

MINERS WILL NOT PUSH APPEAL NOW

Efforts to Set Aside Injunction Not to be Made Until After the Conference. No Comment made as to Resumption of Mines.

Indianapolis, Ind., Nov. 12.—The United Mine Workers of America, contrary to previous announcement, have decided to withhold their appeal on the ruling of the Federal court in injunction proceedings which resulted in the calling off of the strike of coal miners yesterday.

It had been generally believed that regardless of developments in the situation the miners would fight their case in the courts to the last ditch and attorneys for the coal workers announced yesterday that their appeal would be filed with two or three days. However, Henry Warrum, chief counsel for the mine workers organization, tonight stated that the outcome of the conference of miners' representatives and coal operators, with Secretary of Labor Wilson, in Washington Friday, would determine to a large extent whether the case is carried further. The miners' counsel have thirty days in which to file their appeal.

The decision of the miners is taken to indicate that they have accepted the government's assurance that the suit against the miners was not an attack against the right to strike but was solely to prevent violation of the law, in this case the Lever act.

Possibility of speedy agreement at the Washington conference, according to opinion here, is marred only by the question of when a new wage scale would become effective. Miners' spokesmen have stated that if the operators go to the conference in a spirit of conciliation, agreement was only a question of hours, but it is known that the union men object to the position taken by the operators that the wage scale in effect before the strike still is in effect.

Many of the delegates to Friday's meeting, who were in attendance at the conference here this week, left tonight for Washington. Wm. Green, miners, will leave early tomorrow morning and Acting President John L. Lewis will start for the conference tomorrow afternoon.

Miners officials this afternoon declined to comment on the way in which the members of the organization are responding to their order calling off the strike, and would give no reports from the district headquarters. They said no instructions supplemental to their order had been sent out from headquarters.

Very few of the miners in the Indiana coal fields reported for work today and it is not believed that operation in the fields can be started extensively before next week. Union men in the Evansville district will meet tomorrow night to vote on obeying the order recalling the strike. From Terra Haute there was a report that the miners in that district were waiting the results of the conference in Washington before returning to work. A report from Bickell called attention to omission from the order of the miners officials of any instructions to return to work, and it was said district leaders were refraining from supplementing the general order in any way.

"JIM CROW" LAW

WITHSTOOD FIRE

North Joins South in Fight in House to Prevent Its Being Nullified.

Washington, Nov. 15.—Congressmen today successfully routed all attempts to attach to the pending railroad bill in the house any provision to infringe the rights of the southern states to "Jim Crow" cars. In their fight they were aided by members from other parts of the country.

By a vote of 142 to 12, a proposed amendment by Representative Madden, Illinois, Republican, was voted down and out of the measure.

Southern members in unison attacked the proposal telling the house that it would disturb conditions in the south seriously and cause friction between the races which might end in bloodshed. "This is not a proper question to be raised at this time," Representative Snyder, Republican, of New York, told the house. "No demand for it is made by the colored people and we already have enough difficulties without bringing on this one. The north does not realize what it means to the people of the south."

Representative Crisp, Democrat, of Georgia, brought the debate to an end with a motion to strike out the pro-

posed amendment and his motion prevailed.

"Somewhere down the line there will come a reckoning," Representative Summs of Texas told the house, warning it against the proposal.

"It's a bad situation down there and unless you permit us to draw the line somewhere there will be friction. If that should come, then you must take the responsibility for this proposal."

Representative Stevenson of South Carolina told the house the south handled its negro problem better than the north as was evidenced by the recent race riots and Representative Moore of Virginia, reminded the members that the Supreme Court of the United States has sustained the rights of the states to provide separate accommodations for the races on trains.
