International Sunday School Lesson for April 21
COMFORT FOR GOD'S PEOPLE
Isaiah 40:1-11

In the midst of troublesome times the prophet is declaring the blessed condition of the future. Judah as well as the ten tribes of Israel must be carried away into captivity but there would be a return to the land which Jehovah gave in perpetuity to his people. The day will again come when the Hebrew will regain his tribal possession in Palestine. Modern ionism is in full accord with the teaching of the Bible.

Here is a lesson study where you will do well to consider the exact words of the text. Their content is rich in blessedness. The very sound and phrasing is quieting and is like an oasis in a vast desert of dreariness, for too often, such is our daily life. With special emphasis, by reason of the repetition, the Almighty commands the prophet-messenger to advise His people that there are restful days ahead. Therefore, even now there is reason to enjoy the repose of the soul that is possible for the child of God. Turning away from God led to the captivity of Babylon. The peace that passeth all understanding was still to be the portion of His people.

The rough pathway of life, was to be made easy for the pilgrim en route to the eternal Zion. Filling in of valleys and lowering of mountains sounds like modern methods of road construction. In the Orient such things have often been done to make ready for the coming of an earthly king. Now prophecy says that royal preparation shall be made for just the ordinary traveller heavenward. Withal, the glory of the Lord shall be in evidence and no one shall miss that glorious sight.

Frailty in human life is akin to the grass of the earth. The majority pass on early and few live beyond the proverbial four score years. In marked contrast the "word of our God" is presented. Here is that which must continue to abide. Think of the attacks on the Bible through all the ages past. Many think it is an indication of genuine smartness to endeavor to discredit the Holy Bible. Groups and even nations have sought to show the Bible worthless. But there never was a day when this Book was more firmly established as the guide for man in this life and even unto Heaven. The product in applied Christianity is sufficient evidence for us to accept its teachings and live accordingly.

High privilege is given to Isaiah as he is told to seek a mountain, as it were, for a pulpit and proclaim the glad tidings to all Zion. Throughout the holy city, Jerusalem, he was to go and let his voice ring in the streets, declaring "Behold, your God!" Jewry would be great, and is marvelously so, because of their Jehovah. He gives rewards for obedience and makes joys to abound for his children. Herein is the basis for the opening words of encouragement, "Speak ye comfortably to Jerusalem."

Under the simile that is repeated so often in the New Testament another pastoral scene is presented. He is the Great Shepherd of his sheep and will feed them all in his omnipotence. The little lambs are likewise his constant concern. He will adjust his step to their ability and when one is too small or weak to walk he will "carry them in his bosom."

Chevrolet Runs Up New Record

All monthly production records in the history of the Chevrolet Motor company were broken in March, when the company produced 147,274 cars and trucks. A factory statement explained that this figure was considerably in excess of preliminary production schedules and was made necessary to more fully accommodate an increasing demand for the new Chevrolet six.

This March record compares with 133,657 units for March of last year, and with 121,249 for February of this year. It exceeded by nearly 7,000 units the best previous month in the history of the company, which was May, 1928, when output totalled 140,775 units.

The March performance enabled the company to exceed all records for the first quarter of the year, with a total of 354,701 units as compared with 342,184 for the first three months of 1928.

In preparation for what promises to be the biggest spring business on record, the manufacturing division is operating on the heaviest schedule ever undertaken by the company. The company's sixteen giant factories are speeding toward capacity operation with all the haste consistent with precision manufacturing, it was announced. Officials predict that the record activity planned for April will result in another monthly record and for the second consecutive month establish a new mark.

Don't whine about your lack of opportunity. There are opportunities for every one who is able to convince the world by his industry that he is worthy of success.

We are in the automobile business, but we have 170 bushels of first grade oats for sale. Ask for a price on them.

The very dumbest girl I ever heard of was the one who was fired from the ten cent store because she couldn't remember her prices.

We have three good Model T trucks at a good price. If you are in need of a good truck come in and look them over. Maybe you have something to trade in on a truck. We will trade for most anything if the price is right.

Girl (in Smith): "I love the way the boys down here talk."

We have some good used cars in stock. Come in and look them over.

We believe the price is right. If you don't think so, we are glad to talk to you about a car, for it takes two to trade.

Girl Friend: "Yes, it must be that Mason-Dixon line that you have heard about so much."

Be sure and take a ride in the New Ford before you buy your next car. We are glad to demonstrate at any time.

Announcement
Mr. and Mrs. Sam Apple announce the arrival of a pair of twins. From a friend we have learned that they are peaches.

Let us give your car that spring cleaning and greasing.
