and mission study; nearly 4,000 of them attended student prayer meetings; ministerial students pastoring churches raised more than \$80,000 for church benevolences and led more than 10,000 people to profess Christ. The campaign hopes to result in enrolling 35,000 young men and women in Baptist schools within the next five years.

The South-wide institutions that will benefit from the campaign include Southern Baptist Theological Seminary and Women's Training School at Louisville, Ky., Southwestern Baptist Theological Seminary and Women's Training School at Fort Worth, Tex., Baptist Bible Institute, New Orleans, and Negro Theological Seminary at Nashville, while aid will be given to every Baptist institution of learning in all states of the convention territory, and to new Baptist colleges that will be established in Arkansas, Florida, Illinois, Louisiana and New Mexico, along with one somewhere in the region of the Appalachian mountains yet to be definitely located.

BAPTIST CAMPAIGN COMES CHEAPLY.

Expense in raising the \$75,000,000 sought by the Baptists of the South in their 75 Million Campaign will amount to considerably less than one per cent, Dr. L. R. Scarborough, general director, announces. This includes the expenses of both the general headquarters and the eighteen state headquarters. This is probably the lowest overhead expense in the history of large money-raising efforts in this country.

MONDAY CIRCUS DAY.

The Kids are Planning a Big Holiday.

At Clinton, Monday, Nov. 3, Sparks World's Famous Shows will hold forth for a matinee and night exhibition, and the rare, unique and wonderful things that have been promised on paper will become a reality.

The airy riders who, in diaphanous skirts have been pirouetting on the expansive backs of beautiful and speedy circus horses (on the bill boards) will be seen in all the gorgeousness of

ican amusement that appeals to all the people.

The merit in a big circus like the Sparks Shows is in the fact that everything in the show is the very best of its kind. There must inevitably be riding acts, but the riders are the leaders of their profession. There must be acrobats, but the acrobatic artists and aerialists are gathered from the wide world, and are the best that money can procure.

It is this superiority in the quality of the performers that makes the

Sparks Shows such a welcome visitor. The show will arrive in Clinton via Seaboard Air Line, on their own trains, early Sunday morning from Elberton, Ga., where they exhibit Saturday. Unloading, moving to the circus grounds, erecting the city of tents, feeding the stock, watering the elephants, the cook house and its 300 boarders, with many other interesting scenes, will be the first real view of a big circus for many of Clinton's children. Visitors are always welcome and courteous treatment to the public is an established rule with the Sparks management.

There is nothing on earth like the circus. It is the people's show par excellence. It is the one great Amer-

ican amusement that appeals to all the people.

Law of Falling Bodies.

Since a body falls to the ground in consequence of the earth's attraction on each of its molecules, it follows that, everything else being the same, all bodies, great and small, light and heavy, ought to fall with equal rapidity. The fact that a stone falls more rapidly than a feather is due solely to the unequal resistance opposed by the air to the descent of these bodies. In a vacuum all bodies fall with equal rapidity.

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood . . . I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. . . Nothing seemed to help me until, one day, . . . I decided to

TAKE

CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain."

"It has now been two years since I took Cardui, and I am still in good health. . . I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

Their Medicine Chest For 20 Years

It is characteristic of folks after they pass the allotted "three score years and ten," to look back over the days that are gone and thoughtfully live them over.

I find myself, at seventy-one, frequently drifting back a quarter of a century, when I see myself in the little drug store I owned at Bolivar, Mo., making and selling a vegetable compound to my friends and customers—what was then known only as Dr. Lewis' Medicine for Stomach, Liver and Bowel Complaints.

For many years while I was perfecting my formula I studied and investigated the laxatives and cathartics on the market and became convinced that their main fault was not that they did not act on the bowels, but that their action was too violent and drastic, and upset the system of the user; which was due to the fact that they were not thorough enough in their action, some simply acting on the upper or small intestines, while others would act only on the lower or large intestines, and that they almost invariably produced a habit requiring augmented doses.

I believed that a preparation to produce the best effect must first tone the liver, then act on the stomach and entire alimentary system. If this was accomplished, the medicine would produce a mild, but thorough elimination of the waste without the usual sickening sensations, and make the user feel better at once.

After experimenting with hundreds of different compounds, I at last perfected the formula that is now known as **Nature's Remedy**, which I truly believe goes further

and does more than any laxative on the market today. The thousands of letters from users have convinced me I was right, and that the user of **Nature's Remedy** as a family medicine, even though he may have used it for twenty-five years, never has to increase the dose.

My knowledge of medicine and the results of its use in my own family and among my friends, before I ever offered it for sale, caused me to have great faith in **Nature's Remedy** from the very first.

And now as I find myself nearing the age when I must bow to the inevitable and go to another life, my greatest pleasure is to sit each day and read the letters that each mail brings from people as old or older than I, who tell of having used **Nature's Remedy** for ten, fifteen and twenty years, and how they and their children and grandchildren have been benefited by it.

It is a consoling thought, my friends, for a man at my age to feel that aside from his own success, one has done something for his fellow man. My greatest satisfaction, my greatest happiness today, is the knowledge that tonight more than one million people will take a **Nature's Remedy** (NR Tablet) and will be better, healthier, happier people for it. I hope you will be one of them.
