

# GREETINGS

We would, indeed, be unappreciative if we did not pause today to extend to our many friends and patrons our sincerest Thanksgiving Greetings and to express our appreciation for the liberal patronage given us in the past. May these pleasant business relations always continue is our hope and aim, and we pledge our best efforts to please you as we serve you. We pause today to say —

# THANK YOU!

We hope that you have received your share of 1929's richest blessings and that the future will shower upon you and yours the utmost
