### NUMBER 34

**OPEN SOON** 

### **COLLEGE FACES BRIGHT YEAR**

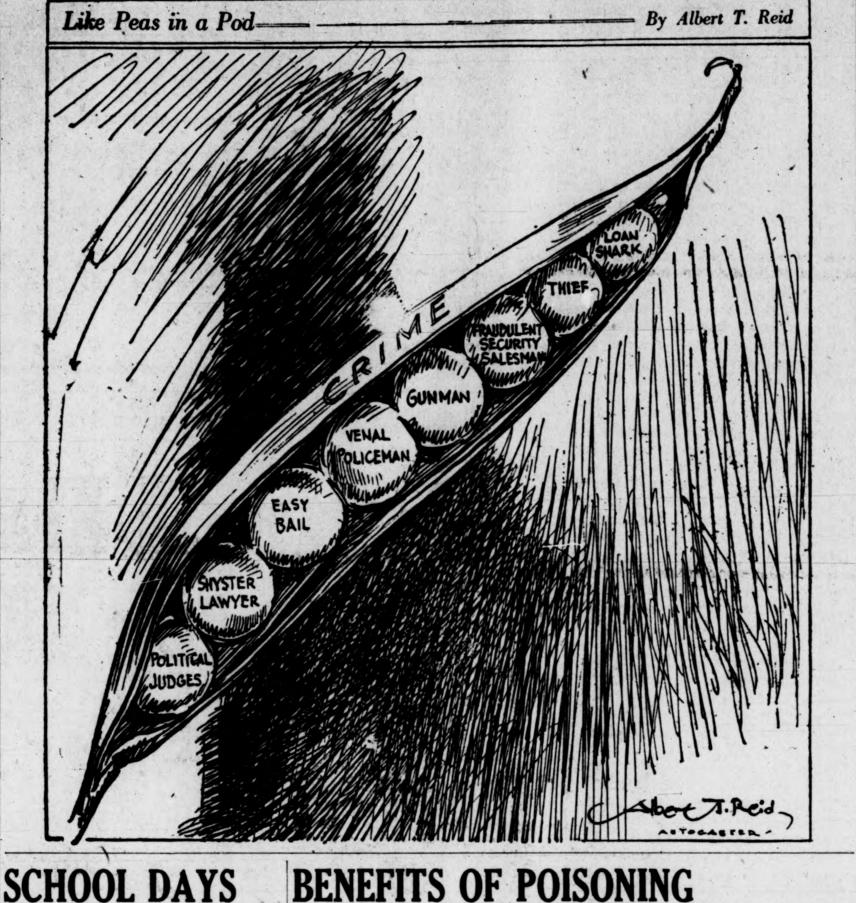

**All Previous Enrollment Records** Broken At Presbyterian. Largest Freshman Class Enrolled In Institution's History of Fifty Years.

The enrollment of new students for the approaching session at Presbyterian college has passed all previous records in the history of the college, and the prospects are for the largest freshman class since the institution was founded fifty years ago. The addition of the synod of Georgia to the constituency of the college has been felt in a largely increased enrollment of new students from that state.

The physical equipment has been largely renovated during the summer and all the dormitories put in shape for a record breaking attendance. The beautiful and commodious Leroy Springs swimming pool is rapidly nearing completion. The pool itself is complete except for the tiling which will begin at an early date.

This pool will be an addition to the handsome Leroy Springs gymnasium, conforming with it in architecture and design. Meeting all standard requirements for competition, it is expected that many college swimming meets will be held here in addition to the classes in aquatics and life-saving which will be a regular feature of college work added to the already splendid system of physical education work done at Presbyterian college.

Few changes will be made in the faculty for this year. Captain Robert E. Wysor, U. S. A., will be professor of military science and tactics, vice Colonel E. L. Glasgow, U. S. A., retired. Captain Wysor is a native of southwestern Virginia and is a gradu-

college. He has met with a most en- June for the coming year.

### William Moorhead

William Moorhead, young son of Mr. and Mrs. W. A. Moorhead of Goldville, left this week for a complete tour of North and South Carolina gathering statistics and data on the cotton crop outlook this fall. William will cover the two states thoroughly and forward his reports to J. A. Stewart, cotton statistician who is now engaged in similar work in the Texas. cotton area. Shortly after the closing Sawyer Explains of school, William accompanied Mr. Stewart on a trip through the cotton belt of the United States and into Mexico. His employer was so well pleased with the young Goldville lad and the interest he manifested in agricultural conditions that he has now put the Carolinas in his charge for a complete cotton compilation.

#### **ROSE'S TO OPEN SOON**

The Bee Hive store room recently leased for a long term by Rose's 5 and 10c store is now undergoing considerable remodeling. Part of the building will be sub-leased, it is stated, and the new owners expect to open for business early in September.
