A PROMISE

The fire that destroyed the Willis Furniture Store, the Putnam Drug Store and Rogers Grocery Store threatened to take our store also. Only through providence and the splendid work of the Laurens and Clinton fire departments was this prevented.

Although our building was not destroyed, smoke filled our store and water seeped through the wall.

We have taken inventory of our stock and will endeavor to collect from the fire insurance companies with whom we are insured, for the depreciation which has taken place on same.

This depreciation, I promise to pass on to the public when we open Friday.

I invite you to this bargain feast and assure you your fondest expectations of a fire sale will be fulfilled.
