ANNOUNCING PAYMENTS TO RAMBLER BUYERS AS RAMBLER'S SALES VOLUME INCREASES

Why You Should Join Rambler's New Crusade For Adequate Progress Sharing With Customers

GEORGE ROMNEY President, American Motors Corporation

"I believe participation by all consumers in economic progress is absolutely necessary in meeting the nation's economic needs."

engineering advances such as the acid-proof, rustproof Ceramic-Armored muffler and tailpipe. The Rambler line includes three basic sizes of compact cars—Rambler American, Rambler Classic and Ambassador, the latter two developed after the original American series.

RAMBLER SALES SOAR In two years, Rambler's per cent of market has more than doubled. For the last 38 straight months, Rambler sales have established a new record for that month. We want to continue this growth by serving you even better.

THE NEW RAMBLER CRUSADE Our new Rambler crusade, like our compact crusade, is based on sharing Rambler progress with car buyers.

We believe the new Rambler crusade has timely significance. Our country currently is experiencing a mild economic slowdown—with rising foreign competition and weakness of the dollar. Our larger competitors are considering partial manufacture and importation of cars for the U.S. market from abroad. There is a general profit squeeze.

We believe the greatest single economic cause is that relatively too much of the fruit of industrial effort has been going to a few well organized economic groups, not to the consumer.

CUSTOMERS TO SHARE RAMBLER PROGRESS We decided there was something we could do. We decided to share future progress with ALL customers who take

delivery of a new Rambler or new Metropolitan between December 1, 1960, and March 31, 1961, from an authorized Rambler dealer (excluding governmental sales), giving them most of the benefit of additional cost reduction resulting from further increases in Rambler sales volume. This can mean a sharing with Rambler buyers during the 4-month period of government savings bonds (Series E) with a maturity value from \$3,679,850 (10% sales increase), to \$24,930,750 (50% increase). See chart for details.

BOTH CUSTOMERS AND AMERICAN MOTORS GAIN

You have everything to gain and nothing to lose by joining this crusade. The same is true for us.

You can't lose because Ramblers are better than big cars and the best of the compacts. Ramblers are more trouble-free, more useful, lower priced.

You make your regular deal in the regular way for a new Rambler. You then may share proportionately in the economies and profits of higher Rambler volume in December, 1960, and the first three months of 1961.

We gain by acquiring more Rambler owners, which will make our growing market even larger in the future. That's because Rambler owners become Rambler salesmen and are the most loyal "repeat buyers" of any make.

Ask your neighbor all about his Rambler, then join the Rambler crusade. Join us in focusing the nation's attention on the essentiality of equitably sharing economic progress with ALL consumers if the WHOLE NATION is to prosper.

George Romney

P.S. Some may say one company can't do much about national problems as big and complex as those cited above. Well, that's what skeptics said about Rambler's first crusade. Let's remember, every great thing is born small. If this new Rambler crusade is right, it can succeed and spread, just as the compact car concept did.

Monkeys are caught by filling a coconut shell with chopped coconut meat. The monkeys grasp a fistful and, unwilling to let any go, cannot withdraw their paws. So, they are easy victims. The U.S. consumer is not yet as scrawny as shown, but unless there is a more equitable division of the productivity increases, he will get that way. One of the three American groups must get go, and set an example—or all will be captured and, along with the consumer, all will suffer.
