

We Wish You A Merry Christmas And A Happy New Year

This Holiday season gives us an opportunity to extend our greetings—to express our appreciation for your friendship and business during the year.

May this Christmas season bring you a full measure heaped up and running over. It is our sincere wish that Santa may be good to you and yours and that the years to come may be happy and prosperous.

Miss Margaret Finley, who is teaching at Cross Hill, is spending the holiday season with her aunt, Mrs. R. J. Copeland.

HUGH STODDARD GIVEN TROPHY

Carolina Player Gets Jacobs Award
At Luncheon of Clinton Rotary
Club Held Friday.

At a meeting of the Clinton Rotary club Friday held in his honor, Hugh T. Stoddard, a star football player on the University of South Carolina Gamecock eleven, was presented with the Jacobs medal and trophy for finest exemplification of team play and interference in South Carolina football this year.

After an invocation by the Rev. John McSweeney, president of Presbyterian college, with Dean Marshall Brown of the college, president of the Rotary club, presiding, William P. Jacobs, the donor of the trophy, presented the cup and medal with a speech. Congratulating Stoddard for his fine sportsmanship and ability, Mr. Jacobs emphasized the importance of unselfishness in sport and called upon the public for fuller appreciation of the hidden heroes of the gridiron.

Pointing out the importance of the idea rather than the man, and the high purpose of the donation, Coach W. L. Laval of the University of South Carolina made a very interesting address in which he told of the importance of interference. He, too, praised Stoddard for the important part he played in winning football. Mr. Laval told of many instances where interference proved the most important part of the game. He praised Presbyterian college teams as always clean, hard fighters.

Dr. D. M. Douglas, former president of P. C. and now president of the university, also an active member of the Rotary club of Columbia and honorary member of the Rotary club of Clinton, made a short talk, praising both the donor and winner of the trophy. He pointed out that the event was important in the development of a spirit of true sportsmanship.

Prof. A. J. Stoddard, professor of secondary education at the university and father of the winner of the trophy, made a few fitting remarks, as did Coach Tommie Scaffie of Wofford.

Many visitors attended the banquet attesting the growth of the idea and its popularity. It is hoped that with the aid of the press and the public football in South Carolina and all branches of sport will develop a new spirit of unselfishness and team play.

Twenty-two judges selected the winner, including the sport writers, coaches and officials. In addition to Stoddard the following who received votes were honorably mentioned:

Oglesby of Citadel, O. D. Padgett of Clemson (last year's winner), B. Dunlap of P. C., Jones of Clemson, King of Wofford, Reid of Erskine, Bob McCarley of Clemson, Swoford of Clemson, Chapman of Citadel, Smith of Furman, McMillan of Clemson, McIntosh of Citadel, Beall of Carolina, Gibson of Wofford, Carson of Furman, C. Rhame of Carolina.

LARGEST TIRE HERE MONDAY

Goodyear's New Pioneering Tire On Display At McDaniel Vulcanizing Works Draws Much Attention.

The world's largest automobile tire—a Goodyear—arrived here early Monday morning and was on display at the McDaniel Vulcanizing Works, well known local Goodyear distributors. Many called for an inspection and considerable interest was manifested by the public in the unusual demonstration. Goodyear, ever the pioneer, has built this largest of all tires to keep ahead of the world's needs. When a tire of this size is in demand, it is stated, no time will be lost in satisfying the market.

The tire is 2 feet high and measures four feet in width, and is standard in every respect except size.

The giant all-weather tread balloon required three months to build. Something of its size can be gained by the fact that the tire and wheel it is mounted on weigh 1800 pounds.

Forty-five minutes are required for inflation with a pressure of only three pounds.

The diamond treads measure 16 inches in length and 10 inches in width.

Goodyear purchased a specially constructed bus to exhibit the tire. It is attached to the rear of the bus by two shafts extending from the chassis.

MERRY CHRISTMAS

It Gives Us Much Pleasure to Pause in the Rush That Always Accompanies Christmas Eve to Extend Greetings To Our

PATRONS AND FRIENDS

And Wish for Each and
Everyone a

MERRY CHRISTMAS

and a
