Laurens County Rep. David forts by Taylor after a petition

The Highway Department previously operated an office in Clinton but closed it last year and centralized its testing program in the Laurens office.

Clinton and Joanna petitioners protested that it was difficult to get to the Laurens office before the office's 5 p.m. closing time.

Taylor said that location of the Clinton office will be announced

The PC trustees also adopted a \$2-1/2 million budget for the 1969-70 fiscal year and reelected as its officers: Dr. Eugene T. Wilson, Atlanta minister, chairman; Industrialist James A. Chapman Jr., of Spartanburg, vice-chairman and William L. Watilins, Anderson attorney, secretary.

or 35 feet from the edge of the

road, whichever is greater.

The bill says that any material or work performed for the purpose of ingress or to egress from property not covered or authorized by the above section may be furnished or performed at cost. Such work may be done without cost in the event it is necessary by reason of death. illness or serious accident to permit the ingress or egree for ambulances or other emer- ton! gency vehicles.

Section four says the supervisor may work on travelable roads serving two or more bona fide and distinct property owners.

Section five says the supervisor may use work crews of the county "not otherwise needed for public work" to perform services for charitable organizations or cemeteries provided any cost shall be borne by such group.

The legislation leaves it to the county commissioners and the supervisor to determine what costs to the county should be billed to private taxpayers who get work done by the county.

The school's governing body, in official session Tuesday, approved recommendations of the South Carolina Commission on Higher Education calling for the General Assembly to provide financial help in the form of student tuition equalization grants

Its formal statement added:

"In urging action by the General Assembly the Presbyterian College trustees emphasize to the South Carolina legislators that 26 other states already have recognized both the value and the plight of their own private colleges by authorizing similar types of indirect financial help."
