### ANNOUNCEMENT OF INTEREST

An attractive affair of the past week was the Valentine luncheon given by Mrs. Thomas Jacobs announcing the engagement of Miss Carrie Fuller. From the chandelier fell a shower of hearts and cupid and a vase of red and white carnations adorned the center. Red tapers in silver holders were arranged effectively and red hearts marked the places of the guests. Dolls daintily dressed concealed trumpets which bore the announcement: Carrie Fuller—Bennett Townsend. April 11. The place cards also had clever rhymes which were read to the bride-to-be. Miss Fuller was also presented with a corsage of valley lilies, a remembrance of Mr. Townsend.

A five-course luncheon was served to the guests of the occasion: Misses Carrie Fuller, Mary Lou Bell, Caroline Motes, Clara Duckett, Eloise Miller, Mesdames W. P. Jacobs, J. F. Jacobs, Sr., J. F. Jacobs, Jr., J. B. Townsend, Harrell Wilson, Rufus Sadler, Lonnie McMillian, Rutledge Fuller, J. H. Teague.

### BORAH, GOOD AMERICAN GROW YOUR OWN FUR COATS

Senator Borah, good American, fears that if we build cruisers without making arrangements satisfactory to Britain we shall have a "shipbuilding race with England." If necessary, why not have it?

But Britain couldn't afford it and knows well that we shall never attack Britain unless we are first attacked.

The British, while they could, dominated the seas, and were proud of it. Whom they didn't like it could jump it. That condition existed from the day when Nelson at Trafalgar wiped out Napoleon's chances of British conquest up to 1924.

It is Uncle Sam's turn now. Airplanes, submarines, fast cruisers, will answer any question from any other nation, and this country should have the answer ready.

Grow your own fur coats at home. Mr. Vernon Bailey of the Agricultural Department tells you that muskrats, supposed to need big swamps, can be raised like rabbits or guinea pigs, in small pens. They need only enough water to keep comfortably wet and cool in summer. This will interest California rabbit raisers, among others.

The world of science, including Bertrand Russell, called the greatest living mathematician, is interested in Professor Einstein's announcement that electro-magnetism and gravity are practically the same. This discovery, says the learned Dr. Pupa, of Columbia university, places Einstein beside Galileo and Newton.

All interested in physics await a demonstration that there is only one kind of force in the universe; that light, heat, motion, electro-magnetism, gravity, are all the same. Einstein seems to confirm part of Herbert Spencer's definition of evolution which describes the "retained emotion" as undergoing a transformation from "an indefinite, incoherent homogeneity to a definite, coherent heterogeneity."

More interesting to practical publishers of newspapers is the fact that the big Woolworth concern plans an enormous advertising campaign that will amount to \$3,000,000 the first year. Abandoning the theory that selecting the right location makes advertising unnecessary, proves the wisdom of Woolworth's president, H. T. Parson.

Get the best position for your store, by all means. But get also the best "position," and the best copy for your advertising in a newspaper. Have what the people want, then let the people know you have it. That's the secret of success.

Work fearlessly for the right and you will be honored, and appreciated, AFTER YOU DIE.

Mrs. Pankhurst thought women should vote. Since they created the men for wars, they should have something to say about war. Everybody agrees with Mrs. Pankhurst now, and Mr. Baldwin, who opposed her, will unveil her monument.

When she was alive, demanding justice for women, they put her in jail. She starved herself until she was released, justice not liking the idea of disposing of her corpse, and that is what it would have had to do.

Released from prison, she renewed her fight, chained herself to the iron railings before the Commons, was jailed again, and again entered self-imposed starvation.

Her courage won. British women vote in the House of Commons and help to make laws. Mrs. Pankhurst lies in her grave, her death hastened by hardship; and those that hounded her now honor her. She is satisfied.

Easy Toast  
If you have no electric toaster and do not wish to heat the oven, lay slices of bread in the frying pan and they will brown nicely on top of the stove, leaving no crumbs to gather!

For Tea Sandwiches  
Mix 1-2 cup chopped English walnuts and 3 times the amount of fresh grated coconut. Moisten with cream, add 2 tablespoons confectioners' sugar and spread between buttered brown bread.

Things You Should Know

by John Joseph Gaines, M. D.

VACCINES  
There can be no doubt of the value of certain vaccines in the prevention and treatment of epidemic diseases. By the intelligent use of this method, much suffering can be avoided, and many conditions alleviated. Medical science has now practically abolished typhoid fever, malaria, small-pox, yellow fever, and other infectious diseases—and, has shorn diphtheria and scarlet fever, tetanus, hydrophobia, and other fatal maladies of much of their terrors.

In an epidemic of influenza, I once gave prophylactic vaccines to twenty-five patients. Twenty-three of them passed through the scourge without contracting disease, although several of them lived in infected families. The other two fared not so well; one of them had the "flu" when he took the first injection, the other, a tubercular, also well along with the disease, died of broncho-pneumonia, in spite of the efforts of myself and an able consultant.

Since then, I have given immunizing vaccine to many people, and have found the precaution most satisfactory for the patients and myself.

If your occupation exposes you to any epidemic disease, I would advise you strongly to permit your physician to immunize you by giving you appropriate vaccination, using the product of a reliable maker of such things. Like every other good thing, vaccine has been capitalized by the most brazen quacks; be on your guard. It is safe to conclude that all medical advertisers, those who "guarantee results" are rank impostors, who get your money for nothing; exercise good judgment, and trust your reliable family doctor.
