

**CITATION FOR LETTERS OF ADMINISTRATION**  
 The State of South Carolina, Laurens County.  
 By O. G. Thompson, Probate Judge:  
 Whereas, Mrs. Mary G. Davis made suit to me to grant her Letters of Administration of the estate and effects of Geo. M. Davis.  
 These are therefore, to cite and admonish all and singular the Kindred and Creditors of the said Geo. M. Da-

vis, deceased, that they be and appear before me, in the Court of Probate, to be held at Laurens Court House, Laurens, S. C., on May 6, 1929 next, after publication hereof, at 11 o'clock in the forenoon, to show cause, if any they have, why the said Administration should not be granted.  
 Given under my hand this 20th day of April, A. D., 1929.  
 O. G. THOMPSON,  
 J. P. L. C.

**SUNDAY SCHOOL LESSON**

By Rev. Samuel D. Price, D. D., Associate General Secretary of the World's Sunday School Association.

International Sunday School Lesson for May 5  
**WHAT HILKIAH FOUND IN THE TEMPLE**  
 2 Chronicles 34:14-16, 29-33

Kings in Judah continued to be both good and bad. The actions of the people reflected the attitude of their monarch. Manasseh and Amon, predecessors of Josiah in the kingship, were notoriously vile in what they did and encouraged the people to do. The pure worship of Jehovah was discarded for the basest forms of idolatry that were observed right in Jerusalem. Even worse, images of licentiousness were set up in the temple itself.

Josiah began his reign at the age of eight. Credit for his right pathway must be given to his advisers, such as Hilkiah, Shaphan, Huldah and Shalum. When conscience is not distorted we usually have a fairly safe guide. The statement of the wife about the collar that her husband was examining is also good for daily practice: "If it is doubtful, it is dirty." Very early in his reign Josiah started a general moral housecleaning throughout his empire. He began in Jerusalem and within the temple itself. Aids to the idolatry and vileness were destroyed. Preparation was made to call the people back to God and His ways by getting ready to re-establish the worship as of old.

While clearing rubbish from the temple and its adjoining rooms, Hilkiah came upon some rolls of writing on parchment that proved to be our Pentateuch, in whole or in part. Herein were the very laws regarding ceremony and worship, as well as rules for right living, that had been the guide of the Hebrew nation from the time of the exodus from Egypt. What Jehovah had delivered by way of commandments at Mount Sinai were recorded thereon.

Hilkiah was the high priest. He hastened to Shaphan, the scribe, and

announced "I have found the book of the law in the house of Jehovah." Then the king was advised and also rejoiced that now they had the exact teaching of God concerning the work of reform that they had already undertaken. All these men in office made careful personal study that they might act accordingly.

These Scriptures were also the blessed heritage of all the people. Therefore a summons went forth that all should assemble in the courts of the temple and give attention to the formal reading of these rolls, or at least the major commands therein.

Together with the commands was the statement of the covenant that Jehovah would enter into with them, when they would do their part in full obedience. Promise of future blessing is always made to those who will forsake their sins and live according to the divine will. Josiah fully identified himself with his people and personally, and on their behalf, revolved unto the Lord. Thus was the covenant of promise renewed by the ever-willing Father. The vow included "to walk after Jehovah, and to keep his commandments, and his testimonies, and his statutes, with all his heart, and with all his soul, to perform the works of the covenant that were written in this book." Josiah really meant business, for the record is "He caused all—to stand to it."

The practical application is for each one of us to make fullest use of this Bible which contains not only the same laws of Moses but also the teachings of Jesus. Benjamin Franklin said "My advice to you is that you cultivate an acquaintance with and a firm belief in the Holy Scriptures."

**RELIEF BILLS FACE CONGRESS**

Storm, Fruit Fly and Farm Measures Up. Aid Voted To Southern Tornado Sufferers.

Washington, April 29.—Three forms of relief legislation—farm, storm, and pest—received attention from congress today and out of the discussion one measure emerged for President Hoover's signature.

The senate sent him the house bill making \$4,250,000 immediately available for combating the Mediterranean fruit fly in the South. The house passed the measure last week. A proposal to make available \$2,000,000 for the relief of tornado sufferers in Georgia, Alabama and South Carolina was passed by the house and sent to the senate. It was offered by Representative Larsen, Democrat, Georgia.

Senator Heflin, Alabama, occupied the senate at length discussing his resolution which would place the senate on record as condemning the treatment accorded him after a Ku Klux Klan speech at Brockton, Mass., but action on the proposal was again postponed.

Washington, April 29.—Notice was given the senate today by Chairman McNary of the agriculture committee, that a final vote on the farm relief bill would be sought before the weekend adjournment on Friday.

Before the final vote is reached, administration leaders will call for a decision on the export debenture section opposed by President Hoover and against which they claim to have a majority.

Advocates of the debenture plan today continued their efforts on its behalf but a division of sentiment was noted among them over the amendment proposed by Senator Norris, Republican, Nebraska, to provide a reduction of debenture rates whenever overproduction is forecast in a debenturable product.

The amendment was opposed on the floor by Senator Caraway, Democrat, Arkansas, who with Senator Norris is among those leading the sentiment for the debenture section. The Arkansas senator contended that the amendment in effect penalized the farmer for putting to use the production advice issued in government bulletins.

The amendment of Senator Norris was offered by him in the hope of gaining support for the debenture section. It provides a graduated scale of reduced debenture rates when increased production is forecast, the reduction being in comparison with the rate of increase.

Senator Caraway described the amendment as a proposal in direct conflict with the policy of the agricultural department.

**A Meat Course That's Different**

Wash two small calf hearts, remove large veins, sprinkle with salt and pepper and insert following stuffing: 1 minced onion, 2 cups bread crumbs, 1 cup stock, 1 tablespoon parsley, 1-2 teaspoon salt, 1-4 teaspoon pepper, 1 tablespoon bacon fat, 2 tablespoons butter, 1 tablespoon minced celery, 2 teaspoons A-1 sauce. Lard with bacon, dredge with flour, sear on all sides; then add 2 cups water or stock and cook slowly until tender.

**TEXTILE PROBE BEFORE SENATE**

Resolution Calls for Investigation of Southern Mills. Carolina's To Fore.

Washington, April 29.—Investigation of working conditions in the textile industry of North and South Carolina and Tennessee was proposed today in a resolution introduced by Senator Wheeler, Democrat, Montana.

On objection of Senator Simmons, Democrat, North Carolina, Wheeler said that he was willing for the proposed investigation to be extended to include the entire country.

Simmons declared he saw "no necessity" for the investigation because federal agencies already were asked to undertake such inquiries.

"It does not seem to me," he said, "that the investigation would be justified but if it is, then I insist that it shall not be sectional but shall include the whole country."

Senator Walsh, Democrat, Massachusetts, whose state has large textile interests, approved the proposal to widen the inquiry. The resolution was referred to the committee on manufacturers whose new chairman, Senator LaFollette of Wisconsin, announced he would call the group to consider it within the next few days.

Textile strikes have been under way in the three Southern states and the investigation which would be undertaken by the manufactures committee would seek to ascertain whether textile workers were being paid "starvation wages despite the fact that the industry is the beneficiary of the highest tariff protection granted any industry in the United States."

The committee also would be directed to report whether men, women and children were obliged to work sixty hours a week for "wages insufficient to permit a human being to live in decency," whether "enormous" dividends are being paid by the corporations and whether their appeal for a higher tariff is justified.

Expenses of the committee would be limited to \$10,000.

Protesting against what he described as "lavish expenditure" of money for investigation, Senator Overman, Democrat, North Carolina, urged an inquiry into the activities of communists and suggested that the American Federation of Labor be asked about them.

**How To Can Rhubarb**

Cut young, tender rhubarb in small pieces without peeling. Pack in jars, fill to overflowing with cold water and seal with new rubbers on jars. Let stand 24 hours. Drain water from jar; fill to overflowing with fresh cold water and let stand 24 hours again. Drain, refill with fresh cold water and seal permanently.

**All-Spring Foods**

- Stuffed eggs
- Cream of parsley soup
- Braised lamb
- New potatoes
- Creamed spring cabbage
- Endive—Russian dressing
- Strawberry short cake
- Coffee

**Your MODEL T FORD is still a good car**

THE Model T Ford led the motor industry for twenty years because of its sturdy worth, reliability and economy. Those same reasons continue to make it a good car.

As a matter of fact, nearly one-fourth of all the automobiles in use today are Model T Fords. Millions of them can be driven two, three and even five more years with reasonable care and proper replacements. Figures show that the average life is seven years.

Don't sacrifice your Model T, therefore, but take it to the Ford dealer and have him estimate on the cost of putting it in A1 shape. A very small expenditure may be the means of giving you thousands of miles of additional service.

For a labor charge of \$20 to \$25 you can have your motor and transmission completely overhauled. This price includes new bearings, reboring cylinders and any other work necessary. Parts are extra.

Valves can be ground and carbon removed for \$3 to \$4. The cost of tightening all main bearings is only \$6. The labor charge for overhauling the front axle is \$4.50 to \$5—rear axle assembly, \$5.75 to \$7.

New universal joint will be installed for a labor charge of \$3. Brake shoes relined for \$1.50. Rear spring and perches rebushed for \$1.75. The cost of overhauling the starting motor is \$3. A labor charge of approximately \$2.50 covers the overhauling of the generator.

It will pay you, therefore, to see your Ford dealer and have him put your Model T in good running order. By doing so you will protect and maintain the investment you have in your car and get months and years of reliable transportation at a very low cost per mile.
