Did You Ever Stop To Think?

By Edson R. Waite

That you should buy products made or sold in your own home city.

That you should help to keep your local retailers, manufacturers and jobbers busy. By so doing you will help yourself by helping your city.

That buying at home keeps money circulating in the home city.

That where money circulates prosperity is found.

That this money works for the betterment and improvement of the home city.

That it will make more families happy and more people contented.

That it will increase faith in your city.

That it will make business so good that people will stop bickering.

Buying at home is a great help in promoting civic harmony and patriotism.
