An Oklahoma Mother Says:

"BLACK-DRAUGHT is a fine medicine to give to children. I use it for mine whenever I need to give them a laxative. They don't mind taking it when I make it into a tea, and it quickly relieves constipation and the bad symptoms which come from it. I can recommend it to other mothers, for I have found it useful in my home."

"When I was a child my mother gave it to me whenever I complained of not feeling well. I have always taken it for upset stomach and constipation. It is the only medicine I have to take. A few doses of Black-Draught, now and then, keep my system in order. My husband takes it, too. I hardly see how I could keep house without Black-Draught. It has become a standby with us, in keeping the children and ourselves well."—Mrs. Luther Brassfield, Claremore, Okla.

OUTLINES PLANS OF REPUBLICANS

Brown Tells of Intentions To Build Up White Republican Group In South Carolina.

Charleston, March 20.—A clean, law-abiding, and efficient administration of federal government affairs in South Carolina will be the project of the committee of eight appointed by the Hoover administration for the purpose of reforming the Republican party in this state, W. F. Brown, chairman of the committee, said in a statement here today.

Mr. Brown returned Friday afternoon from Washington, where he testified before a senate investigating committee relative to abuses in federal patronage by the G. O. P. organization headed by Joe Tolbert.

His committee, Mr. Brown said, plans to build up a white Republican party in South Carolina which will attract the mass of respectable citizens throughout the state. His group has obtained official recognition from the administration.

His attention was directed to a statement by Tolbert in which the head of the "regular" Republican regime pointed out that he was still the state chairman of the party. "He is chairman of the Negro Republicans, not the white," was Mr. Brown's comment.

Mr. Brown emphatically sticks to the testimony that he gave before the Brookhart committee last week. He charged gross abuse of federal patronage in this state. Charges relative to the passing of money were made, involving several appointees and the name of United States Senator Cole L. Blease was also brought into the testimony. Mr. Brown declared that the administration will make appointments in this state only on recommendation of his committee.

"We are out for a clean, law-abiding and an efficient administration of federal government affairs in South Carolina and there will be a clean sweep all around," he said.

"Our intention is to give the public the best and most efficient service that can be rendered, and as far as political lines are concerned we will not hesitate to recommend good Democrats for positions. Our policy is to make good Republicans out of good Democrats. The prospects have never been brighter in any Southern state for a good Republican party than there now is in South Carolina.

"If any man appointed on our recommendation neglects his duty I will be the first to prefer charges against him. We intend to assist Mr. Hoover in his desire for cleaning up the situation in general."

Mr. Brown revealed for the first time that he met Mr. Hoover and Colonel Mann in Miami by appointment in February and at that time went thoroughly into the situation in this state. "I knew then what was going to develop," he said.

Dispatches from Washington telling of the appointment of committee of eight for G. O. P. affairs in South Carolina were based on information released by the administration and are absolutely authentic, Mr. Brown says. The members of the committee have all accepted the appointments.

The committee will be composed of five classified as Republicans and three "Hoovercrats."

APRIL MEETING COUNCIL HELD

Several Routine Matters Up for Action. All City Ordinances Being Revised and To Be Enforced.

The regular monthly meeting of City Council was held Monday evening with Mayor Young and Aldermen Henry, Adair, Duncan, Harris and Carter present. A number of matters were up for consideration and acted upon.

The cemetery committee through its chairman, Alderman Adair, reported that the work of beautifying the new Rosemont property is now being done by Mr. Dailey.

Mayor Young stated that a spring cleaning is now under way and that with the co-operation of the Civic League, many flowers and shrubbery are to be planted. Council also approved his suggestion of improving several vacant lots in the city with the permission of property owners.

The matter of the newly surfaced Bell street was brought to Council's attention by Alderman Harris and the road was termed as an inferior, poorly constructed piece of work. The mayor was instructed to get in touch with the contractor who did the work and to take steps immediately to improve the road. Petitions from several other parts of the city for surface-treating were received and favorably acted upon by Council, the work to be done by contract.

The report of the police department and recorder's office for the month of March, showed an unusually heavy docket with levied and collected fines amounting to \$641.00 in addition to 310 days assigned to the chain gang.

The matter of collecting and redrafting all city ordinances was before Council. A special meeting for Friday night was called to complete this work, after which the meeting adjourned.

SENATOR GLASS IS REPRIMANDED

Scorching Telegram Sent Virginia Senator. Charges Narrowness and Conceit. Should Resign.

Richmond, Va., April 1.—Langbourne Williams, senior member of the banking firm of John L. Williams and Sons, of Richmond, today wired Senator Carter Glass, of Virginia, that he considered it more appropriate for the senator to resign as representative of Virginia in the senate than for Charles E. Mitchell to resign from the directorate of the New York Federal Reserve bank.

Mr. Williams also announced that he had congratulated Mr. Mitchell, president of the National City bank, on making available \$25,000,000 to break the credit jam that sent call money to 20 per cent and attempted to offset what Williams said many considered the "vicious misconduct of the Federal Reserve board in attempting to destroy the large business interests of the country."

Senator Glass had characterized Mitchell's action as "slapping the Federal Reserve board in the face," in demanding Mitchell's resignation.

Mr. Williams is a brother of the late John Skelton Williams, comptroller of the currency in 1920, and is also president of the Virginia Central railroad, a small Virginia line.

His telegram to Senator Glass was as follows:

"Referring to your call on Mr. Charles Mitchell to resign from the Federal Reserve bank at New York, I believe that it would be far more appropriate that you should resign as senator from Virginia and let some one of broad and clear vision, like Gov. Harry Byrd, who is not drowned in self-conceit and narrow-gauge thinking, take your place in the senate of the United States as a real broad-gauge representative of Virginia.

"The scandalous piratical deflation policy of 1920 seemed to have your cordial approval on the theory that it was necessary to burn down the barn in order to kill a few rats, and now you take the astonishing position that 15 per cent money rates can be justified when some of the reserve banks show 80 per cent reserve on hand. This situation, in the opinion of far-sighted, fair-minded, clear-visioned business men, shows utmost lack of grasp of any intelligent and far-sighted handling of the present situation. Some of the Federal reserve governors and yourself seem to be in a conspiracy to destroy the prosperity of the country for the sake of controlling a few undesirable situations which will remedy themselves by natural laws if not interfered with by political office holders. I am convinced that you can best serve your country by returning to your native county and running your cattle farm rather than by mixing in the big business whose importance and magnitude you do not seem to be able to grasp.

"Men of narrow vision do not realize that the money center of the world has moved from London to New York, hence trading in New York has necessarily increased, and furthermore the large bills payable of the giant industrial companies have been converted into stocks that are now used as basis of credit instead of having the big banks carry tremendous bills payable of our modern giant corporations as formerly."

"Langbourne M. Williams."
