Times are so hard that we can't spend much more for cigarettes than we do for the support of our churches. Yes-times are awfully hard.

THE WORLD SERIES

Again we are confronted with the phenomena of the world series. No so long a period. From 1884, when times. Providence won laurels as the world series winner, right up to 1928, when the crown went to New York, interest has been intense in every corner of the land. And now everyone is asking: What team will bring home the bacon in 1929? Philadelphia? Chicago?

Since the inauguration of the world series, many things have happened to captivate the fancy of a curious world. Radio, the modern miracle. The development of aviation. The epic-maktounding feat of the Graf Zeppelin. The growth of the motion picture and the invention of the "talkies."

There are a thousand more things to do than were in the old days. And so perhaps many of the old diversions are being forgotten.

But one thing has an eternal charm. Baseball will never lose its place in the affections of the multitude. The world series of 1929 is looked forward to as eagerly as was the world series of 1909. Other things may changebut the heart of the American is still the heart of a boy who knows that The State of South Carolina. one of the most important things in the world is to keep right on playing. No. sir! Nothing's going to distract Farmers National Bank, Plaintiff, from the world series!

Nobody's Business

By Gee McGee

It is not my duty or my purpose to suggest just how the farm relief board should run its business. I am a farmer all right, but I ain't no executive; have to be a farmer, as the old woman said when she trimmed her last corn.

I know that there are many, many things that might be done for the farmer. He needs something he hasn't got, but I am not sure that the farm' board can supply his lack. He has a hard time working and worrying, and the only time he's able to keep his old car running is immediately after harvest and during the Christmas holi-

The Federal Land Bank began to relieve the farmer 10 or 15 years ago. So far, it has relieved him of about it is not altogether the fault of either that this land has changed hands. Business is business. When a fellow borrows more than he can pay back, and it won't rain, he simply has to "let go" his collateral.

Now it would be mighty nice for this brand new farm relief board to buy the land now owned by the Federal Land bank and turn it back over tise! to the farmers so's they would have something to mortgage to get money to farm on and pay taxes with. Of course it should be sold back to the ing to stimulate business. Advertise! farmers at today's prices. Well improved farm lands which were mortgaged for, say 75 dollars per acre, by advertising.
