Hints for the Home

With summer days just ahead much thought will be given to the best way to protect summer foods.

With the growth of automatic refrigeration have come many changes which bring it closer to the average household, the latest development perhaps being the combined stove and refrigerator, both of which are operated by gas at a low cost per month for refrigeration which makes this combination a real economy.

New home-makers just outfitting the home find the combined units space and time-saving.

Bankers Gather At Greenville

Greenville, June 18.—Some 300 members of the financial fraternity of South Carolina were here tonight for the 29th annual convention of the State Bankers' association, the first session of which was held tonight.

Sessions of the convention proper will not begin until tomorrow morning at 10 o'clock, tonight's event being a cabaret entertainment and reception where entertainment held sway and business matters were left strictly over until tomorrow.

A local talent troupe furnished the cabaret acts tonight and the assembled keepers of the coin appeared to have forgotten boll weevil, floods, depressions and sundry other ills of recent months and years.

F. F. Beattie of Greenville, president of the association, will deliver his address tomorrow morning. Ladies attending the convention will enjoy a theatre party tomorrow morning and a luncheon party at the home of Mrs. Marion Brawley.
