Badly Run-Down

"Six years ago, I was very much run-down," says Mrs. Olympia Knight, of Lovett, Ga. "I did not sleep well, and was weak and restless. I dragged around the house with not enough strength to do my daily tasks. I worried a lot, and this disturbed state of mind reacted on my health. I had often read of Cardui, so I thought I would try it. I soon began to improve after I had taken Cardui for a while. It was astonishing how much I picked up. I slept better, my appetite improved, and that awful dragging-down feeling left me. I was so much better that I continued taking Cardui until I felt perfectly well. Cardui has been used by women for over 50 years. For sale by all druggists."

HURTING HOOVER'S HAND TWO DIRE POSSIBILITIES CAPITAL PUNISHMENT NEWS FOR FARMERS

President Hoover's hand is sore after shaking hands with 1757 fellow citizens in one day.

Why shake hands? Especially when your fellow citizen, pushing a plow professionally, shows his appreciation with a grip developed by holding the furrow straight among stones.

In France important men meeting embrace each other. We don't do that. Why shake hands? Why not invent something else? Rubbing noses, Indian-fashion, would not do; too many germs. Why not simply look the row of 1757 proud Americans straight in the eyes, and say "How do you do?"

Will Rogers understands public sentiment, expresses it tersely and affects inaccurate use of English, despite the training at Eton and Oxford.

He says, "There is two things that can disrupt business in this country. One is war and the other is a meeting of the Federal Reserve Bank."

War, fortunately, is suspended for the moment.

Fifty-two thousand Britains demand abolition of capital punishment. In England criminals are hanged. They don't use fancy electric chairs, reserving science for better things than killing men.

An end of capital punishment would be a step toward civilization.

Meanwhile, British capital punishment shows common sense.

When one Briton kills another, they hang him a few weeks later. No years of delay for appeals, delivery of bouquets and sympathetic letters from ladies.

British criminals, knowing this, rarely carry deadly weapons on burglary expeditions, since using them to kill would mean hanging. Here it means hiring an able lawyer.

Rudolph Kawlikowski, head of the Kosmos Machine Works, of Goerlitz, Germany, and a serious scientist, has interesting news for farmers.

He says they can run motors with dust made of pulverized coal, charcoal, farm waste and other substances.

Kawlikowski runs an eighty horsepower Diesel motor with pulverized vegetable materials, costing 75 per cent less than gasoline costs in Germany.

Dried and ground cornstalks could run all the farm machinery.

Everybody knows the terrific explosive power of dust as demonstrated in exploding grain elevators. Controlling that power in motors is new.

Twelve hundred advertising agencies and writers are asked to compete for a prize of \$1,000 answering the question, "Why Go to Church?"

What would your answer be?

An answer to the question would be, "The only important thing about a man is his conception of Divine intelligence and wisdom." In other respects, he is like mice, frogs and guinea pigs. So, go to church and prove that you are not a guinea pig or a mouse.

Convict Pair In Narcotics Case

Florence, April 27.—Eugene Roark and his wife, who goes by the name of Jeanette Horn, both of Florence, were found guilty on charges of violating the Harrison Narcotic act by a jury in the United States court for the eastern district of South Carolina here this afternoon. Each was sentenced by Judge Ernest F. Cochran to serve four years in Federal prison.

Twenty-five ounces of what was said to be smuggled morphine were found in the Roark home by officers who searched the place in January of this year. The dope was said to have had a bootleg value of between \$20,000 and \$25,000. It was concealed in a trap.

ERSKINE MAN WINS CONTEST

Graham Reid Takes First Place In Oratory. Furman and Wofford Take Second and Third.

Rock Hill, April 26.—Graham Reid of Dye West, representing Erskine, tonight won the 31st contest of the South Carolina Intercollegiate Oratorical association, held in the auditorium of Winthrop college. To Herman S. Ray of Furman, went second place, and to T. W. Herbert of Wofford, was given honorable mention.

Mr. Reid, whose subject was "The Cry of a Brother's Blood," is a junior at Erskine and is 21 years of age. Mr. Ray, who is from Japan, is 21, and is a senior at Furman. Mr. Herbert, who is from Spartanburg, is 20, and a senior at Wofford.

The nine male institutions of higher learning in the state were all represented. In addition to the winners, the speakers (listed with no reference as to how they finished) were: John Madison Younginer of Columbia, University of South Carolina; E. B. Hallsall of Charleston, College of Charleston; T. M. Johnston of Jefferson, Ga., Presbyterian college; J. C. Galloway of Lynchburg, Clemson; Herman L. Frick of Chapin, Newberry; Johnson Hagood of Aynor, Citadel. The judges made no announcement as to how these six men ranked in the decision.

The Winthrop orchestra played and the Freshman glee club sang. E. W. Culbertson of Newberry college, president of the association, presided. The Rev. B. R. Turnipseed of St. John's church, Rock Hill, made the invocation. J. Thomas Brown of the Winthrop faculty welcomed the visitors. The speakers, the officers of the association and the executive committee sat on the rostrum. The judges were: Judge E. C. Dennis of Darlington, Dr. A. Vermont of Converse college, Edward Guerry of Charleston, Prof. J. T. Brown of Winthrop college, and A. W. Huckle of Rock Hill.

To the winner went the coveted association medal and to his college went the Sylvan cup. To the second place man went an association medal. These presentations were made by President Culbertson, under whose guidance the association has had a most successful year.

At the annual business meeting Friday morning O. T. Cooksey of the Citadel was elected president. Other officers named were: A. T. Tamsbey, College of Charleston, vice-president; R. W. Stokes, Wofford college, recording secretary; R. H. Ackinson, University of South Carolina, corresponding secretary; L. Ross Lynn, Presbyterian college, treasurer. Members of the executive committee will be: F. B. Farr, Clemson college; D. M. Lawton, Erskine college; Bruce Thompson, Furman university, and H. L. Shull, Newberry college.

Furman Takes Double Debate

Furman university defeated P. C. in a double dual debate on Thursday evening. The query for the debate was "Resolved, That some substitute should be found for the present jury system." This is the Pi Kappa Delta query and it has proved itself to be quite popular among the colleges during the present debating season, having been used in the Wofford-Newberry-P. C. triangle, Carson-Newman-P. C., and Mercer-P. C. debates.

P.C.'s affirmative team, composed of T. E. Davis and J. T. N. Keels, opposed the Furman negative team in

Perfection Brand

Try our special 10-4-4 cotton guano. It's fine.

Soda
 Genuine Chilean nitrate in brand new bags. See us for car lots, ton lots, or by the bag.

Sulphate of Ammonia
 See us for any amount from a car load down to a dime's worth for your flowers.

Acid Phosphate
 We have 100 tons of 18% as well as plenty of 16%.

Kainit
 We import it.

Potash Salts
 Ditto.

C. S. Meal
 Most of it is in our "Perfection Brand" fertilizer but we have several car loads on hand for feed purposes.

Plenty On Hand
 We have plenty of everything from 8-3-3 up to 12-4-4.

CLINTON COTTON OIL CO.

the debate held here, while T. J. Cole and E. D. Brunson met the Furman affirmative team in Greenville.

G. G. Palmer presided over the debate held at P. C., and the judges were Rev. Edward Long, Rev. C. B. Betts and W. W. Harris. Furman was represented by C. C. Saunders and Bruce Thompson, who won a two to one decision over Davis and Keels. Both teams showed a great deal of ability and preparation, the furman team being the best team that has appeared at P. C. in quite a while. All four speakers were good, but Thompson of Furman, deserves particular recognition for his excellent debate.

Cole and Brunson lost their decision to the Furman affirmative team, composed of Beach and Barber, at Greenville, thus giving Furman a clear-cut victory over P. C. This is the first time that these schools have engaged in a debate and it is hoped that this will become an annual affair.

Another Record!
 over

500,000
New Six Cylinder CHEVROLETS
 since Jan. 1st

Again, Chevrolet Surpasses Its Most Brilliant Record of the Past by Producing over 500,000 Six-Cylinder Chevrolets in Four Months—a Greater Number of Six-Cylinder Cars than Any Other Manufacturer Has Ever Built in an Entire Year!

Even with such an impressive record to focus attention upon the outstanding value of the Chevrolet Six, many people still do not appreciate what "a Six in the price range of the four" actually means!

Here, at prices so low as to be within easy reach of anyone who can afford any automobile, are afforded all the smoothness, reserve power and quietness of a great six-cylinder valve-in-head motor. In its speed, its acceleration, its absence of vibration and drumming and, above all, in its economy of better than 20 miles to the gallon it completely revolutionizes every previous standard of

performance in the low-price field.

And in beauty and comfort, as well as in performance, the new Chevrolet Six ranks as an outstanding achievement.

Its new Fisher bodies are beautifully finished and luxuriously appointed. Steering is delightfully easy, due to a full ball bearing steering mechanism. And the newly-designed 4-wheel brakes are powerful, quiet and unusually easy to apply.

If you are in the market for an automobile—come in! You owe it to yourself to learn why over 500,000 people have chosen the Chevrolet Six since January 1st!
