

The Weaver Upright Grand Piano

The World's Best Upright Piano

Colonial Style 20

THE Weaver Piano Company, of York, Pa., are the only builders of artistic pianos who specialize particularly on the Upright Piano.

During all the years they have been experimenting and developing their Upright Grand. The testimony of the World's Leading Musicians proves the correctness of the Weaver Policy for such artists as Victor Herbert, Alice Nielson and Frank LaForge have pronounced the Weaver Upright Grand "a thoroughly satisfying instrument for the musician." The Weaver Upright Grand is constantly finding itself selected for use where it was formerly supposed only a horizontal grand would meet the requirements.

A gratifying proportion of skilled Weaver craftsmen remain with the company year after year.

There is a spirit of pride and personal interest in being associated in its production.

All this has its influence, of course, on the accuracy with which even the most trifling operations on the Weaver are executed.

Rigid oversight guards against any variations in Weaver Quality.

The satisfaction you derive from your Weaver Piano or Weaver Player Piano, is not merely the result of high ideals, but high ideals reduced to a precise, definite, scientific standard.
